## 1 Introduction

National Nutrition Mission targets reduction in the level of under-nutrition and other related problems by ensuring convergence of various nutrition related schemes. The Mission will monitor and review implementation of all such schemes. In this endeavor, the Mission seeks to utilize existing structural arrangements of line Ministries wherever available. The NNM would primarily be a monitoring and reviewing body for taking stock of monitorable indicators of nutrition centric schemes/programmes requiring convergent actions for better and effective delivery to the targeted beneficiaries. Information and Communication Technology enabled Real Time Monitoring (ICT-RTM) will be one of the tools utilized for the above.

One of the key interventions of the project is the ICT-RTM of ICDS aimed at improving the service delivery system of ICDS. ICT-RTM driven by Common Application Software (ICDS-CAS) largely comprises of a mobile application installed on a smartphone for use by the Anganwadi Workers (AWWs) and the Sector Supervisors. The data captured by AWWs is available on the centralized web-based ICDS-CAS dashboard for monitoring and review across different administrative levels including Block, District, State and Centre

With the deployment of ICDS-CAS, the usage of 10 out of 11 ICDS registers by the Anganwadi Workers (AWWs) have been eliminated, thus improving the efficiencies in service delivery. The objective of this initiative are as follows:

- Name-based registration of ICDS beneficiaries in each AWC catchment area
- Improvement in AWW efficiency and effectiveness by embedding job aids and tools in their mobile phones (e.g. Nutrition Counseling of Pregnant Women, Infant and Young Child Feeding practices, etc.)
- Monitor timelines and quality of service delivered to the beneficiaries by AWW
- Availability of reports and dashboards with information to various stakeholders for prompt action and decision-making

This document is a user-manual for the ICDS-CAS Dashboard and has been designed to help the Government at all levels (National Level to the Block level). This manual will enable the user to use the ICDS-CAS Dashboard on their computers to view real time information collected by the Anganwadi workers on their phones and provide timely supportive supervision. The six tier reporting structure enabled by ICDS-CAS is provided in Figure 1 below:

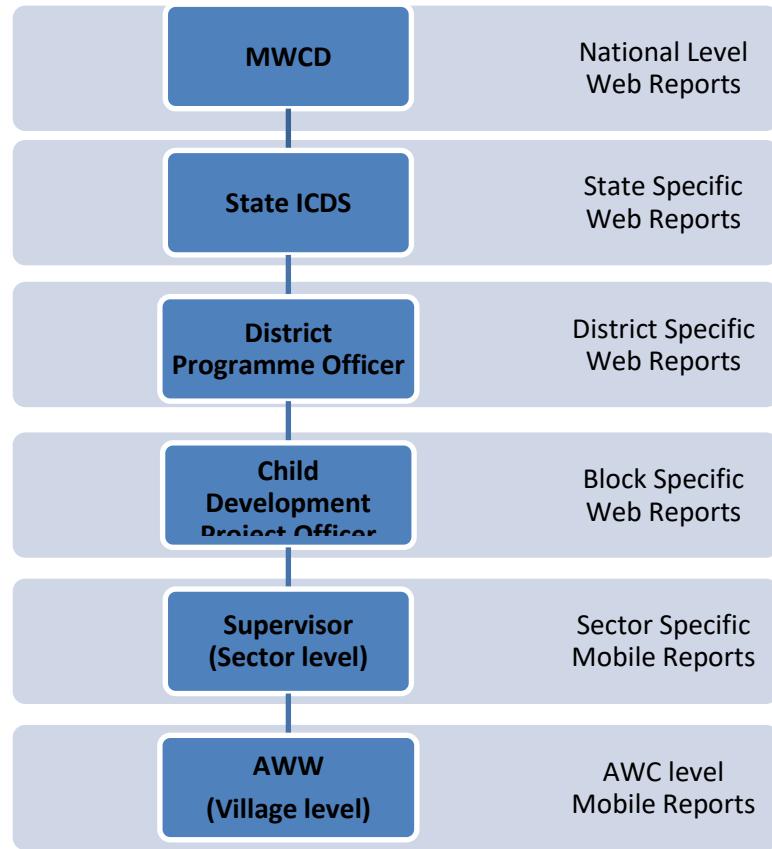

Figure 1: Dashboard Reporting Structure

## 2 ICDS-CAS Dashboard

The ICDS-CAS Dashboard has been created for use by MWCD officials at the National, State, District and Block Levels to be able to access real time information in order to:

1. View raw data submitted by AWWs and Lady Supervisors in a useful and easily understandable manner
2. Monitor and evaluate ICDS indicators in order to view progress and identify problem areas
3. Supervise the functioning of the ICDS program
4. Make prompt data-driven decisions to improve service delivery

In the Figure 2 below, a high level process flow of data collection from the end beneficiaries to the Dashboard has been depicted.

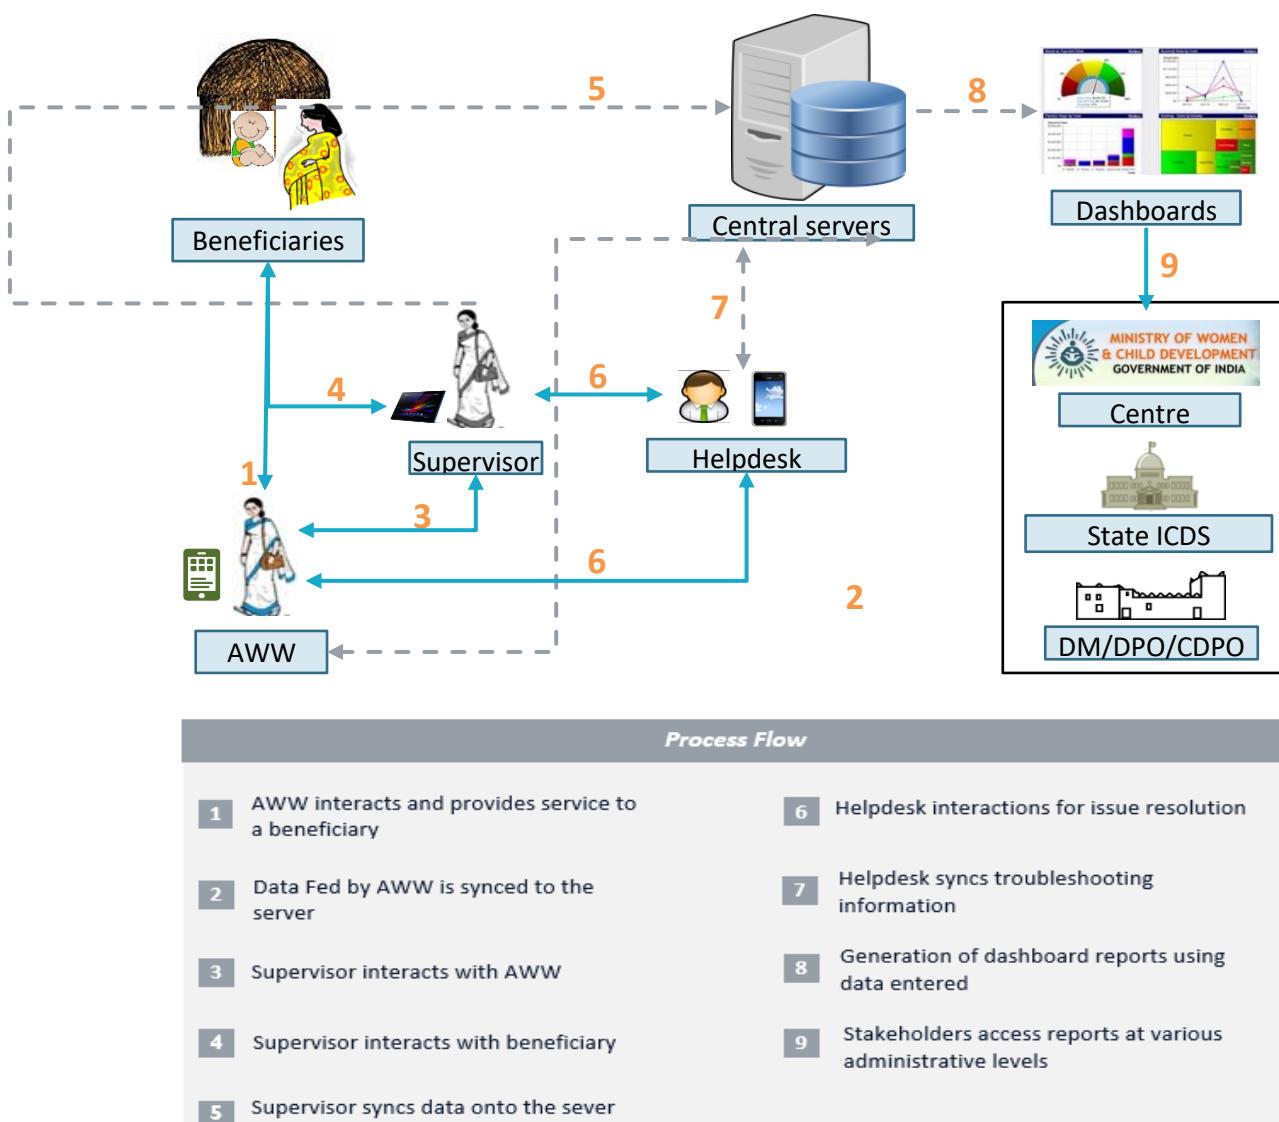

Figure 2: Data Process Flow

### **When is data being sent to the server?**

1. Data is sent to the central servers to update the Dashboards in real time (as user syncs with server)
2. Reports displayed on the dashboards will be updated once a day (Midnight IST) with data from forms submitted by AWWs and Supervisors.
3. Data will be displayed in accordance to the reporting period (i.e. monthly data)
4. Dashboard users may view up-to-date data at any time. However, to gather the most accurate picture of the ICDS program at the beginning of a month, dashboard users must view data for the previous month.

### **3 Log-in instructions for the ICDS-CAS Dashboard**

The ICDS-CAS Dashboard is a web based system. Each dashboard user will be given a username and password. The URL for accessing ICDS-CAS Dashboard is: [www.icds-cas.gov.in/a/icds-cas](http://www.icds-cas.gov.in/a/icds-cas). Navigate to this URL on your web browser.

**Note:** The most suitable browser to view Dashboards is Google Chrome or Mozilla Firefox.

1. You will be prompted to sign in
2. Enter the dashboard username and password as communicated to you
3. Click on Reports -->View All
4. Click on 'Dashboard ICDS-CAS' to view the Dashboard

Figure 3: Login Page

## 4 Navigating the ICDS-CAS Dashboard

Program Summary will be the default selection on the landing page of the dashboard. Each page of the dashboard displays data based on the administrative level of the user who logs in.

On the Program Summary page a National level user will view data for the entire country and can drill down to lower administrative levels (State/District/Block/Sector). A State level user can view data for the entire State and can drill down to lower levels (District/Block/Sector/AWC), a District level user can view data for his/her District and can drill down to lower levels (Block/Sector), a Block level user can view data for his/her Block and can drill down to lower levels (Sector).

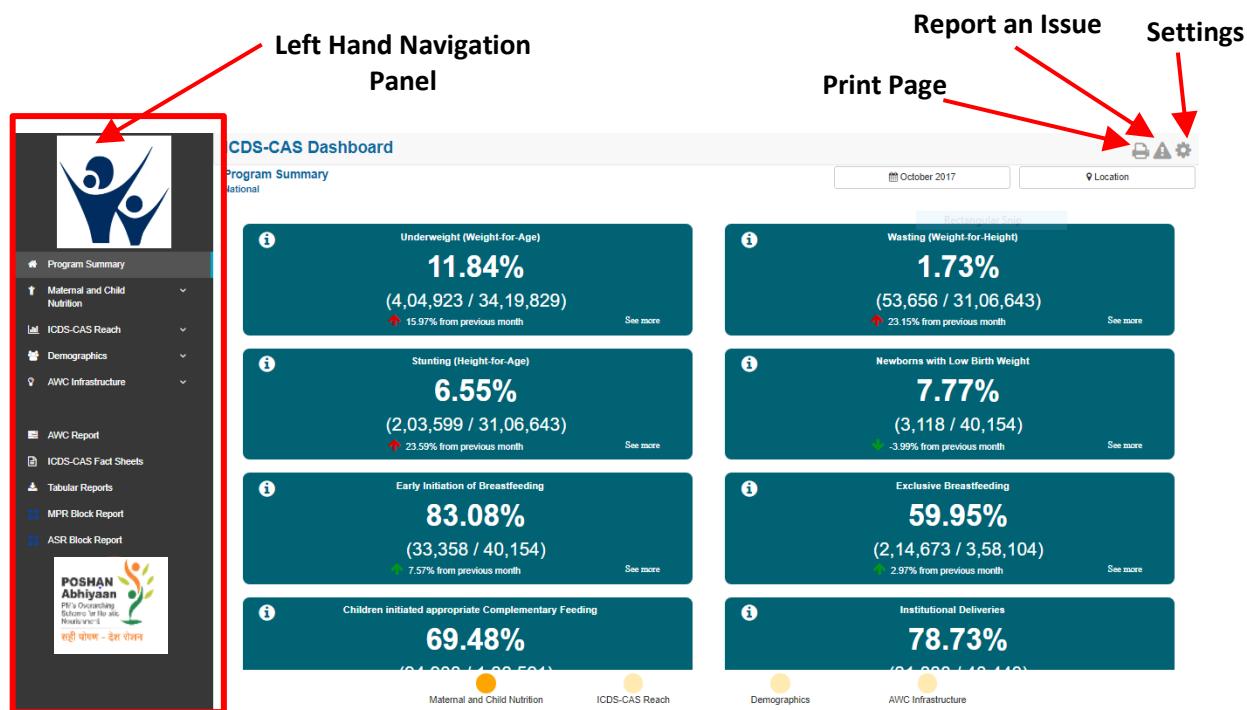

Figure 4: Landing Page

The **Left Hand Navigation Panel** has the following main sections:

### 1. Program Summary

This section highlights the key performance indicators for each of the following program areas:

- Maternal and Child Nutrition
- ICDS-CAS Reach
- Demographics
- AWC Infrastructure

### 2. Map and Chart Views

The following program areas are displayed on the panel with a dropdown menu of indicators under each area. In this section, visual representation of each indicator is available as Map and Chart views.

- i. Maternal and Child Nutrition
- ii. ICDS-CAS Reach
- iii. Demographics
- iv. AWC Infrastructure

### **3. AWC Report**

This section highlights individual AWC level details across various areas like Pre-School Education, Maternal and Child Nutrition, Demographics, etc.

### **4. ICDS-CAS Fact Sheets**

This section highlights the time-series data for each indicator organized by outcome areas like Behavior Change, Water, Sanitation and Hygiene, etc.

### **5. Tabular Reports**

This section offers access to download excel reports across various program areas like Demographics, System Usage, Child beneficiary list, etc.

### **6. MPR/ASR Block Report**

This section provides user links to the Monthly Progress Report and Annual Summary Report.

The icons on the top right side of the page provide access to the following functionalities which are explained below:

The '**Download User Manual**' icon allows the user to download a PDF version of the user manual

The '**Print Page**' functionality allows the user to print any page on the dashboard

The '**Report an Issue**' functionality allows a Helpdesk user to log dashboard related issues via the Issue Tracker Web Application. When a Helpdesk user clicks on 'Report an Issue', the dashboard will direct the user to the Issue Tracker Web Application. The user will be required to follow the steps on the web application to report a new issue. If an ICDS official (CDPO / DPO) intends to report an issue, he/she should contact the nearest District / Block Helpdesk.

The '**Settings**' functionality allows the user to manage account settings like updating personal information, changing password, etc.

The views for each level of the stakeholders are explained in the subsequent subsections.

#### **4.1 National Level View**

If a National Level user (MWCD / CPMU) logs into the dashboard, the landing page will show a National view as shown in the below snapshot.

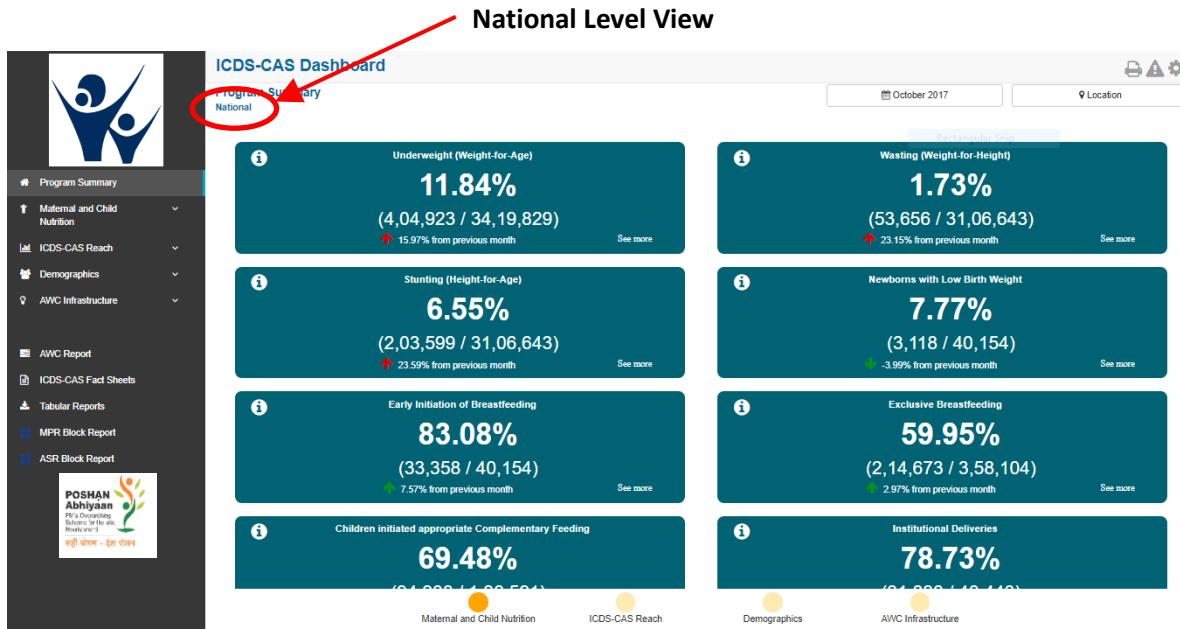

Figure 5: Landing Page: National Level View

## 4.2 State Level View

If a State Level user (SPMU, State Helpdesk) logs into the dashboard, the landing page will show a State level view as shown in the below snapshot.

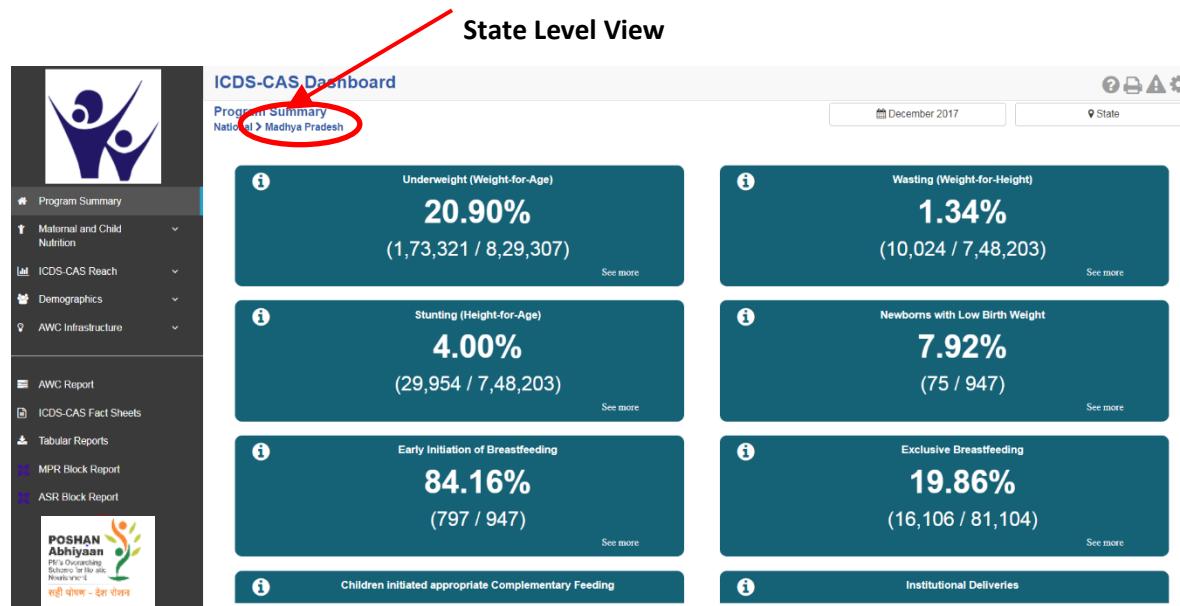

Figure 6: Landing Page: State Level View

## 4.3 District Level View

If a District level user (DPO / District Helpdesk) logs into the dashboard, the landing page will show a District level view as shown in the below snapshot.

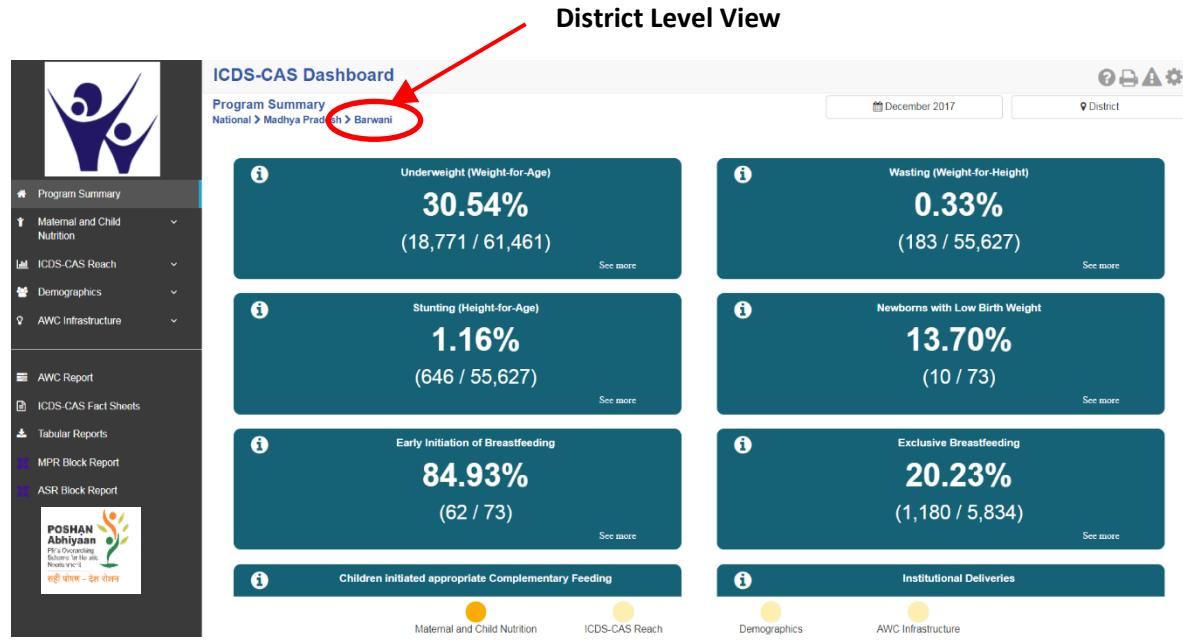

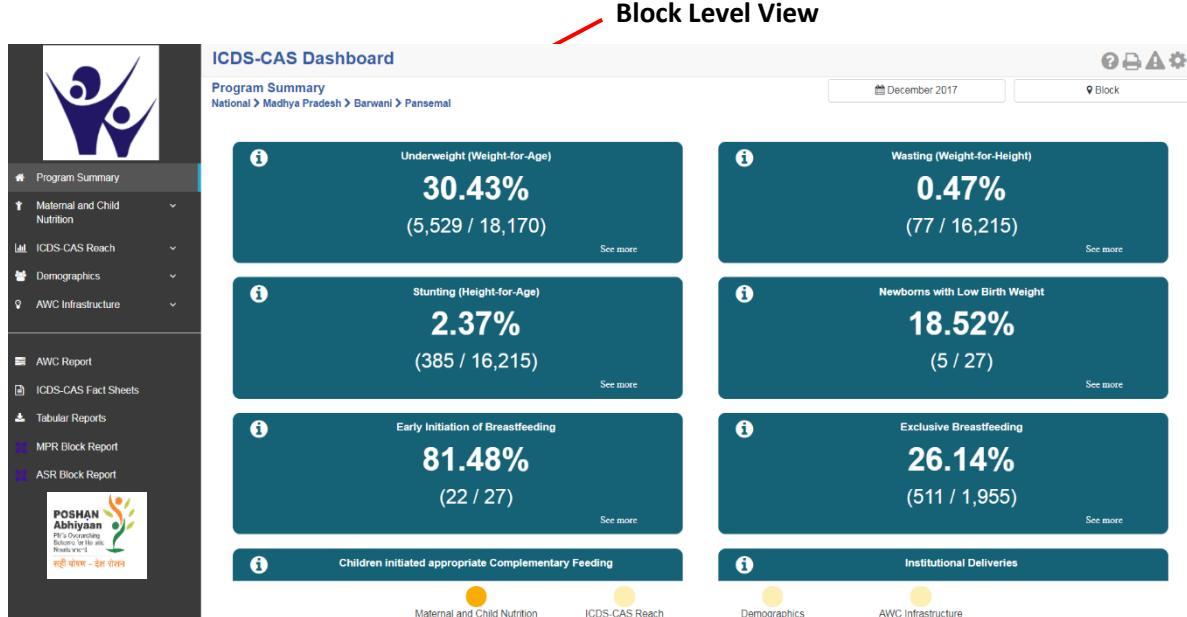

Figure 7: Landing Page: District Level View

## 4.4 Block Level view

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the landing page will show a Block level view as shown in the below snapshot.

**Note:** All the reports and indicators are updated for the current month from the 2nd day of the current month. Users will be able to see the current month in the dropdowns across the dashboard only from the 2nd day of the month.

## 5 Program Summary

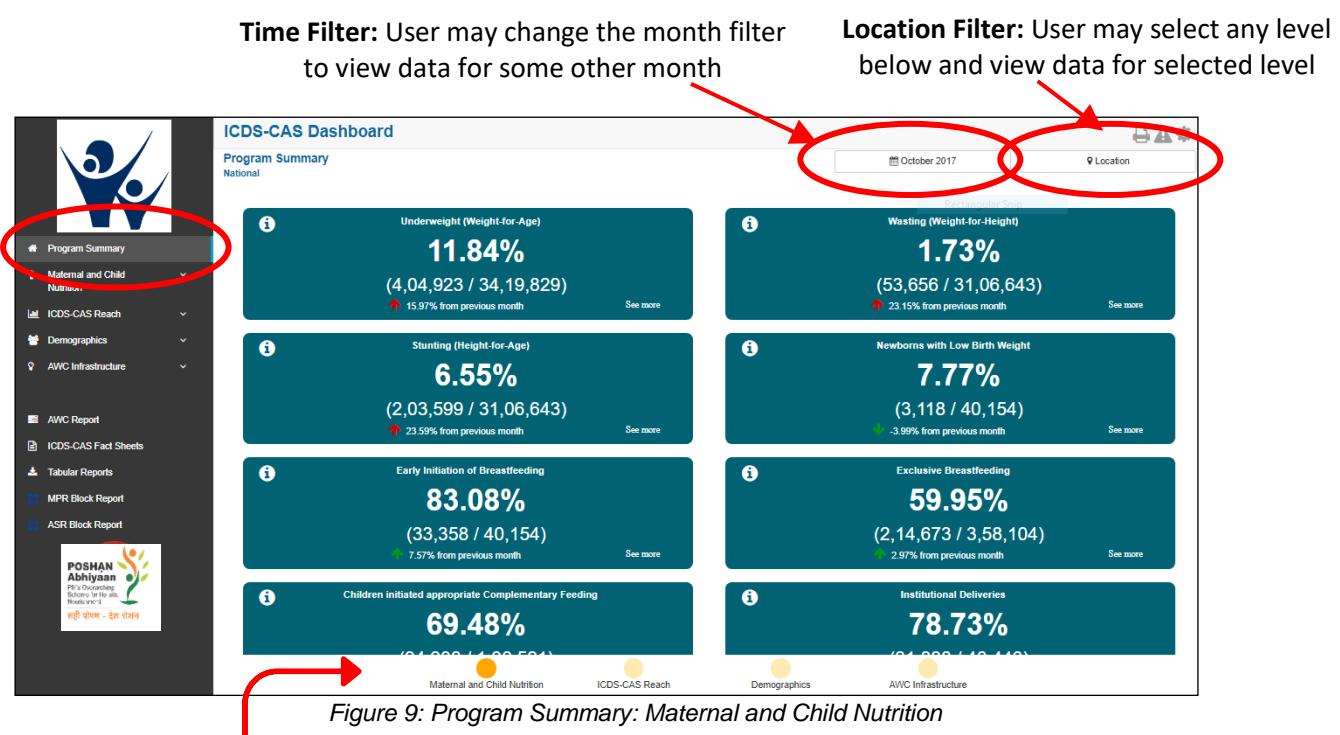

The section shows a consolidated snapshot of all the indicators in the form of Key Performance Indicator (KPI) cards. The user is able to view data for current or previous months by using the 'Select Month/Year' filter and/or can view data for various locations by using the 'Select Location' filter. For example – A State level user can drill down to District / Block / Sector / AWC but will not be able to view National level data.

**Select Month / Year:** The user can click on the time filter as shown in the figure below and select the Month / Year for which the user intends to view the data and click on 'Apply'. All the data on the page will change according to the selected time period. In order to gather the most accurate scenario at the beginning of a month, the user should view data for the previous month.

**Select Location:** The user can click on 'Location' as shown in the figure below and select the administrative level for which the user intends to view the data and click on 'Apply'

If the user selects an Anganwadi Centre (AWC) level, the dashboard will direct the user to the 'AWC Report' which is explained in detail in Section 10

Click bubble navigation to view key performance indicators for each program area

Program Summary page will display KPI cards for various indicators organized by each of the following program areas:

1. Maternal and Child Nutrition
2. ICDS-CAS Reach
3. Demographics
4. AWC Infrastructure

The user may navigate between the program areas using the bubble navigation provided at the bottom of the Program Summary page.

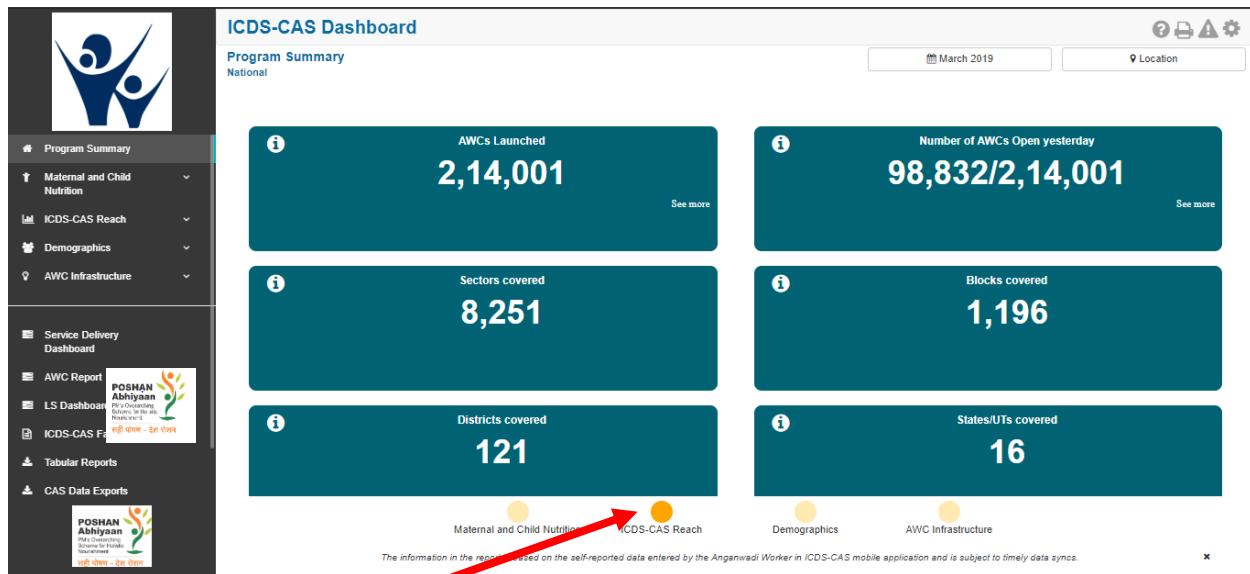

Figure 10: Program Summary: ICDS-CAS Reach

Click bubble navigation to view KPI cards for ICDS-CAS Reach

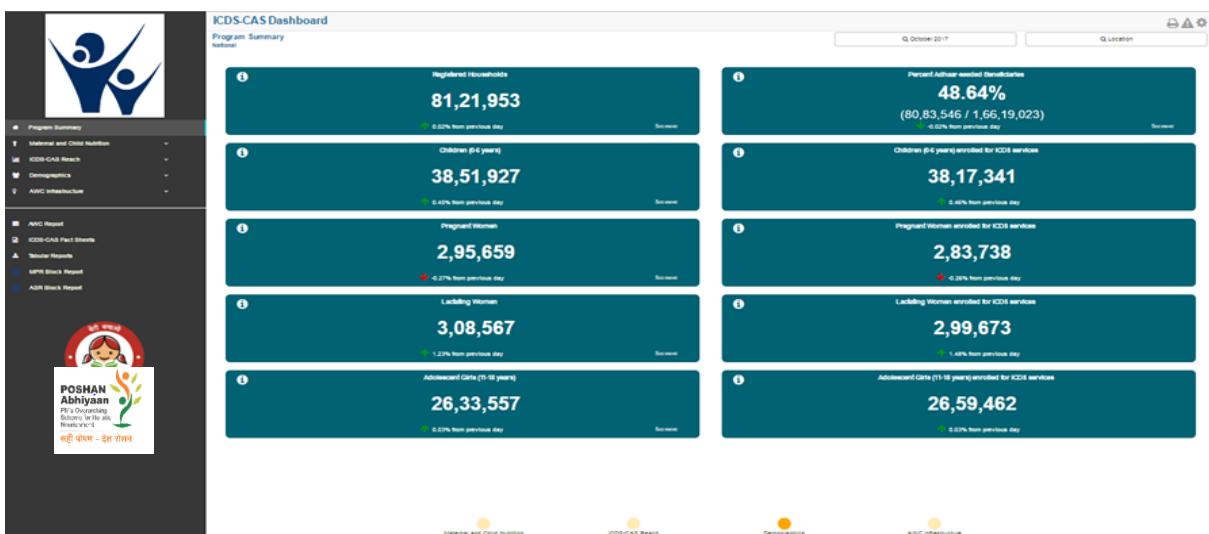

Figure 11: Program Summary: Demographics

Click bubble navigation to view KPI cards for Demographics

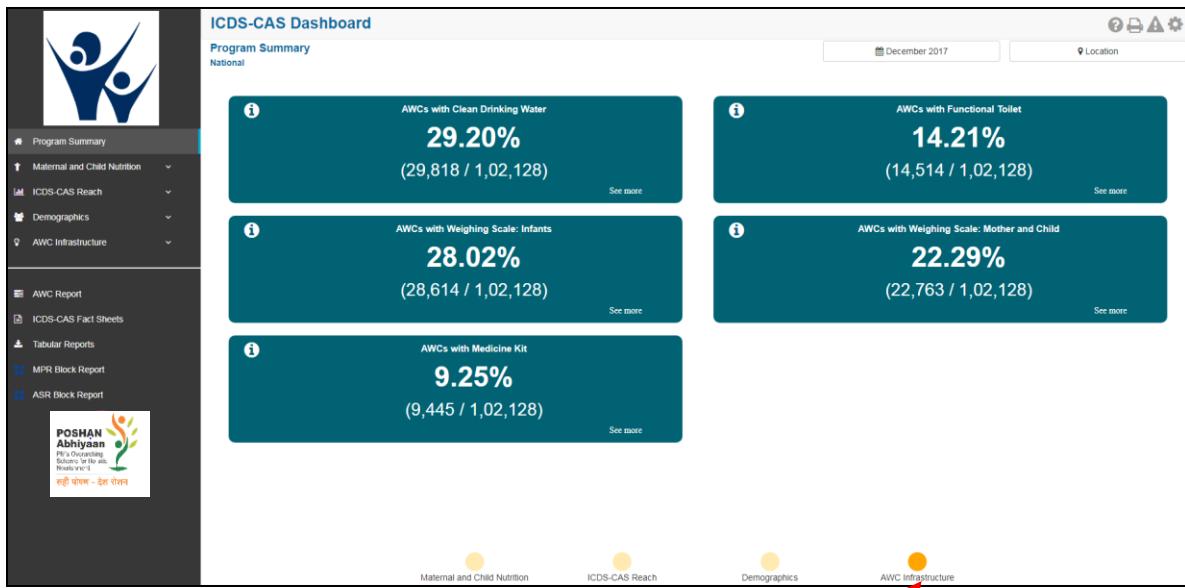

Figure 12: Program Summary: AWC Infrastructure

Click bubble navigation to view KPI cards for AWC Infrastructure

**KPI Card:** The below figure explains the ‘Underweight (Weight-for-Age)’ KPI card available under ‘Maternal and Child Nutrition’ on the Program Summary page.

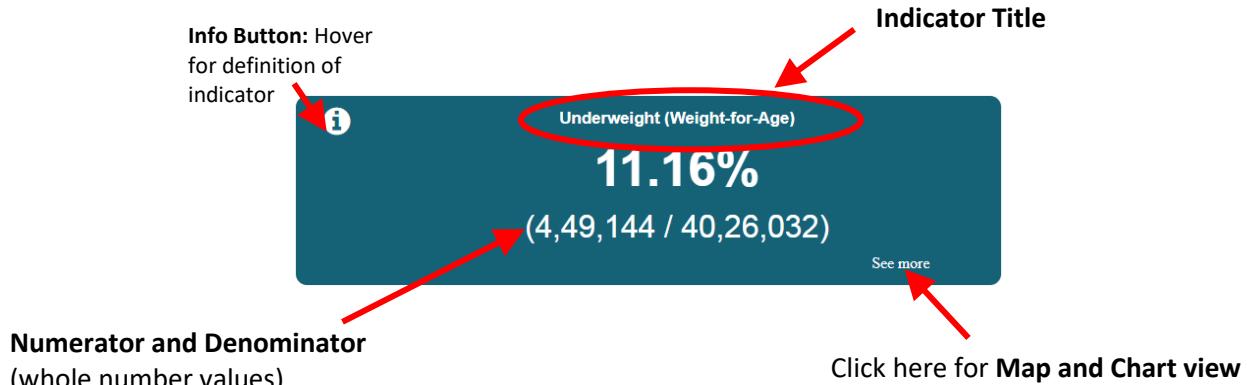

Figure 13: Underweight (Weight-for-Age) KPI Card

Click on ‘See More’ to move to ‘Map View’ for this indicator. User will see the map view based on the user level. For Example – A State level user will be able to see the State map and drill down to the lower levels. He / she will not be able to see a National level map. Navigating to the Map and Chart Views for each Program Area is explained in Sections 6-9.

## 6 Maternal and Child Nutrition

Maternal and Child Nutrition includes indicators that provide information about mother and child health. The section has the following list of indicators:

1. Underweight (Weight-for-Age)
2. Wasting (Weight-for-Height)
3. Stunting (Height-for-Age)
4. Newborns with Low Birth Weight
5. Early Initiation of Breastfeeding
6. Exclusive Breastfeeding
7. Children initiated appropriate Complementary Feeding
8. Institutional Deliveries
9. Immunization Coverage (at age 1 year)

On the left hand navigation panel, click on 'Maternal and Child Nutrition' to see a detailed list of indicators. Select the indicator to see a detailed 'Map View' for the selected indicator.

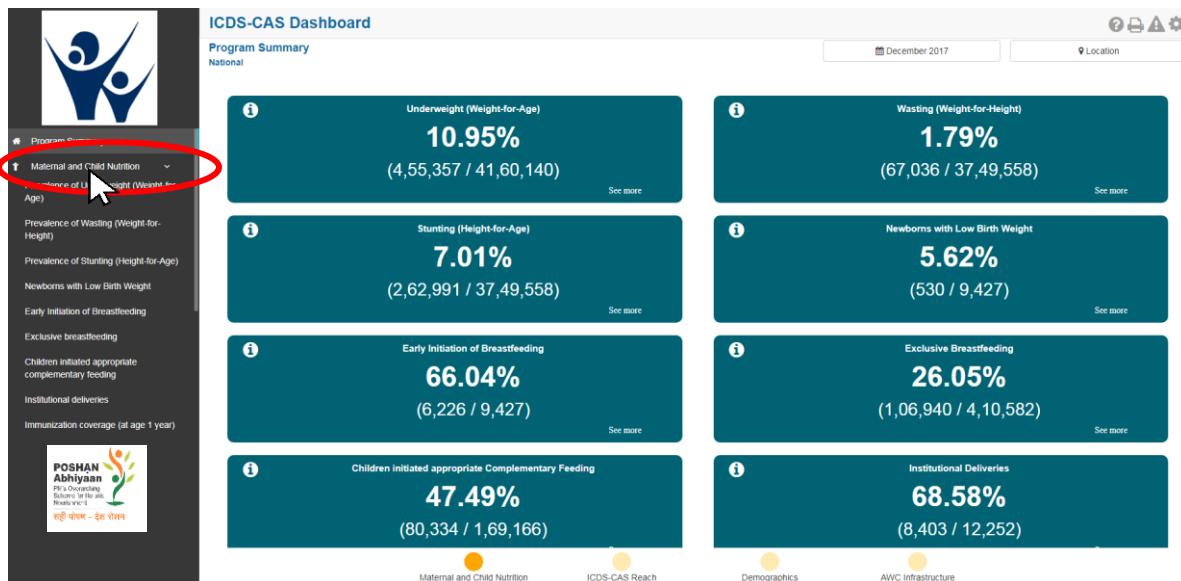

Figure 14: Link to view Maternal and Child Nutrition

## 6.1 Underweight (Weight-for-Age)

The first indicator under 'Maternal and Child Nutrition' is 'Underweight (Weight-for-Age)' which is explained below.

**Definition of indicator** - Percentage of children between 0-5 years enrolled for ICDS services with weight-for-age less than -2 standard deviations of the WHO Child Growth Standards median. Children who are moderately or severely underweight have a higher risk of mortality.

Click on the indicator 'Prevalence of Underweight (Weight-for-Age)' from the left hand navigation panel under 'Maternal and Child Nutrition' to enter 'Map View'.

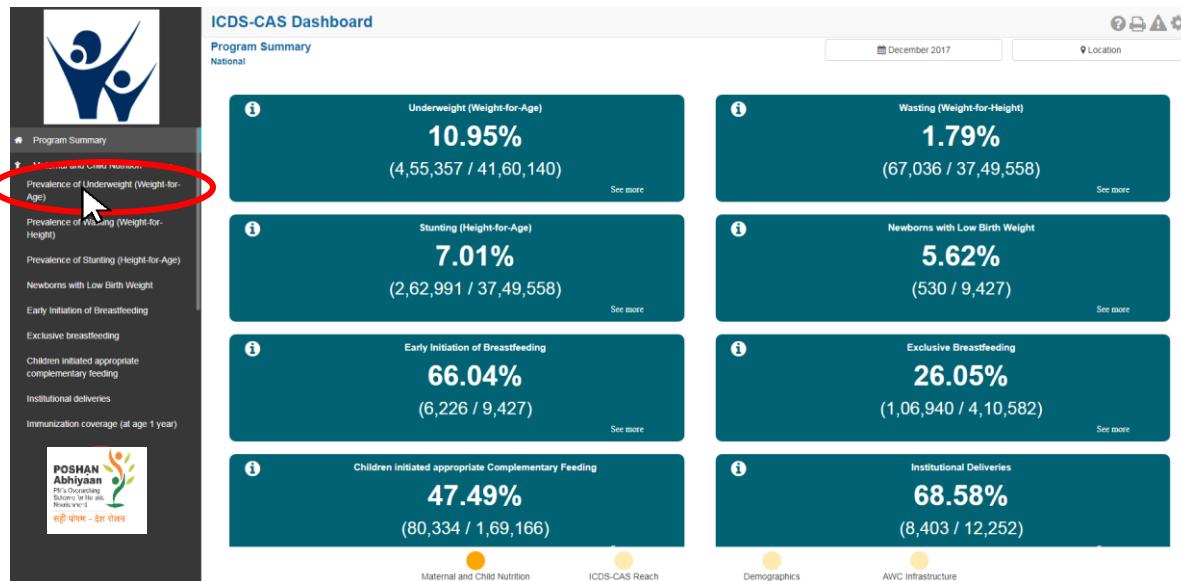

Figure 15: Link to view Underweight (Weight-for-Age)

### 6.1.1 Underweight (Weight-for-Age): Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show the Prevalence of Underweight (Weight-for-Age) at the National level as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

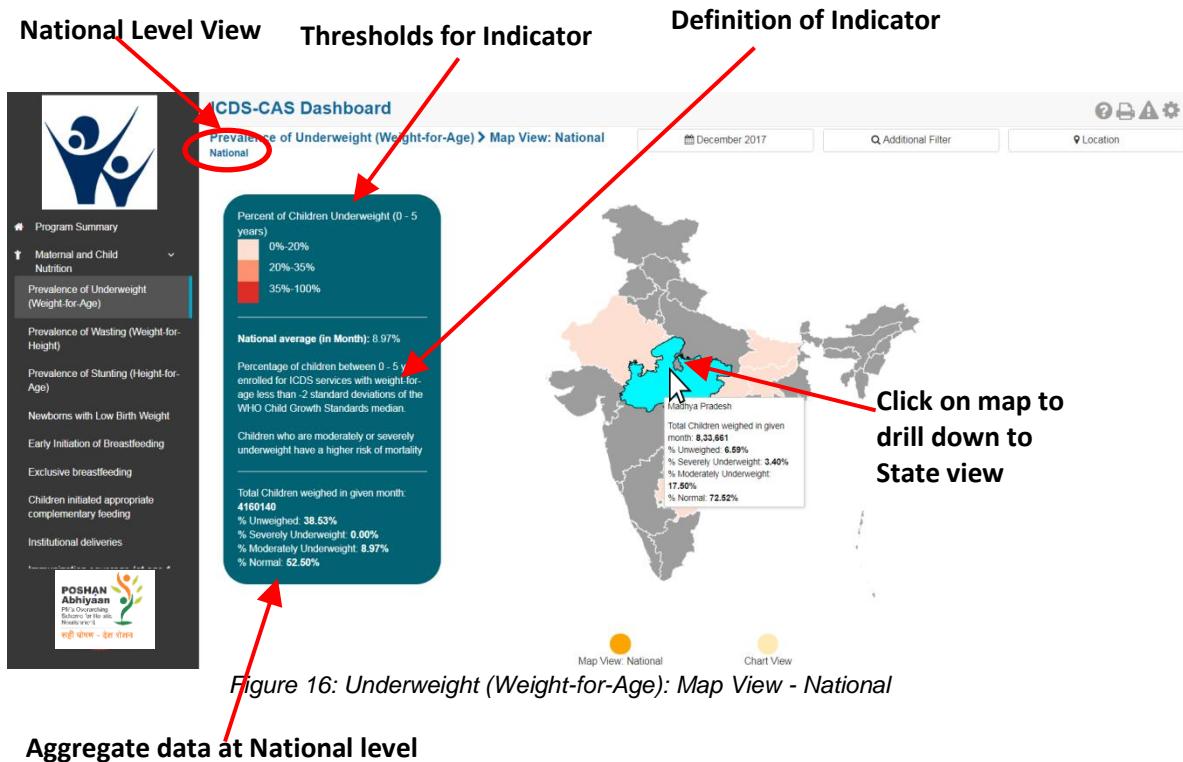

Figure 16: Underweight (Weight-for-Age): Map View - National

The Map View displays a color-coded view of the map. The color coding is done based on certain threshold values which are provided on the 'Map View' page. The colors and percentage ranges indicate performance for each indicator. The user can hover over the color-coded areas for further details.

The page also displays a detailed definition of the indicator along-with aggregate data for the level (National / State / District) and the month being viewed.

### 6.1.2 Underweight (Weight-for-Age): Map View – State

If a State level user (SPMU) logs into the dashboard, the 'Map View' will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

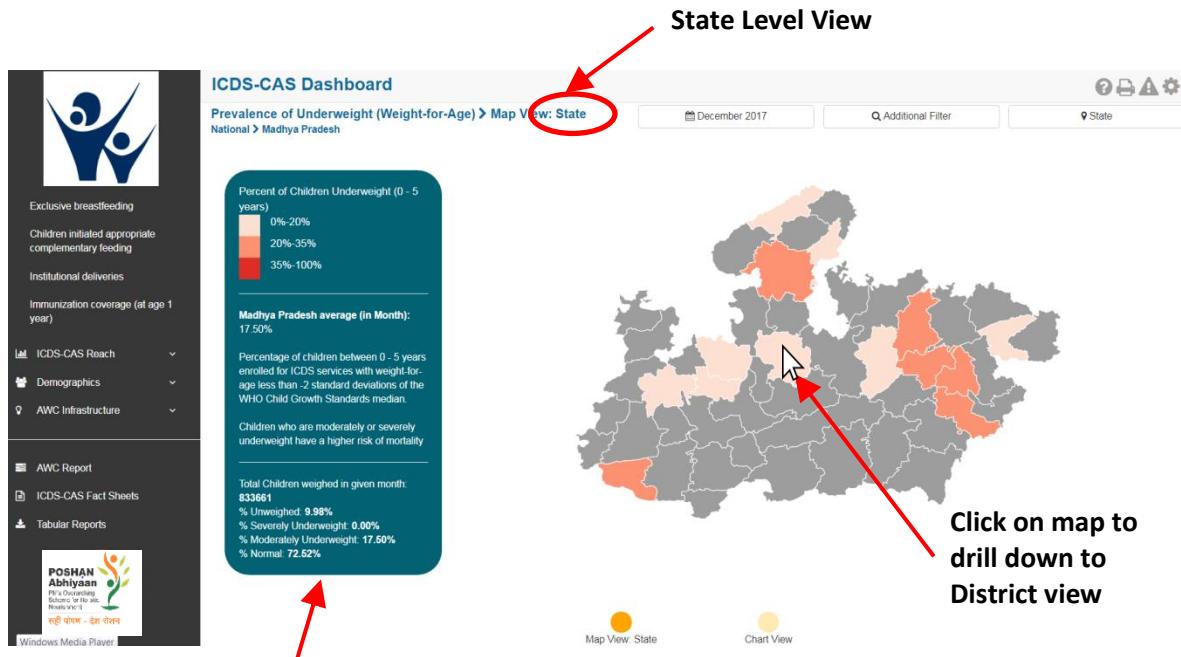

Figure 17: Underweight (Weight-for-Age): Map View - State

#### Aggregate data at State level

#### 6.1.3 Underweight (Weight-for-Age): Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Map View’ will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

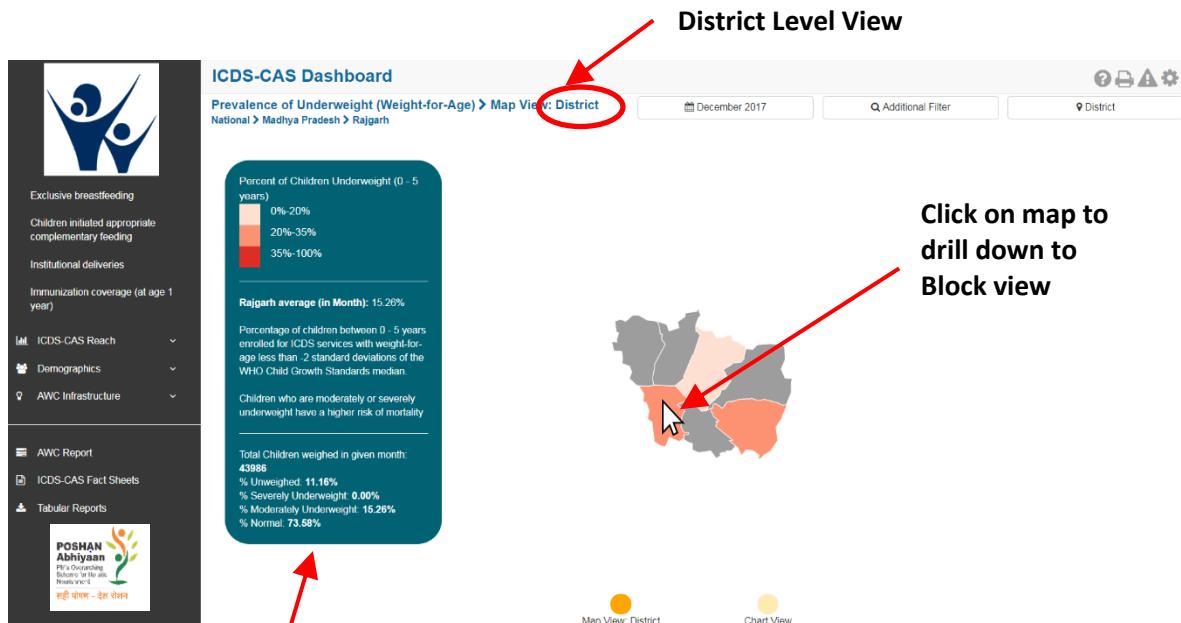

Figure 18: Underweight (Weight-for-Age): Map View - District

#### Aggregate data at District level

#### 6.1.4 Underweight (Weight-for-Age): Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the 'Map View' will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The user can view the definition of the indicator and hover over the graph for further details. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

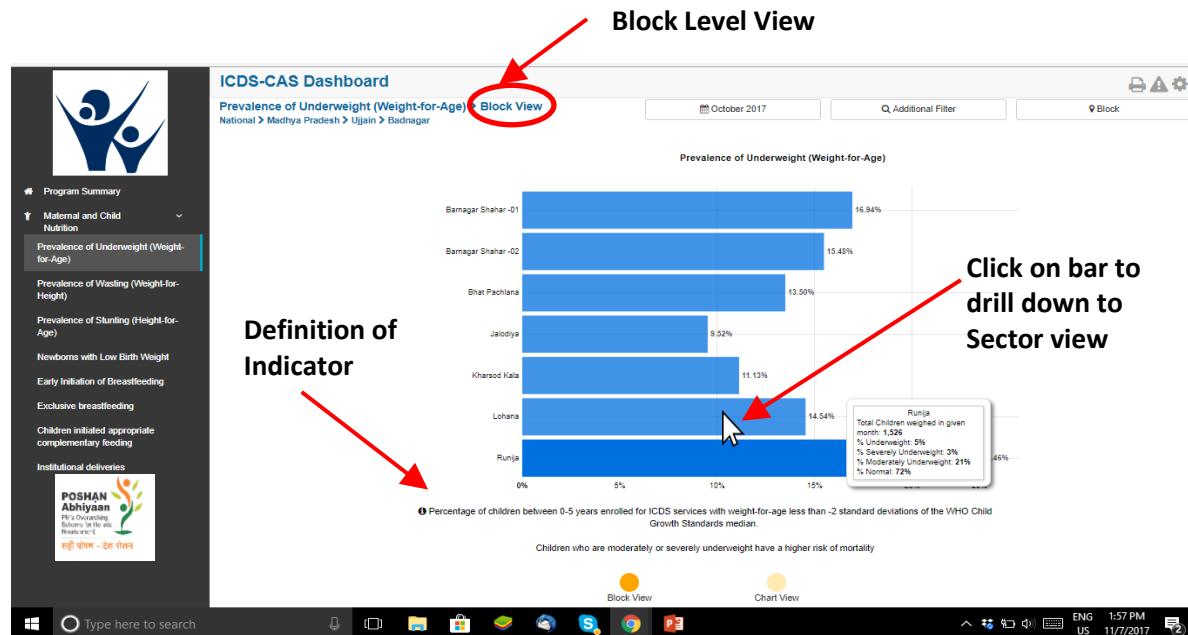

Figure 19: Underweight (Weight-for-Age): Block View

#### 6.1.5 Underweight (Weight-for-Age): Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. The user can view the definition of the indicator and hover over the graph for further details. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

## Sector Level View

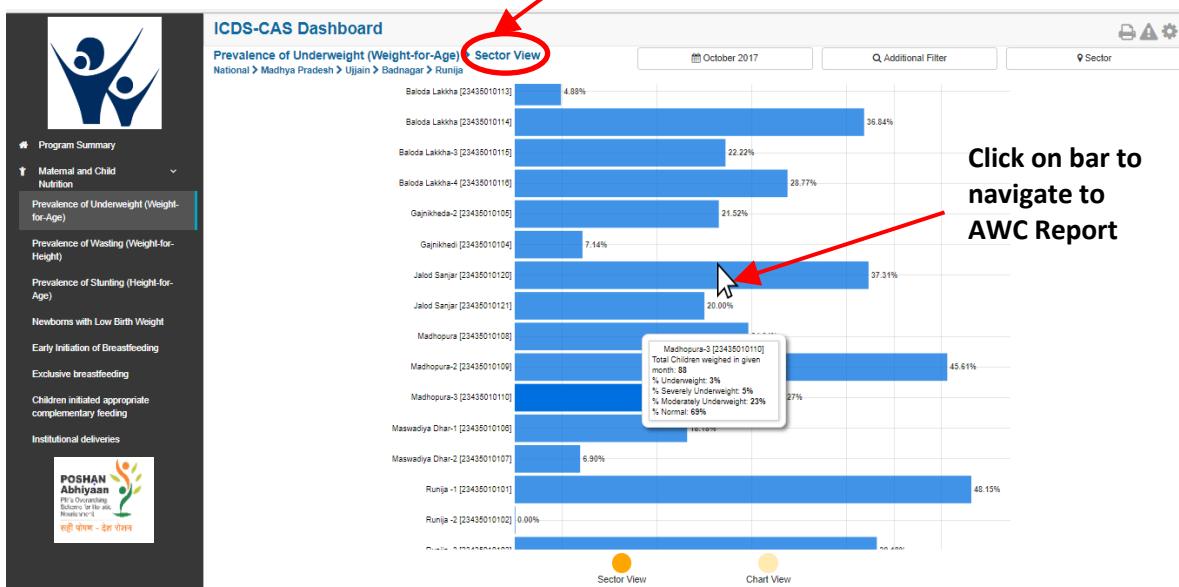

Figure 20: Underweight (Weight-for-Age): Sector View

### 6.1.6 Underweight (Weight-for-Age): Chart View – National

On the Map view page, click on the ‘Chart View’ bubble navigation to see a chart view of the indicator.

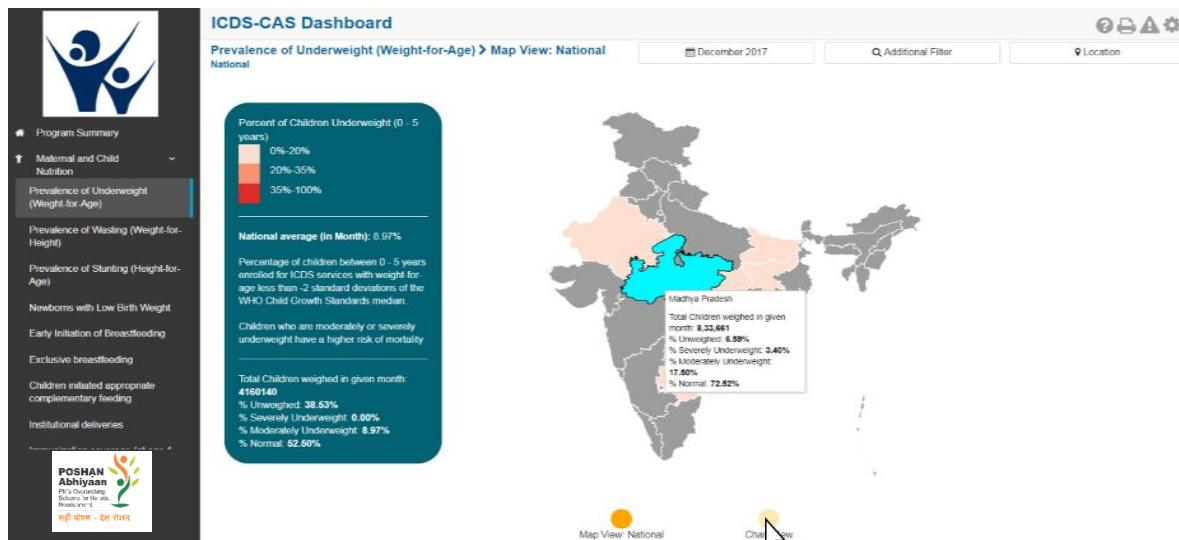

Figure 21: Navigating to Chart View

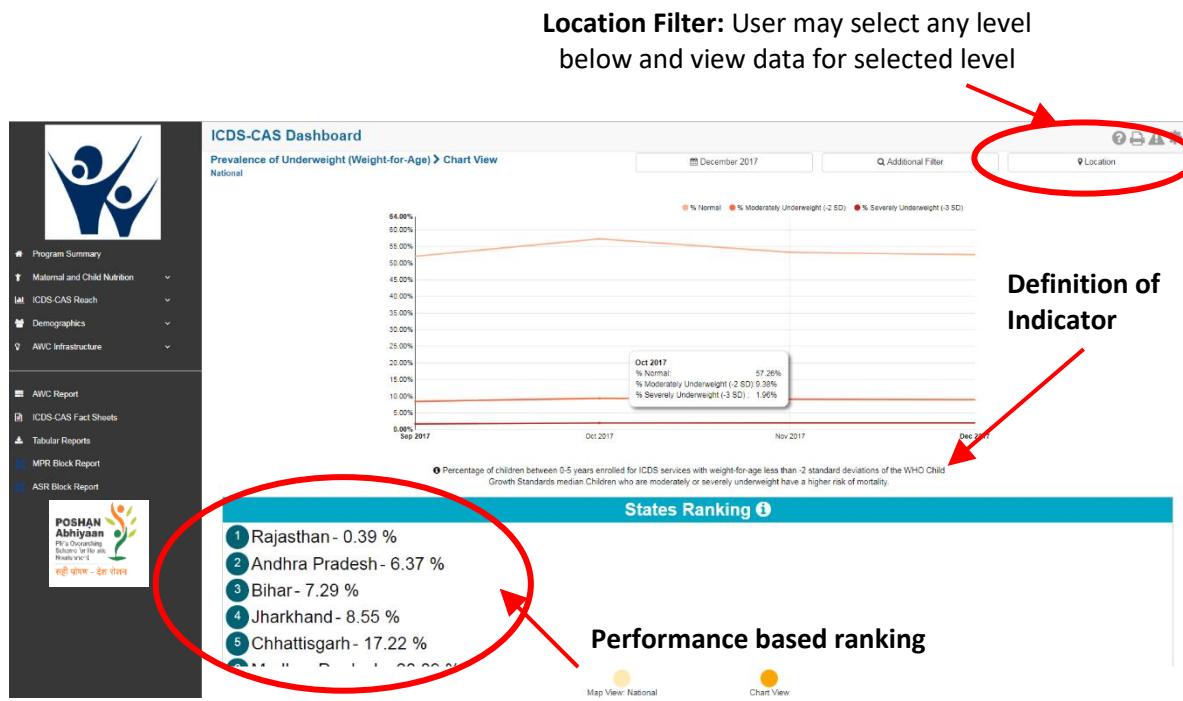

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show the Prevalence of Underweight (Weight-for-Age) at the National level shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from 'Map View' to 'Chart View' at any level by clicking on the 'Chart View' bubble navigation on the 'Map View' page.

The Chart View displays a trend line for the 'Underweight (Weight-for-Age)' indicator (including trend lines for normal, moderately underweight and severely underweight children) over the last three months. The National view shows a National level trend line. The legend on the top right displays information on the specific indicators and color keys shown by the trend line. The tooltip on hover provides more information about the data for the particular point in time.

Below the chart view, the user can also see a performance based ranking of States based on Prevalence of Underweight (Weight-for-Age) children in the States.

**Note:** This ranking is not meant to draw comparisons between performances in the different locations. However, dashboard users are encouraged to identify issues and improve service delivery in poor performing areas using this data.

### 6.1.7 Underweight (Weight-for-Age): Chart View – State

If a State level user (SPMU) logs into the dashboard, the 'Chart View' will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

The State view shows a State level trend line and also shows a list of high performing and low performing Districts based on Prevalence of Underweight (Weight-for-Age) children in the Districts.

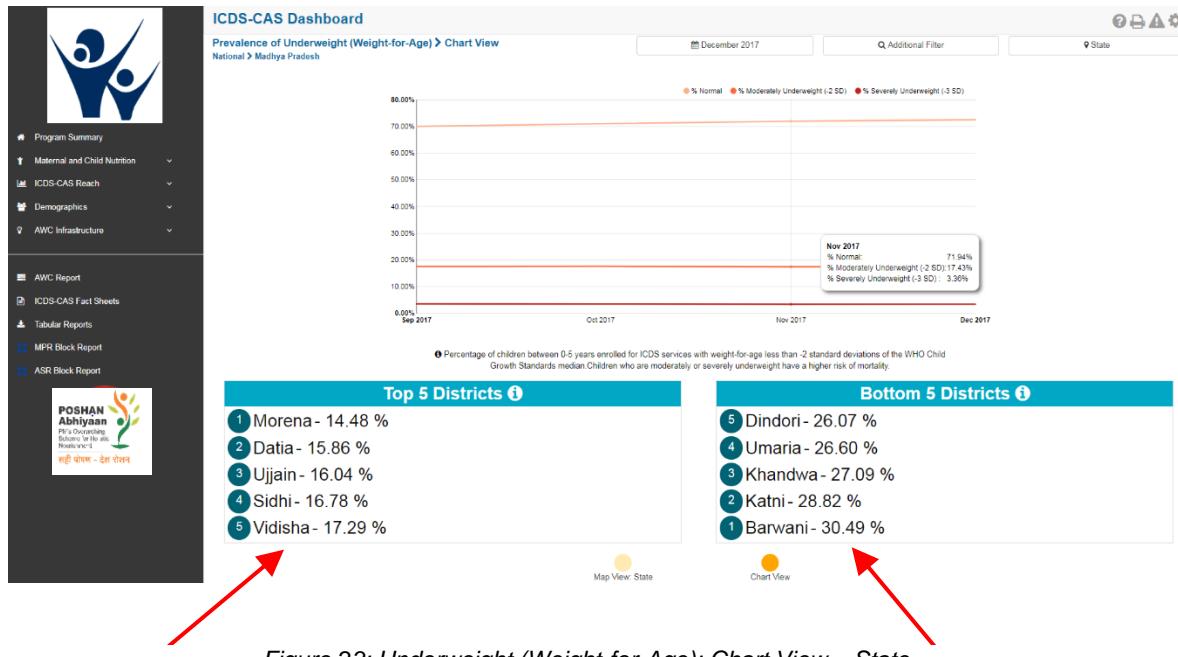

Figure 23: Underweight (Weight-for-Age): Chart View – State

**High performing Districts**

**Low performing Districts**

### 6.1.8 Underweight (Weight-for-Age): Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

The District view shows a District level trend line and also shows performance-based ranking of Blocks based on Prevalence of Underweight (Weight-for-Age) children in the Blocks.

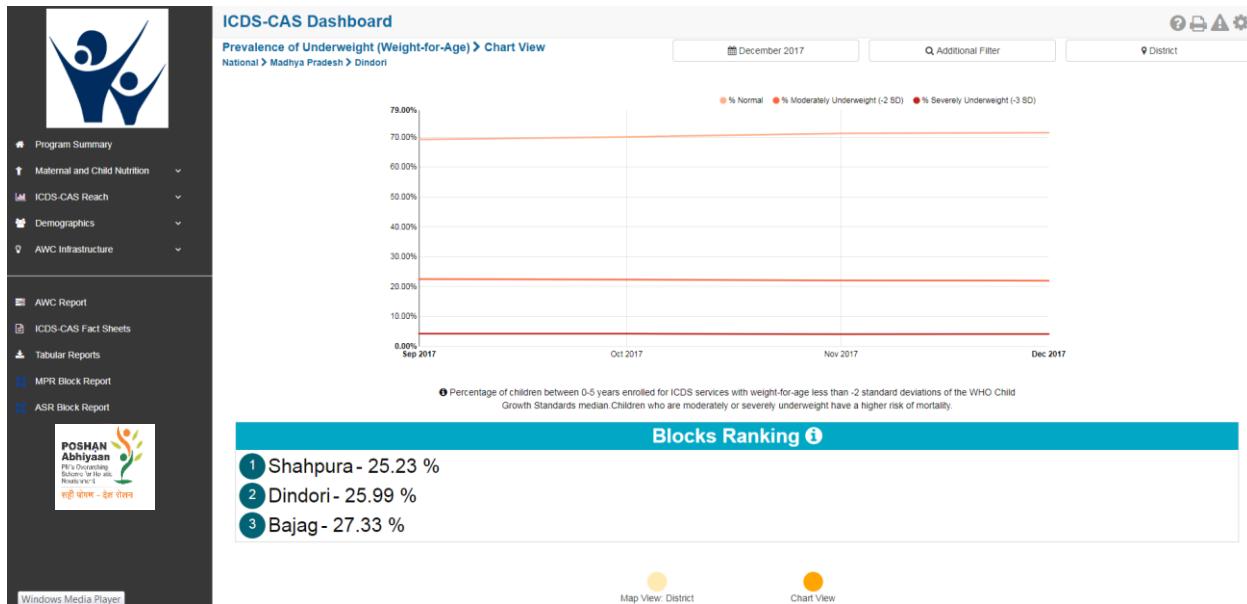

Figure 24: Underweight (Weight-for-Age): Chart View – District

### 6.1.9 Underweight (Weight-for-Age): Chart View – Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

The Block view shows a Block level trend line and also shows performance-based ranking of Sectors based on Prevalence of Underweight (Weight-for-Age) children in the Sectors.

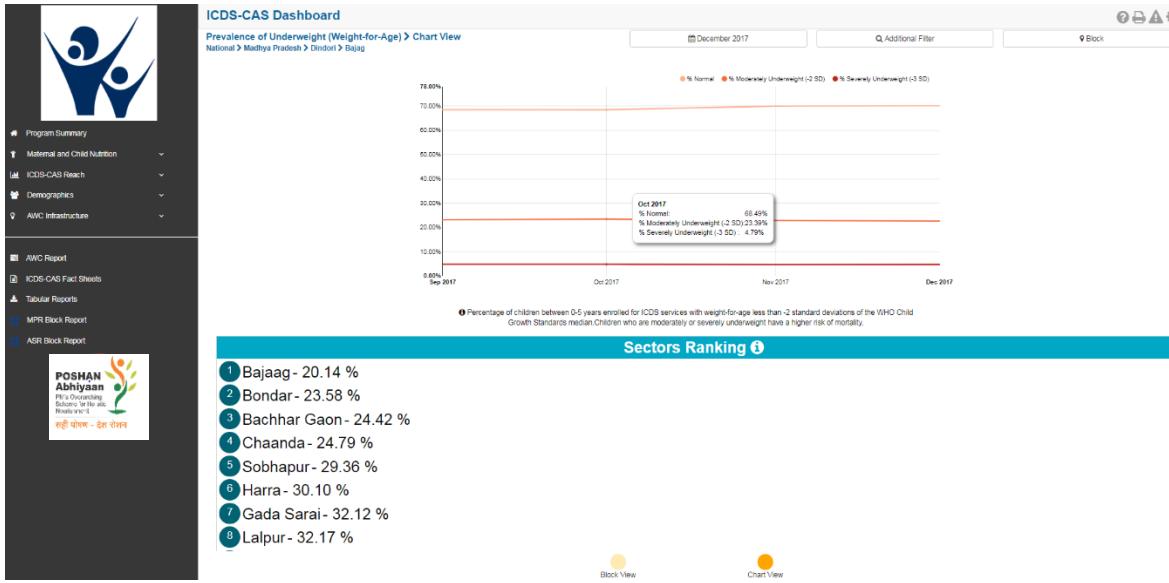

Figure 25: Underweight (Weight-for-Age): Chart View – Block

### 6.1.10 Underweight (Weight-for-Age): Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

The Sector view shows a Sector level trend line and also shows a list of high performing and low performing Anganwadi Centers (AWCs) based on Prevalence of Underweight (Weight-for-Age) children in the AWCs.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

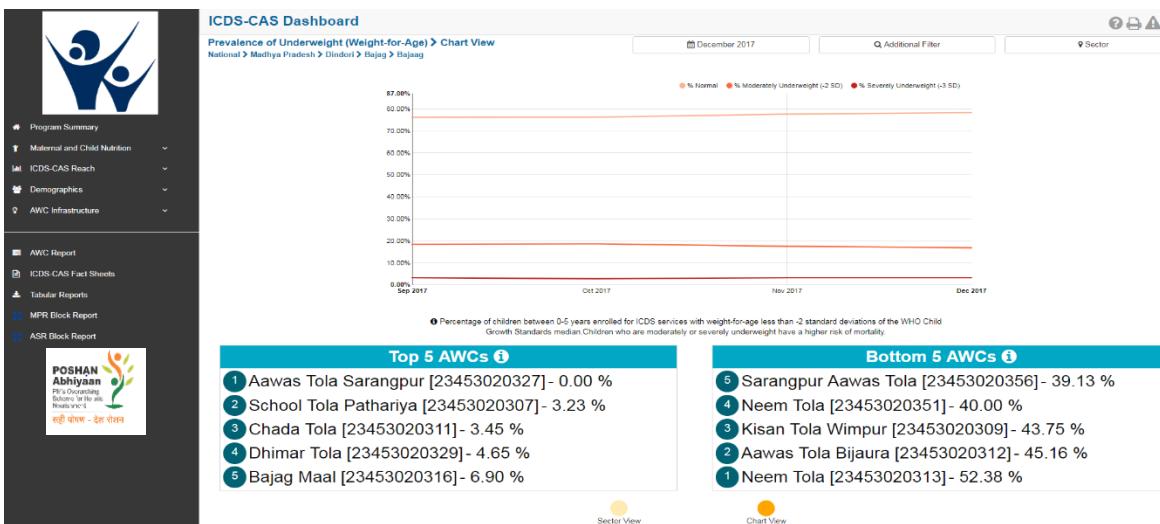

Figure 26: Underweight (Weight-for-Age): Chart View – Sector

### 6.1.11 Underweight (Weight-for-Age): Additional Filters

On the 'Map View' or 'Chart View' page, the dashboard also provides additional filters to extract selected information. For example – For Underweight (Weight-for-Age) indicator there are following additional indicators on the dashboard – Gender and Age. Similarly, there are additional filters for other indicators as well.

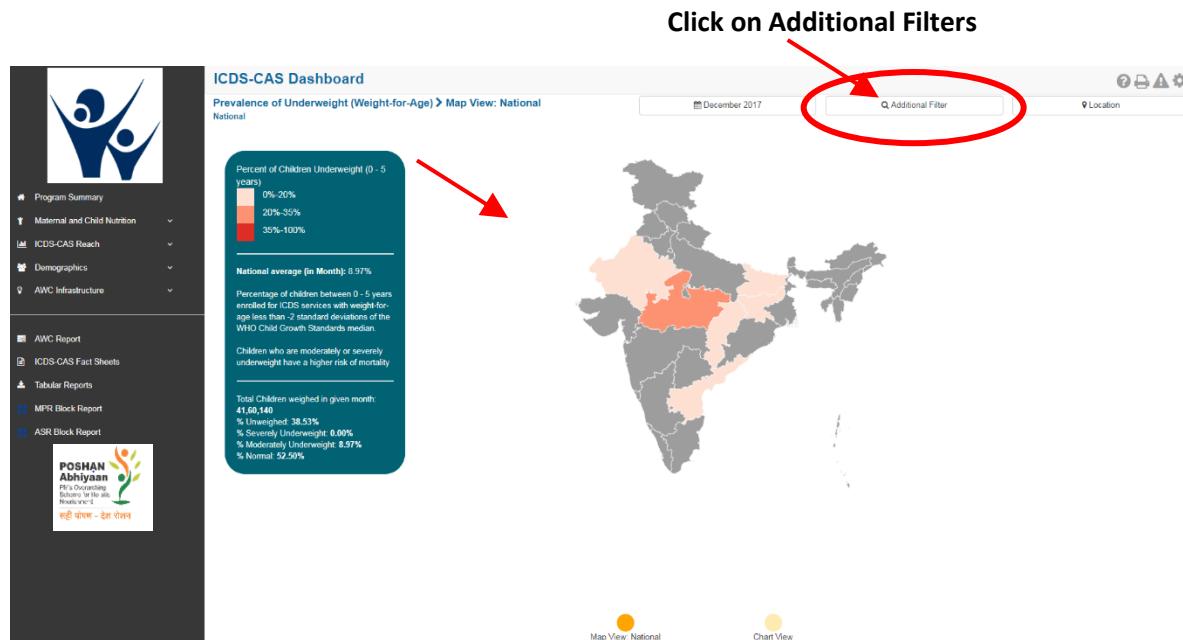

Figure 27: Additional Filters

Select 'Gender' and click on 'Apply'

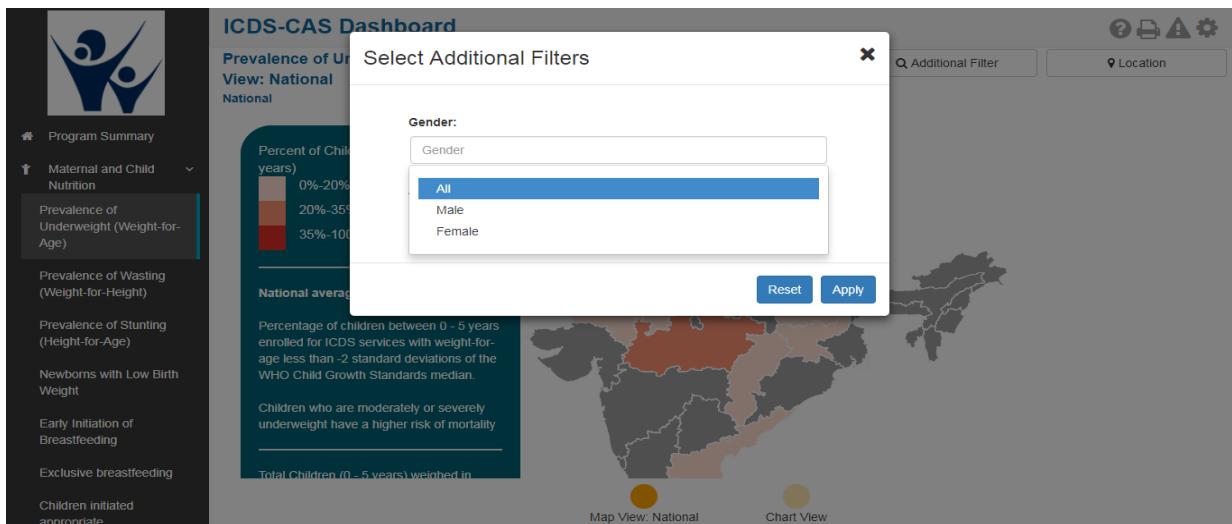

Figure 28: Additional Filter - Gender

Once the user selects the gender as “Female” and selects Age group as “0-6 Months” the view is updated and the below mentioned screen is displayed:

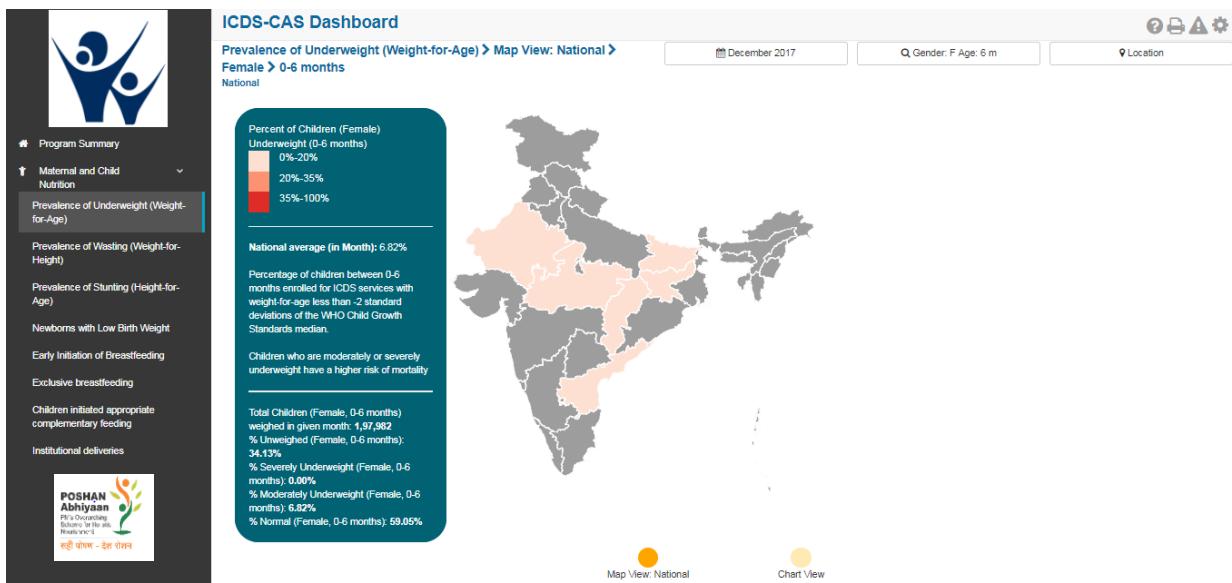

Figure 29: Additional Filters – Screen Shot - “Female”

## 6.2 Wasting (Weight-for-Height)

The second indicator under ‘Maternal and Child Nutrition’ is ‘Wasting (Weight-for-Height)’ which is explained below.

**Definition of indicator** - Percentage of children between 0-5 years with weight-for-height below -2 standard deviations of the WHO Child Growth Standards median. Severe Acute Malnutrition (SAM)

or wasting in children is a symptom of acute under nutrition usually as a consequence of insufficient food intake or a high incidence of infectious diseases.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

### 6.2.1 Wasting (Weight-for-Height): Map View–National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show the Prevalence of Wasting (Weight-for-Height) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

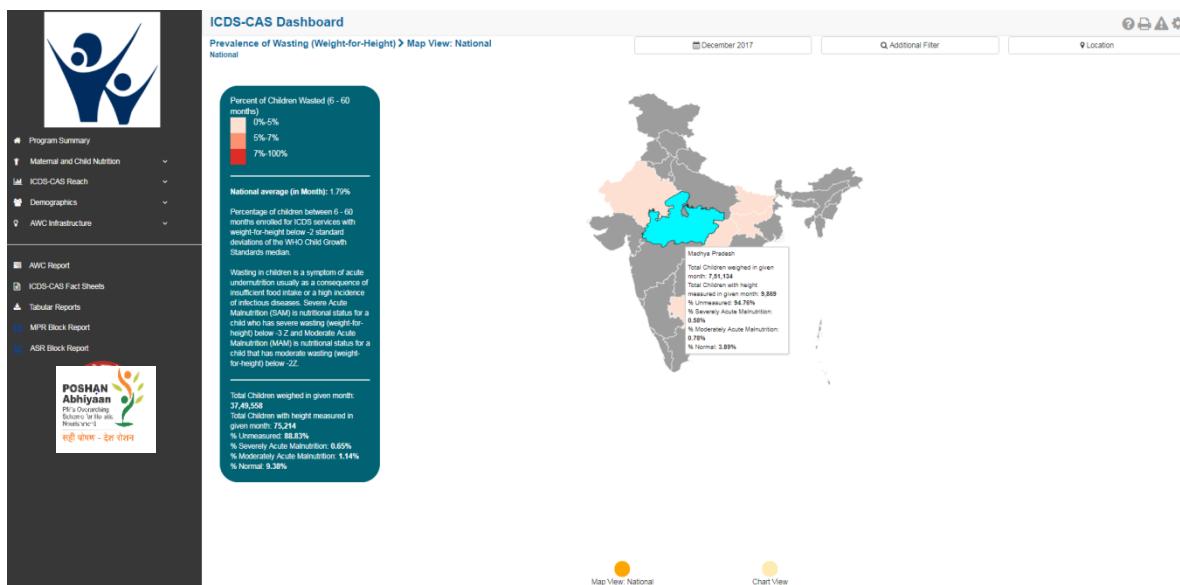

Figure 30: Wasting (Weight-for-Height): Map View - National

### 6.2.2 Wasting (Weight-for-Height): Chart View–National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show the Prevalence of Wasting (Weight-for-Height) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

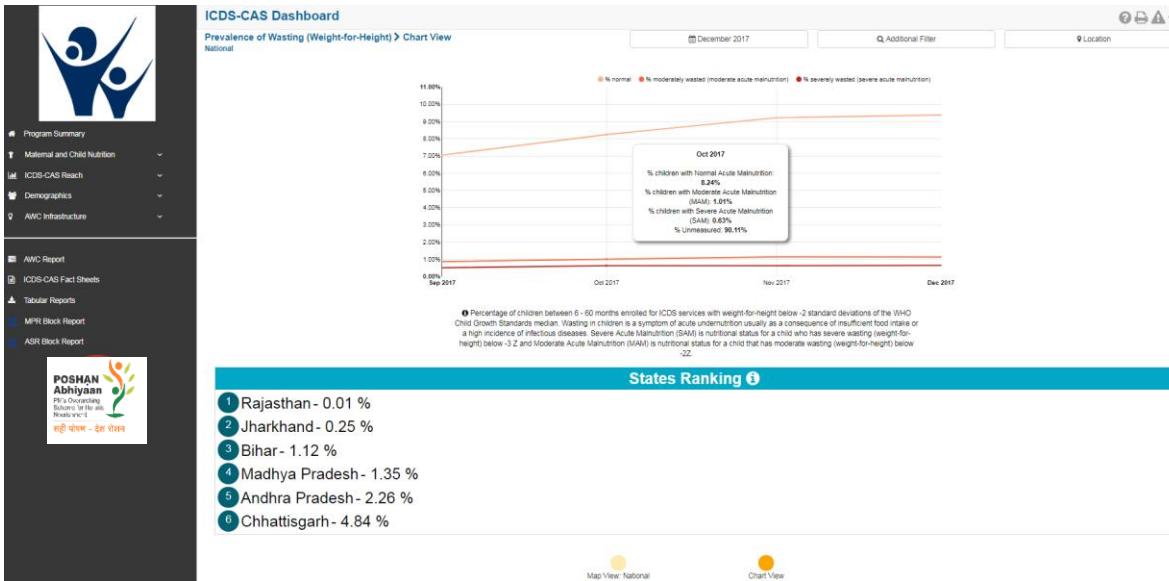

Figure 31: Wasting (Weight-for-Height): Chart View – National

### 6.3 Stunting (Height-for-Age)

The third indicator under ‘Maternal and Child Nutrition’ is ‘Stunting (Height-for-Age)’ which is explained below.

**Definition of indicator** - Percentage of children between 0-5 years with height-for-age below -2Z standard deviations of the WHO Child Growth Standards median. Stunting is a sign of chronic under nutrition and has long lasting harmful consequences on the growth of a child.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

#### 6.3.1 Stunting (Height-for-Age): Map View–National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show the Prevalence of Stunting (Height-for-Age) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

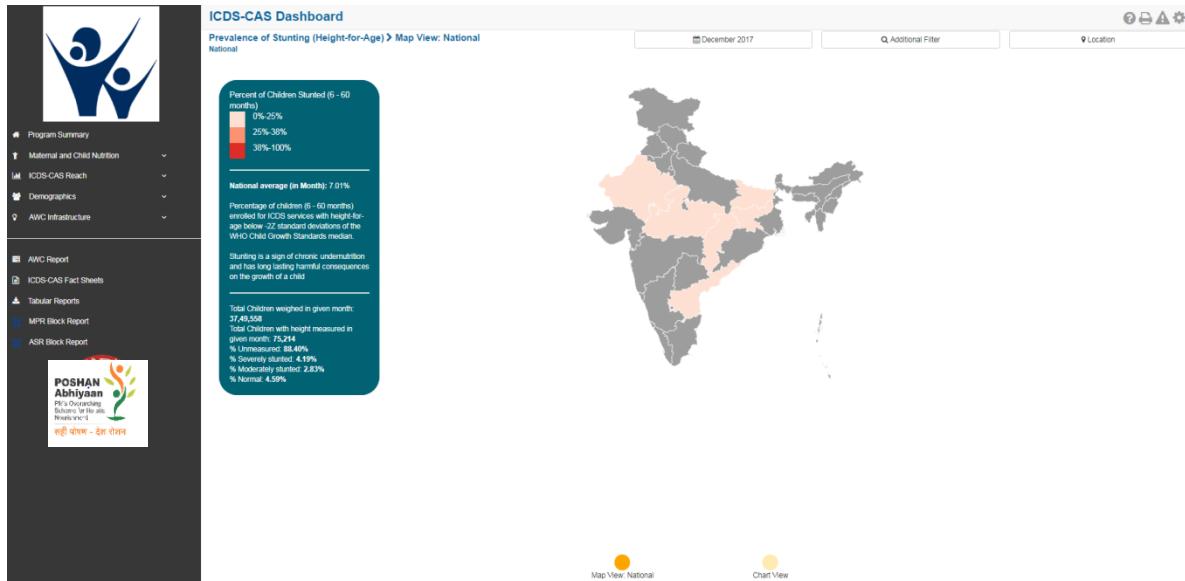

Figure 32: Stunting (Height-for-Age): Map View – National

### 6.3.2 Stunting (Height-for-Age): Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show the Prevalence of Stunting (Height-for-Age) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

Figure 33: Stunting (Height-for-Age): Chart View – National

## 6.4 Newborns with Low Birth Weight

The fourth indicator under 'Maternal and Child Nutrition' is 'Newborns with Low Birth Weight' which is explained below.

**Definition of indicator** - Percentage of newborns born with birth weight less than 2500 grams. Newborns with Low Birth Weight are closely associated with fetal and neonatal mortality and morbidity, inhibited growth and cognitive development, and chronic diseases later in life.

The navigation workflow for moving to 'Map View' or 'Chart View' is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

### 6.4.1 Newborns with Low Birth Weight: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

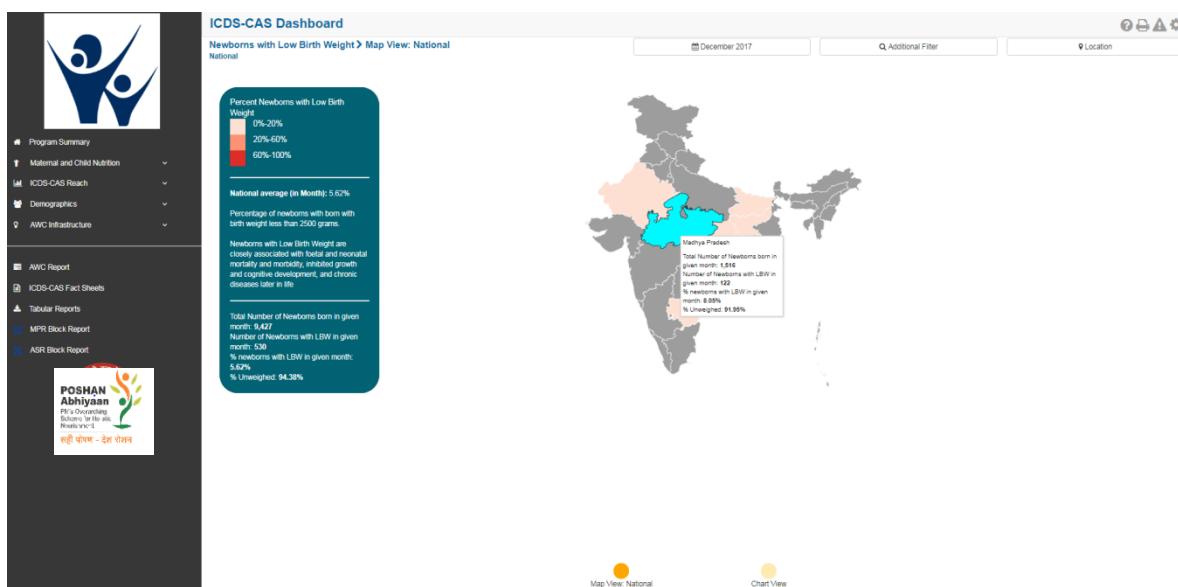

Figure 34: Newborns with Low Birth Weight: Map View – National

### 6.4.2 Newborns with Low Birth Weight: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

Figure 35: Newborns with Low Birth Weight: Chart View – National

## 6.5 Early Initiation of Breastfeeding

The fifth indicator under ‘Maternal and Child Nutrition’ is ‘Early Initiation of Breastfeeding’ which is explained below.

**Definition of indicator** - Percentage of children breastfed within an hour of birth. Early initiation of breastfeeding ensures the newborn receives the ‘first milk’ rich in nutrients and encourages exclusive breastfeeding practice.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

### 6.5.1 Early Initiation of Breastfeeding: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

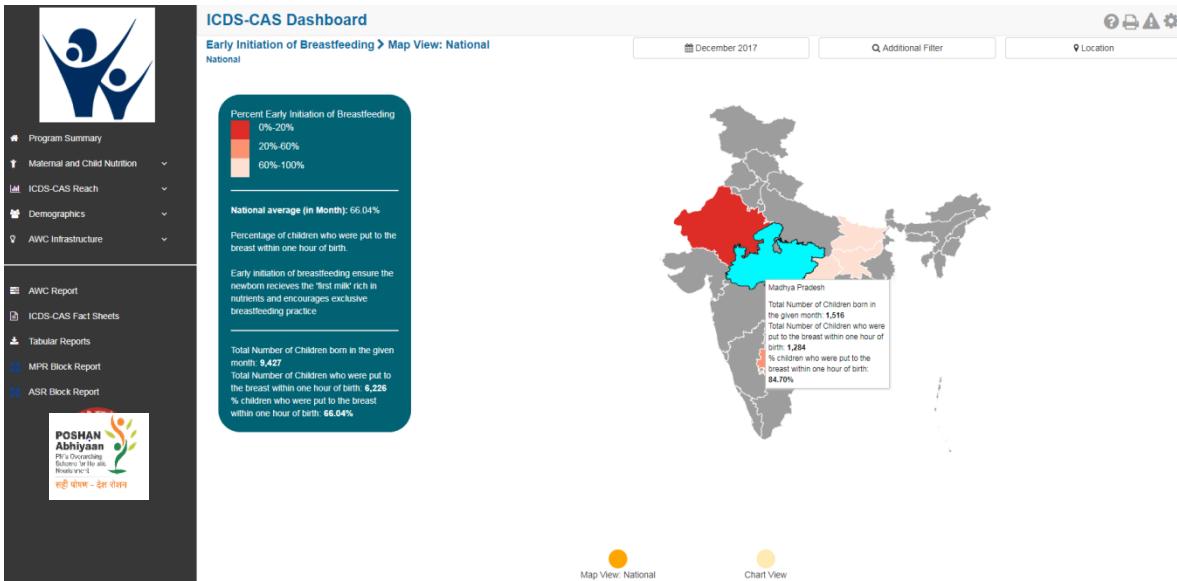

Figure 36: Early Initiation of Breastfeeding: Map View – National

### 6.5.2 Early Initiation of Breastfeeding: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' will show a National level view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

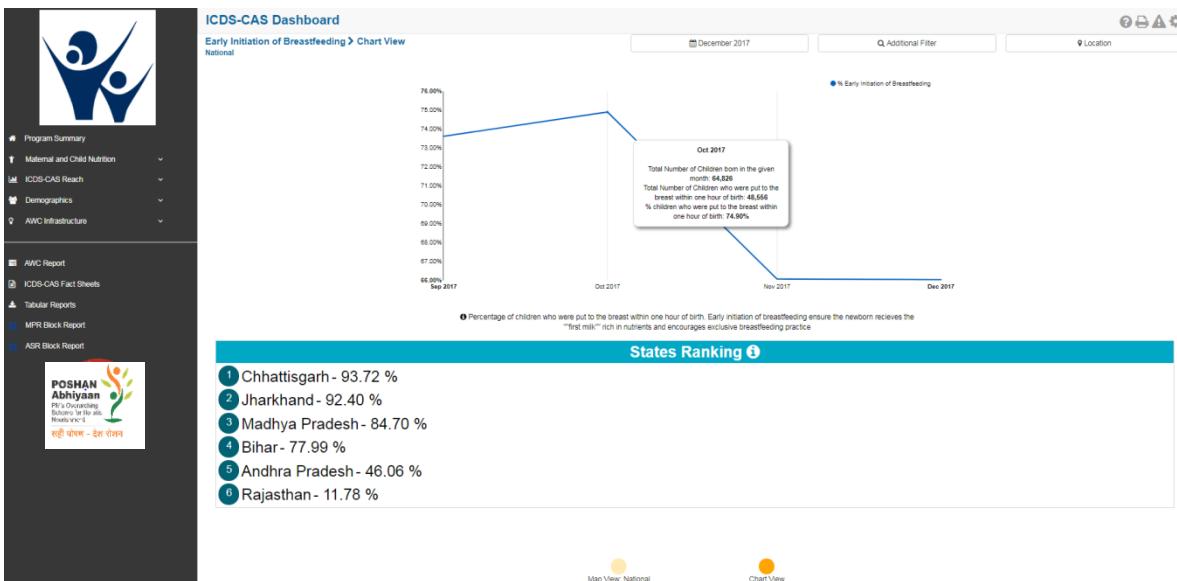

Figure 37: Early Initiation of Breastfeeding: Chart View – National

## 6.6 Exclusive Breastfeeding

The sixth indicator under ‘Maternal and Child Nutrition’ is ‘Exclusive Breastfeeding’ which is explained below.

**Definition of indicator** - Percentage of children between 0-6 months exclusively breastfed. An infant is exclusively breastfed if they receive only breast milk with no additional food, liquids (even water) ensuring optimal nutrition and growth between 0-6 months.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

### 6.6.1 Exclusive Breastfeeding: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

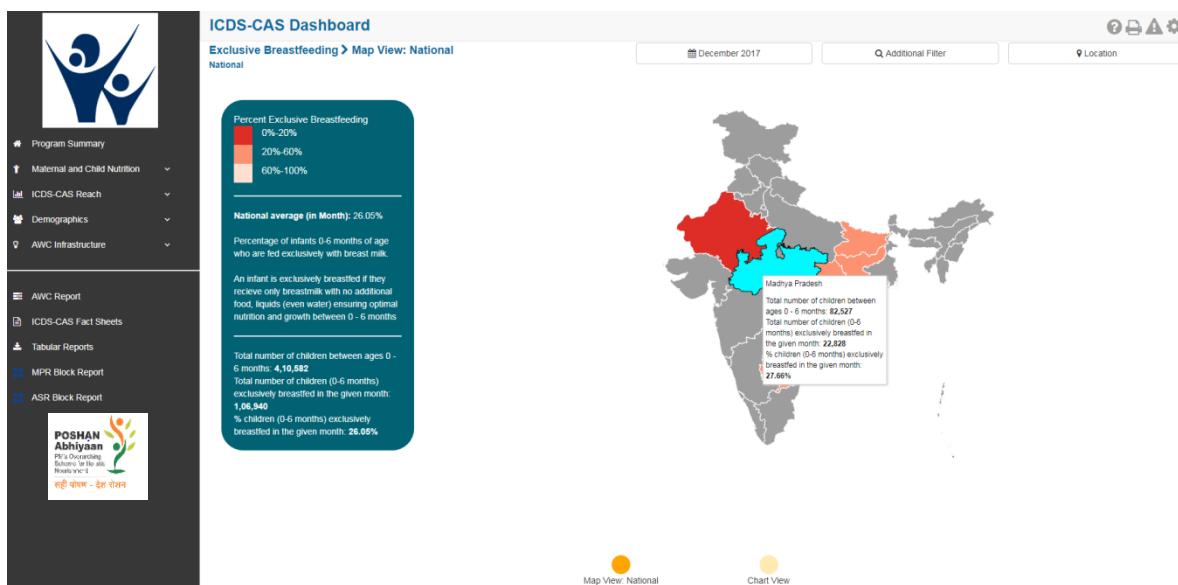

Figure 38: Exclusive Breastfeeding: Map View – National

### 6.6.2 Exclusive Breastfeeding: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

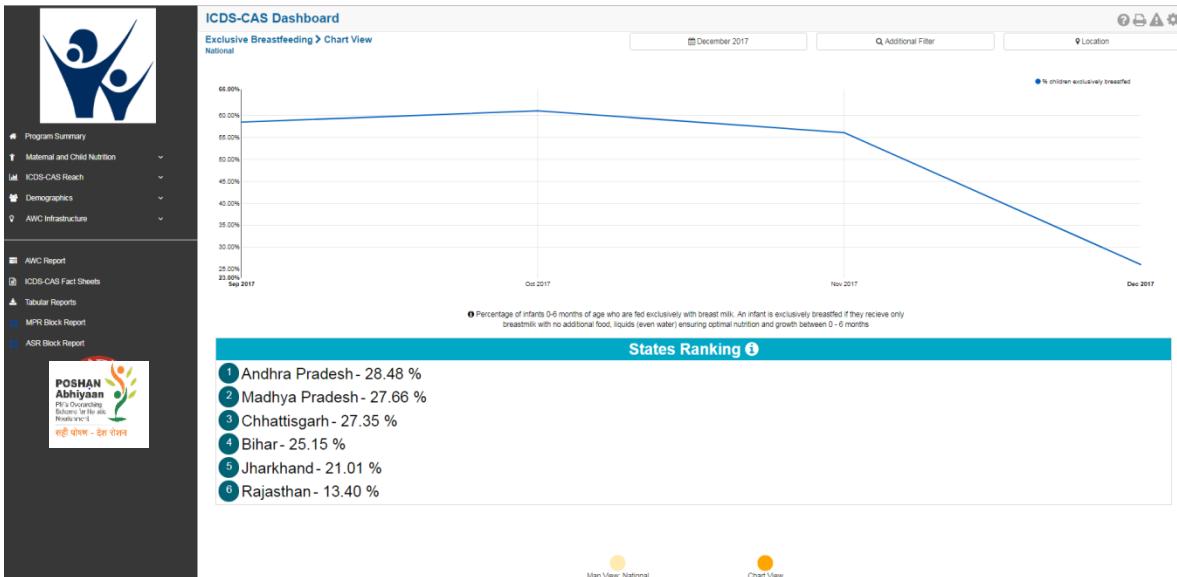

Figure 39: Exclusive Breastfeeding: Chart View – National

## 6.7 Children initiated appropriate Complementary Feeding

The seventh indicator under ‘Maternal and Child Nutrition’ is ‘Children initiated appropriate Complementary Feeding’ which is explained below.

**Definition of indicator** - Percentage of children between 6-8 months given timely introduction to solid or semi-solid food. Timely initiation of complementary feeding in addition to breast milk at 6 months of age is a key feeding practice to reduce malnutrition.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

### 6.7.1 Children initiated appropriate Complementary Feeding: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

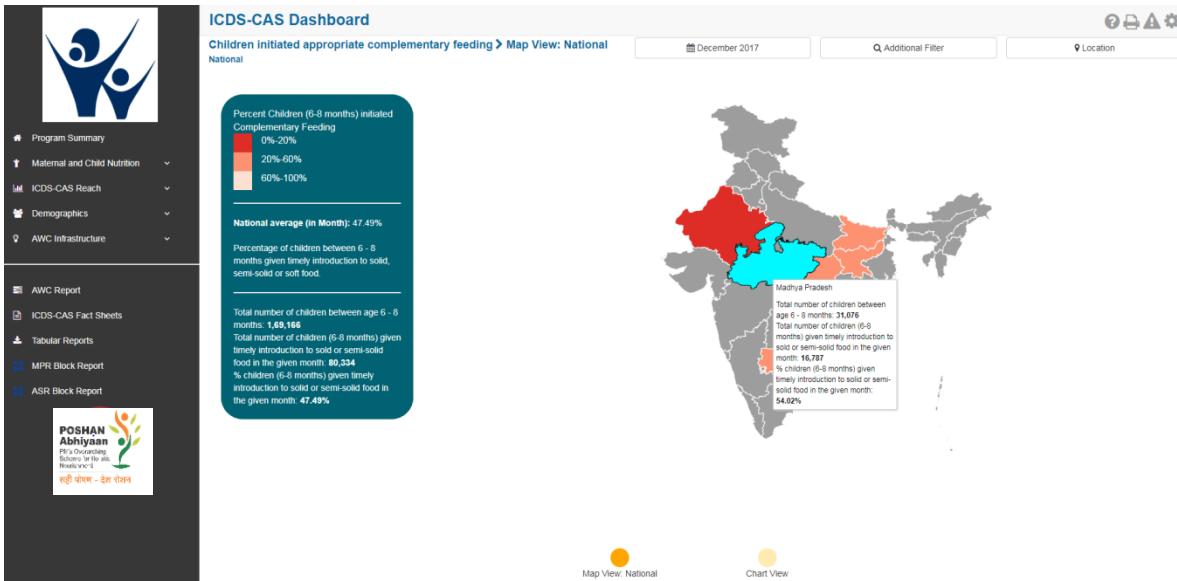

Figure 40: Children initiated appropriate Complementary Feeding: Map View - National

### 6.7.2 Children initiated appropriate Complementary Feeding: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

Figure 41: Children initiated appropriate Complementary Feeding: Chart View - National

## 6.8 Institutional Deliveries

The eighth indicator under ‘Maternal and Child Nutrition’ is ‘Institutional Deliveries’ which is explained below.

**Definition of indicator** – Percentage of pregnant women who delivered in a public or private medical facility in the last month. Delivery in medical institutions is associated with a decrease in maternal mortality rate.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

### 6.8.1 Institutional Deliveries: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

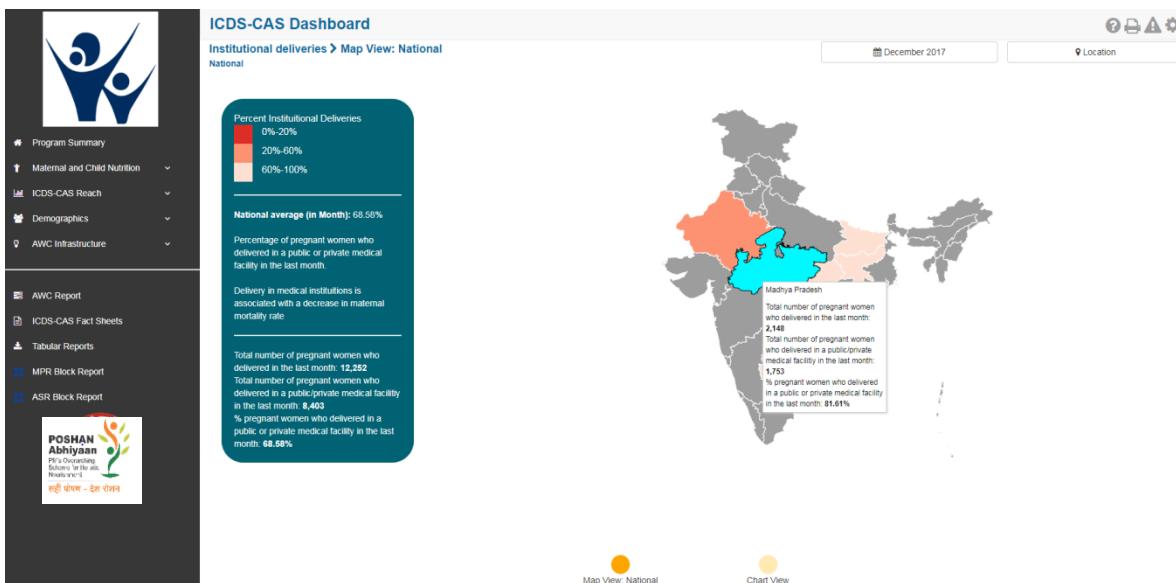

Figure 42: Institutional Deliveries: Map View – National

### 6.8.2 Institutional Deliveries: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

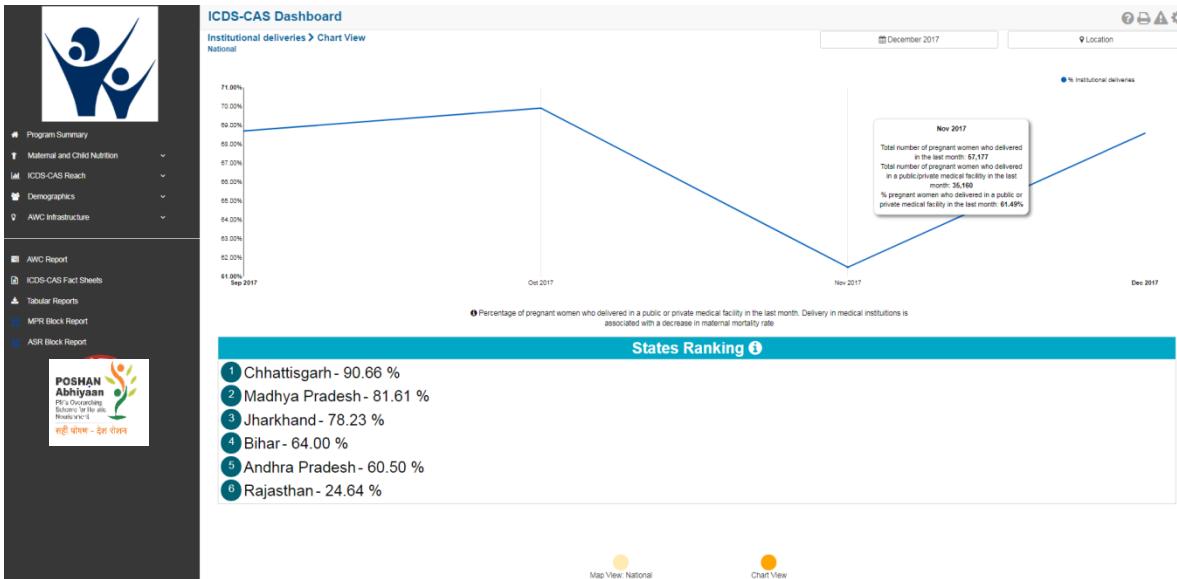

Figure 43: Institutional Deliveries: Chart View – National

## 6.9 Immunization Coverage (at age 1 year)

The last indicator under ‘Maternal and Child Nutrition’ is ‘Immunization Coverage (at age 1 year)’ which is explained below.

**Definition of indicator** – Percentage of children 1 year+ who have received complete immunization as per National Immunization Schedule of India required by age 1.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

### 6.9.1 Immunization Coverage (at age 1 year): Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

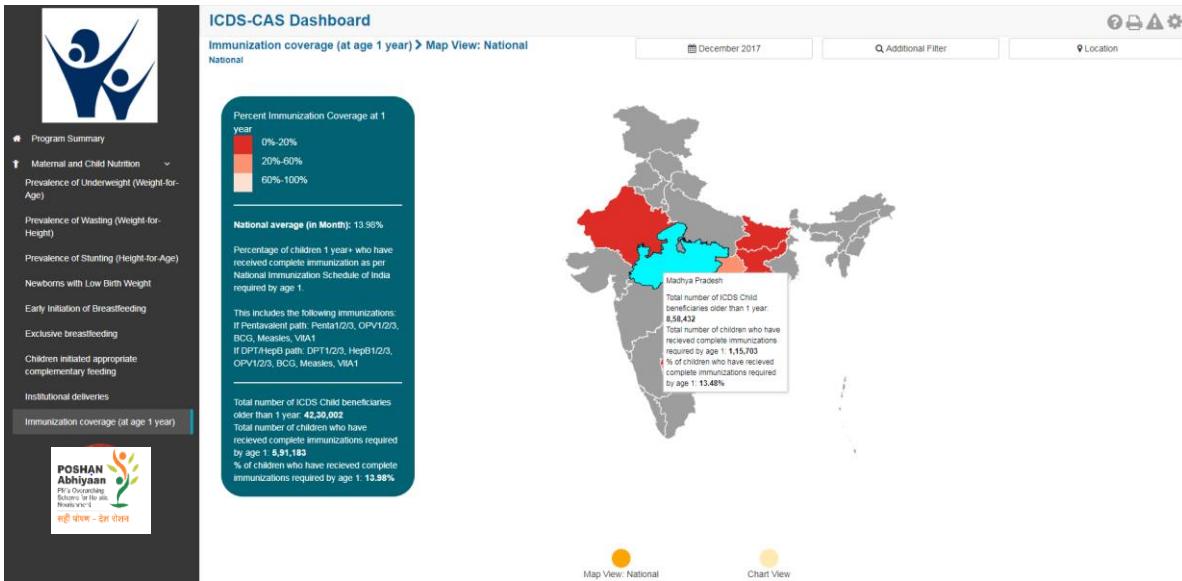

Figure 44: Immunization Coverage (at age 1 year): Map View - National

### 6.9.2 Immunization Coverage (at age 1 year): Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

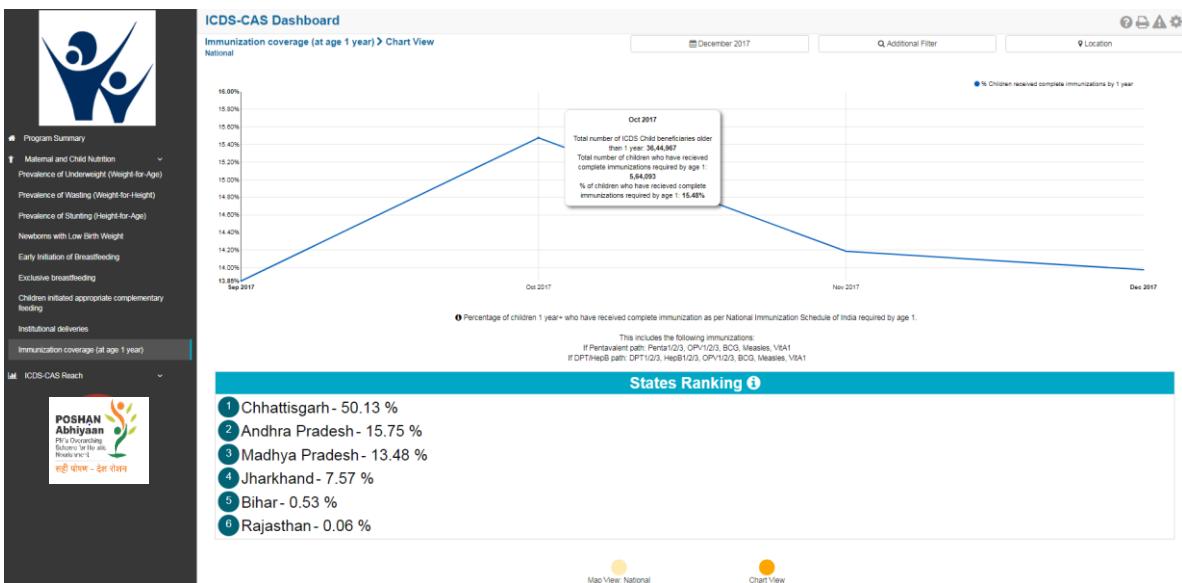

Figure 45: Immunization Coverage (at age 1 year): Chart View - National

## 7 ICDS-CAS Reach

ICDS-CAS Reach includes indicators that provide information about extent of coverage of ICDS-CAS application. The section has the following list of indicators:

1. AWCs Daily Status
2. AWCs Launched

On the left hand navigation panel, click on 'ICDS-CAS Reach' to see a detailed list of indicators. Select the indicator to see a detailed 'Map View' for the selected indicator.

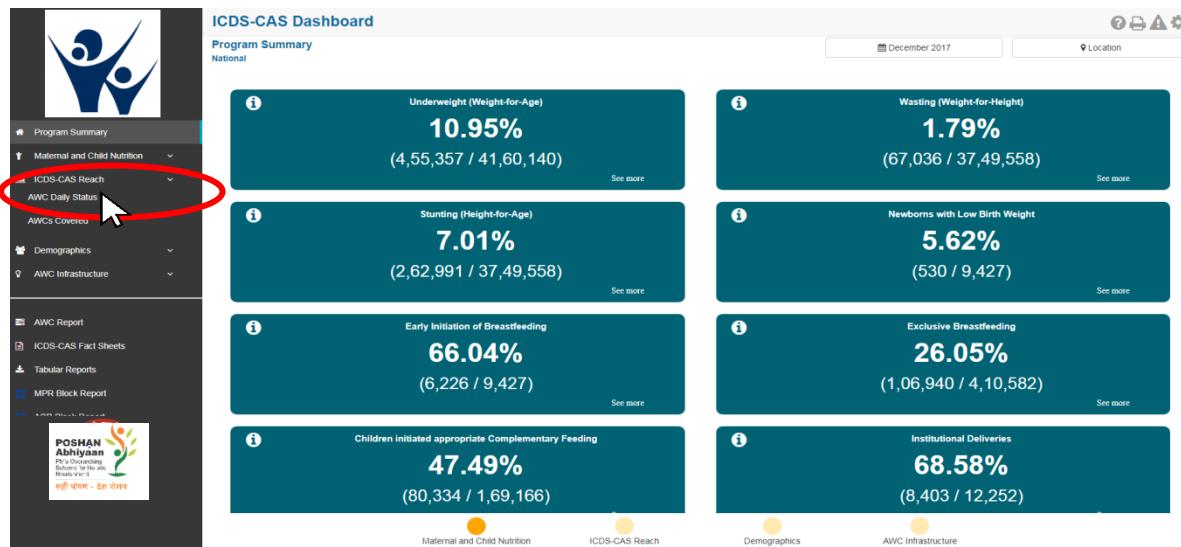

Figure 46: Link to view ICDS-CAS Reach

### 7.1 AWC Daily Status

The first indicator under 'ICDS-CAS Reach' is 'AWC Daily Status' which is explained below.

**Definition of indicator** – Percentage of Anganwadi Centers (AWCs) that were open yesterday

Click on the indicator 'AWC Daily Status' from the left hand navigation panel under 'ICDS-CAS Reach' to enter 'Map View'.

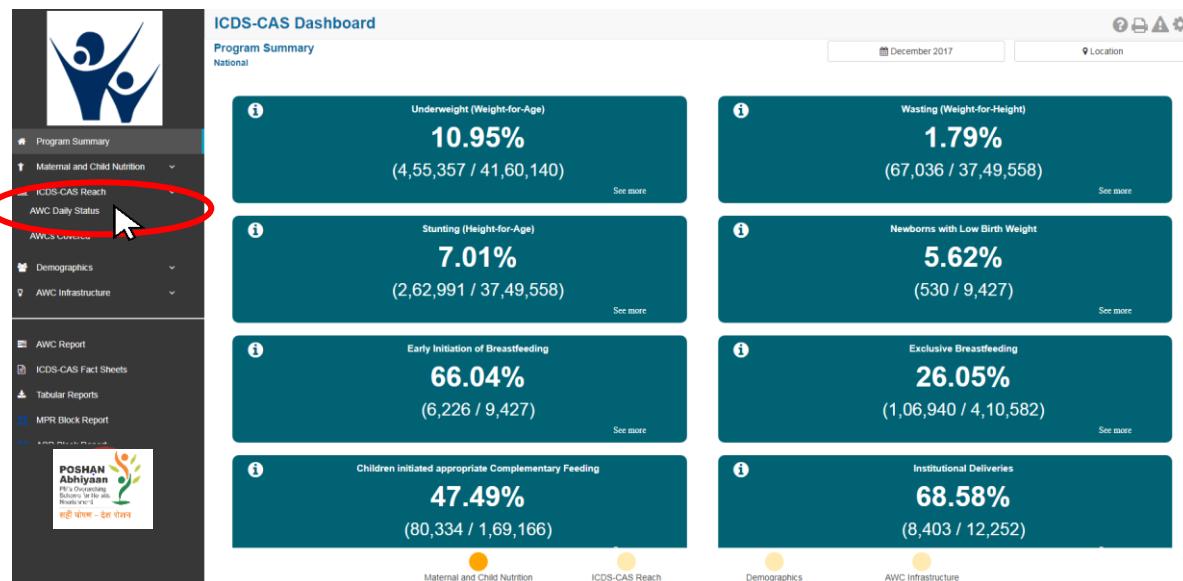

Figure 47: Link to view AWC Daily Status

### 7.1.1 AWC Daily Status: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

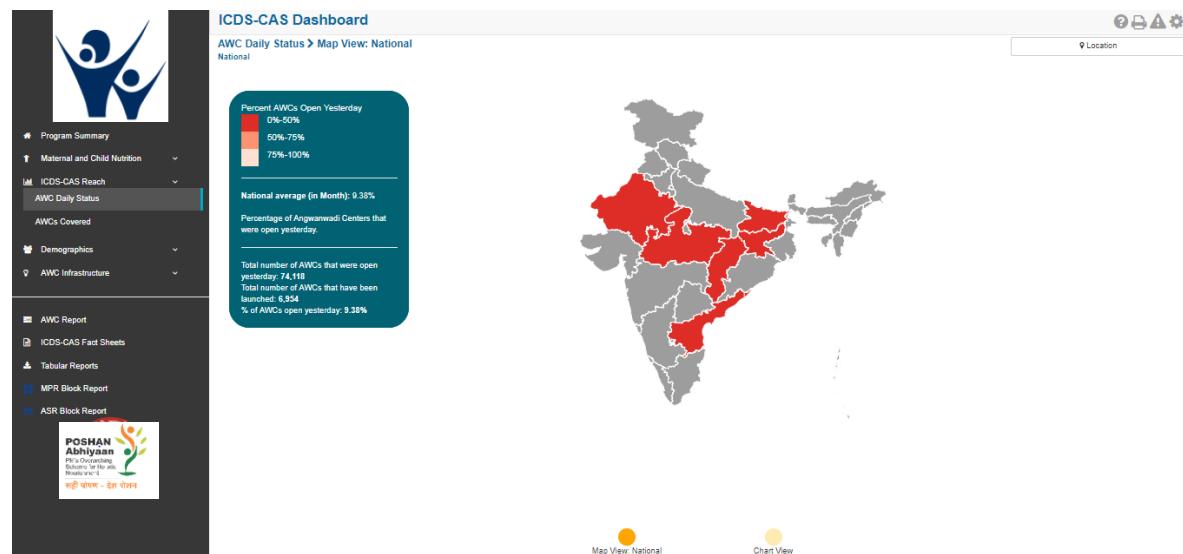

Figure 48: AWC Daily Status: Map View – National

### 7.1.2 AWC Daily Status: Map View – State

If a State level user (SPMU) logs into the dashboard, the ‘Map View’ will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

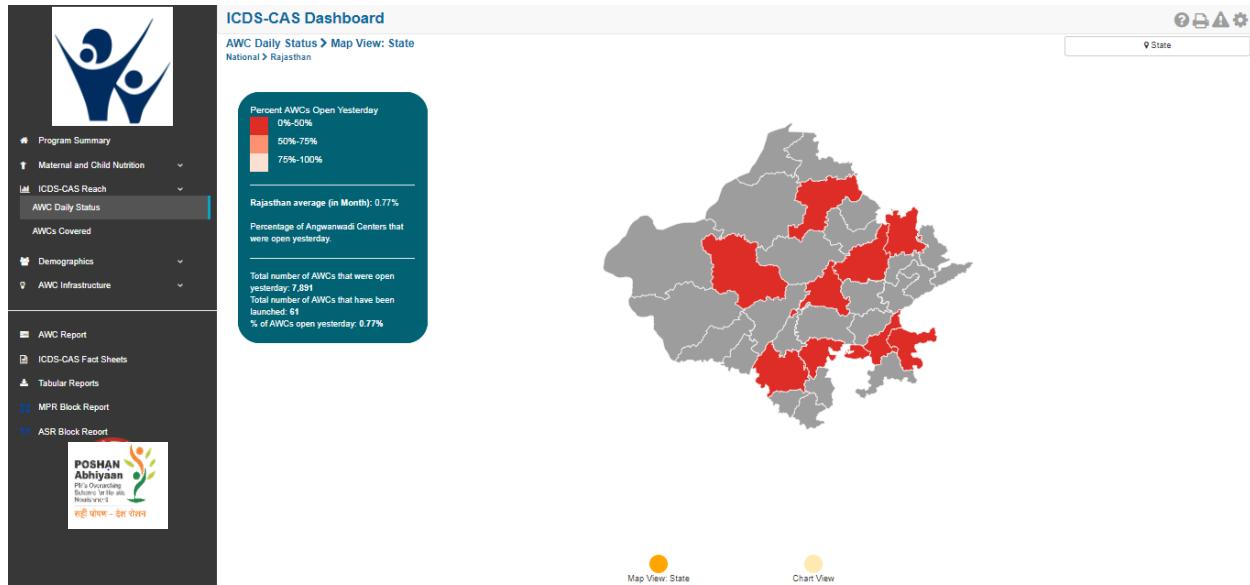

Figure 49: AWC Daily Status: Map View – State

### 7.1.3 AWC Daily Status: Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Map View’ will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

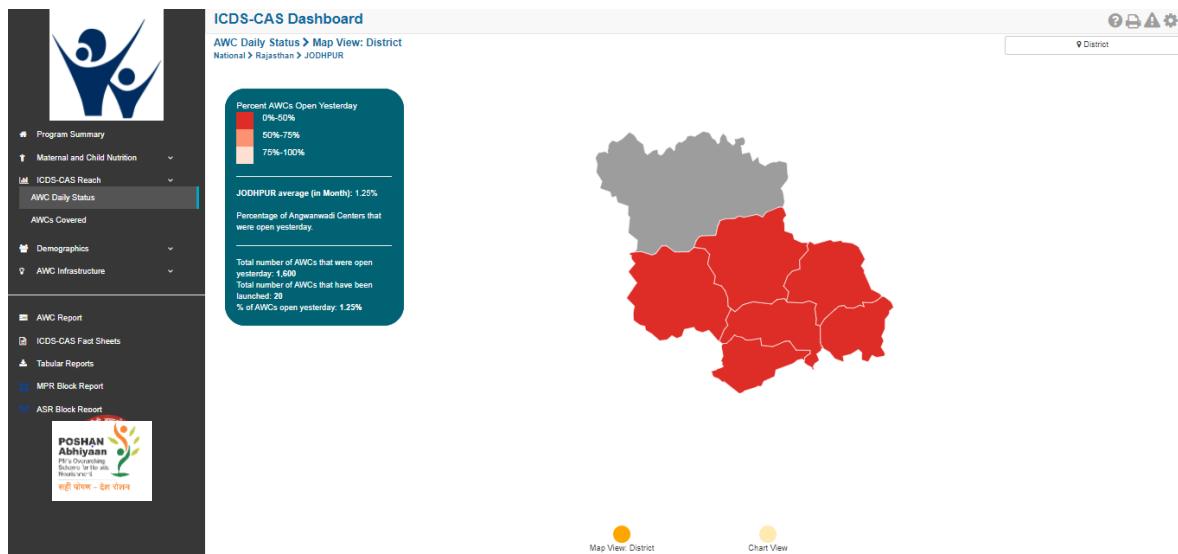

Figure 50: AWC Daily Status: Map View – District

#### 7.1.4 AWC Daily Status: Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Map View’ will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

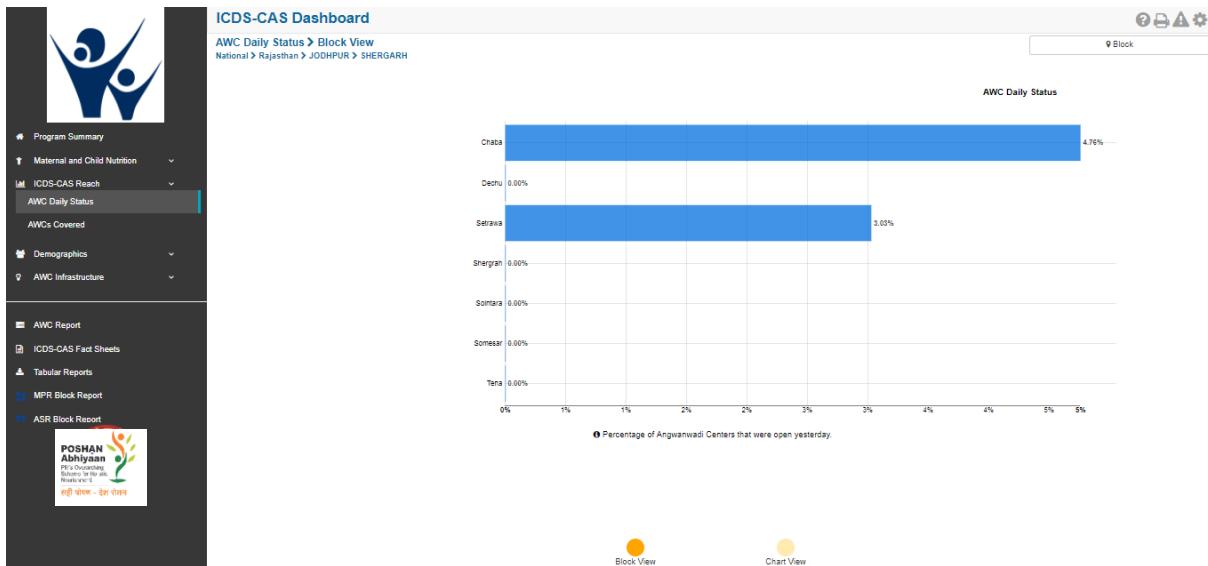

Figure 51: AWC Daily Status: Block View

### 7.1.5 AWC Daily Status: Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

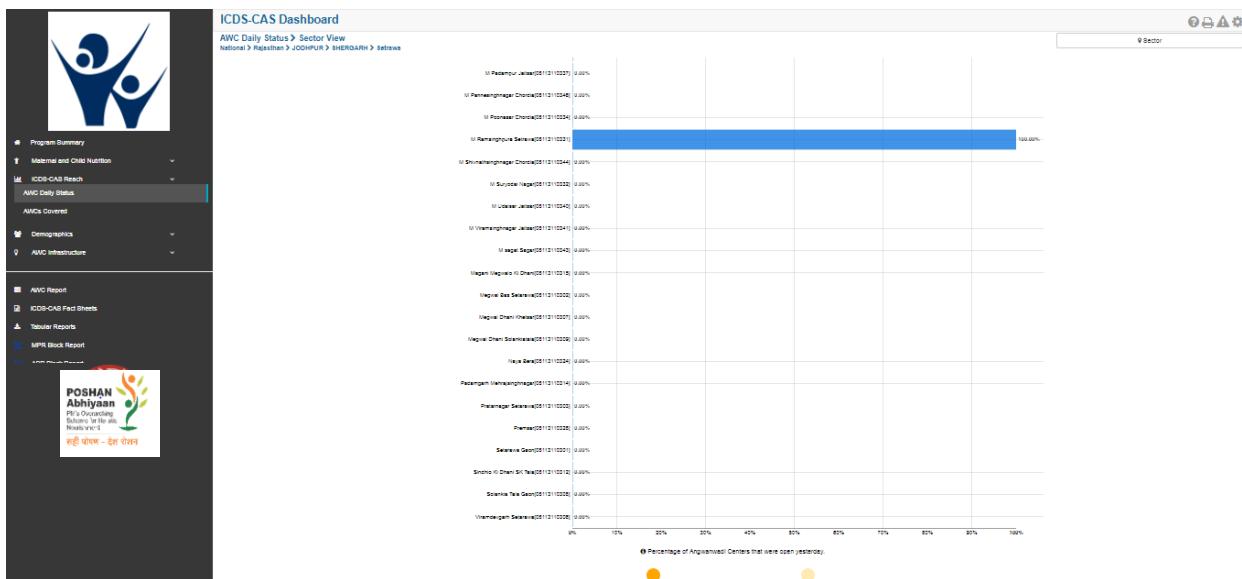

Figure 52: AWC Daily Status: Sector View

### 7.1.6 AWC Daily Status: Chart View – National

On the Map view page, click on the ‘Chart View’ bubble navigation to see a chart view of the indicator.

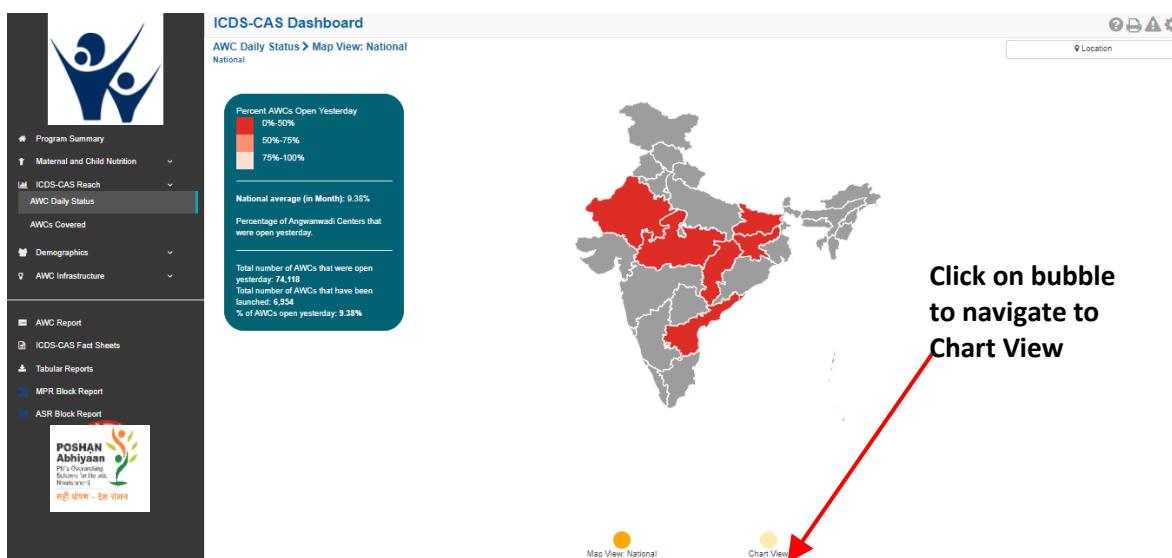

Figure 53: Navigating to Chart View

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

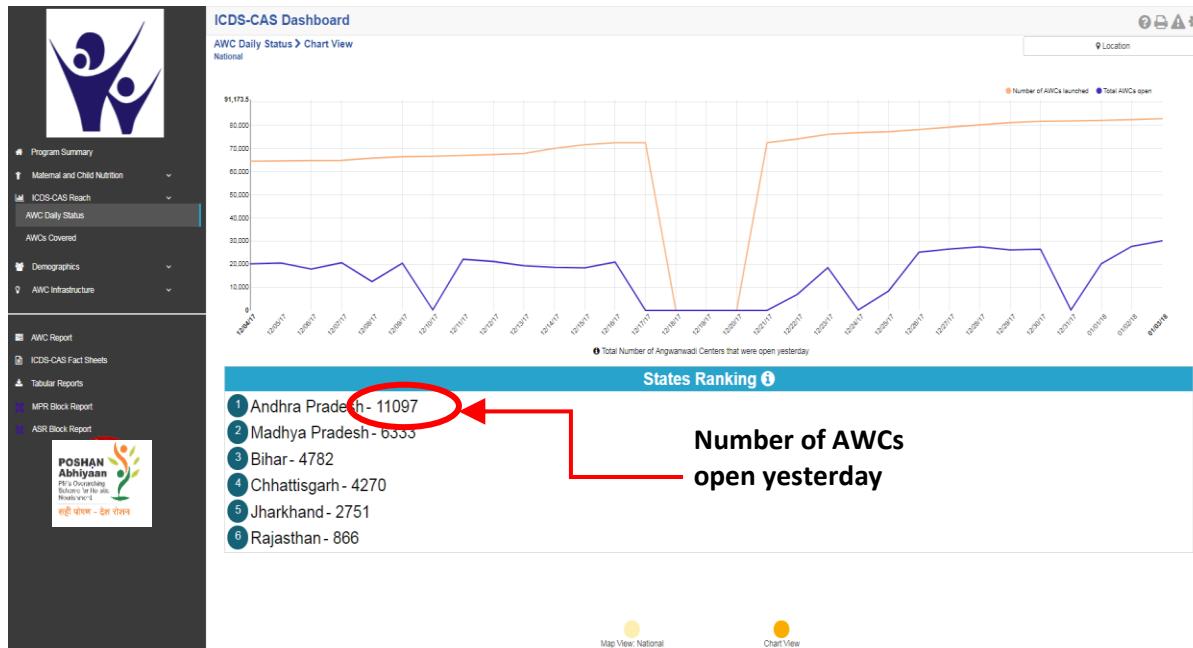

Figure 54: AWC Daily Status: Chart View – National

The x Axis on the chart view display the dates on which the AWC was open and Y axis displays the number of AWCs which were open yesterday. The red trend displays the details of the AWCs which have been launched till date and the blue trend line displays the number of AWC which were open from the total number of AWCs launched.

The ‘States Ranking’ section below the graph ranks the states based on number of AWCs which were open yesterday in each of the states.

### 7.1.7 AWC Daily Status: Chart View – State

If a State level user (SPMU) logs into the dashboard, the ‘Chart View’ will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

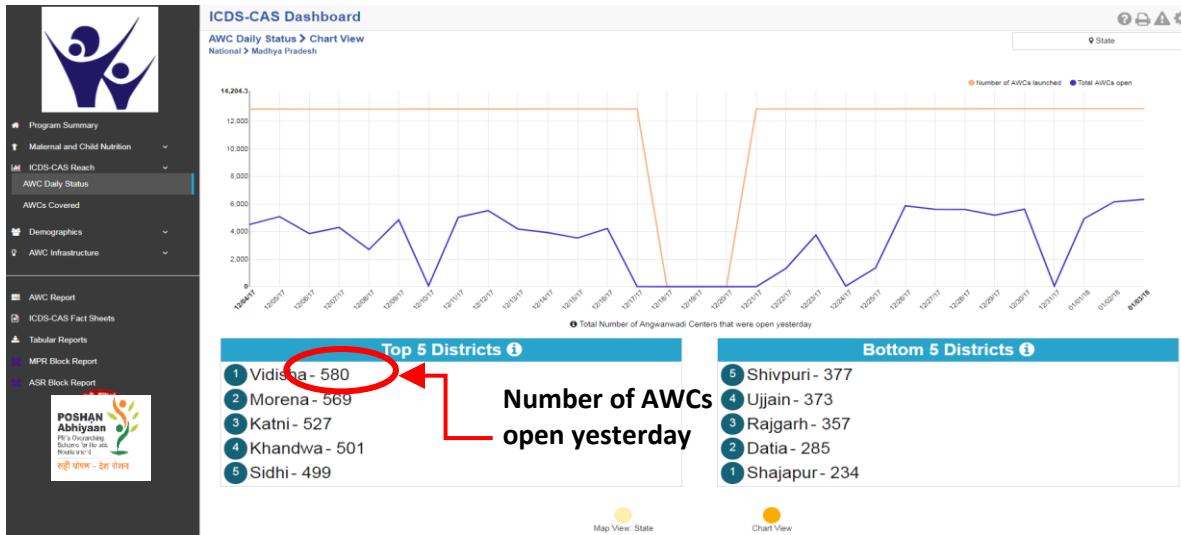

Figure 55: AWC Daily Status: Chart View – State

### 7.1.8 AWC Daily Status: Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

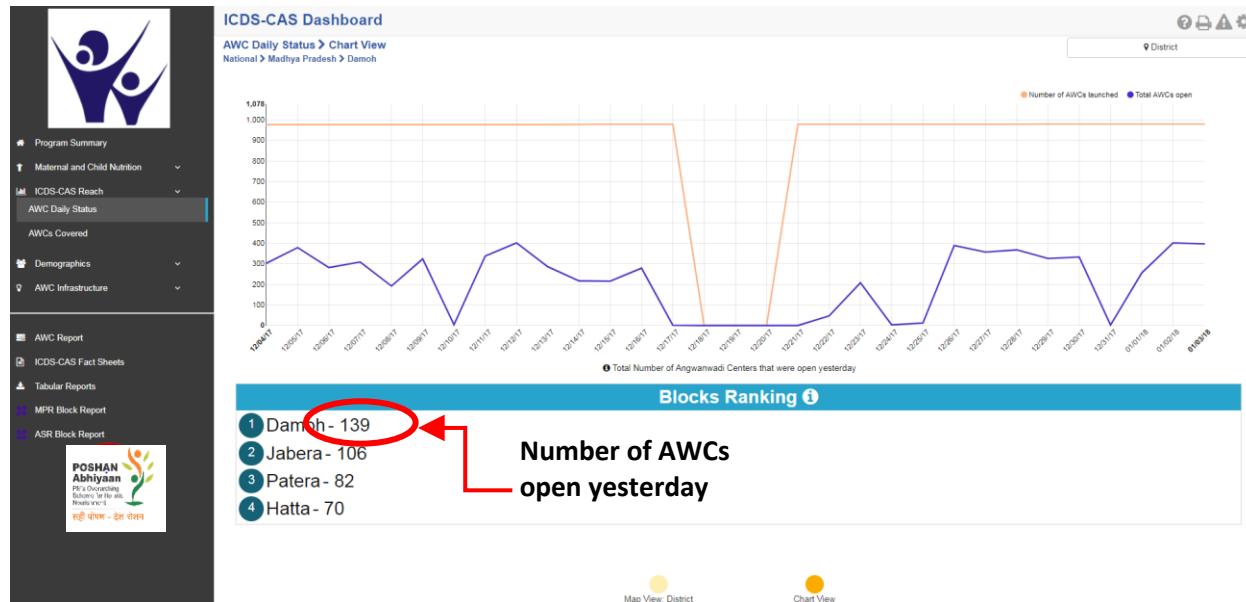

Figure 56: AWC Daily Status: Chart View – District

### 7.1.9 AWC Daily Status: Chart View – Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

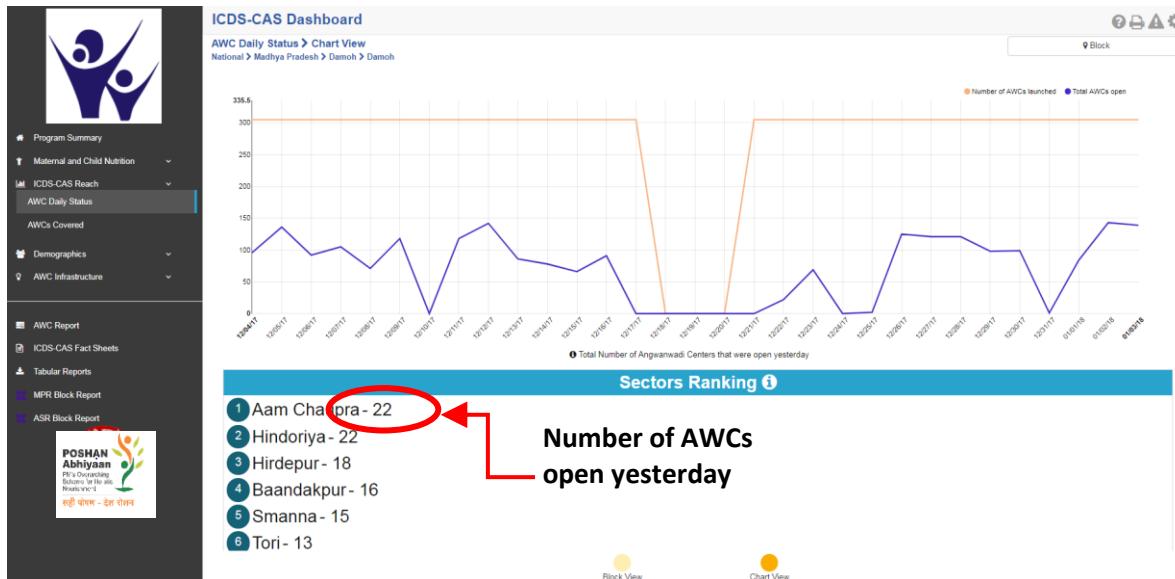

Figure 57: AWC Daily Status: Chart View – Block

### 7.1.10 AWC Daily Status: Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

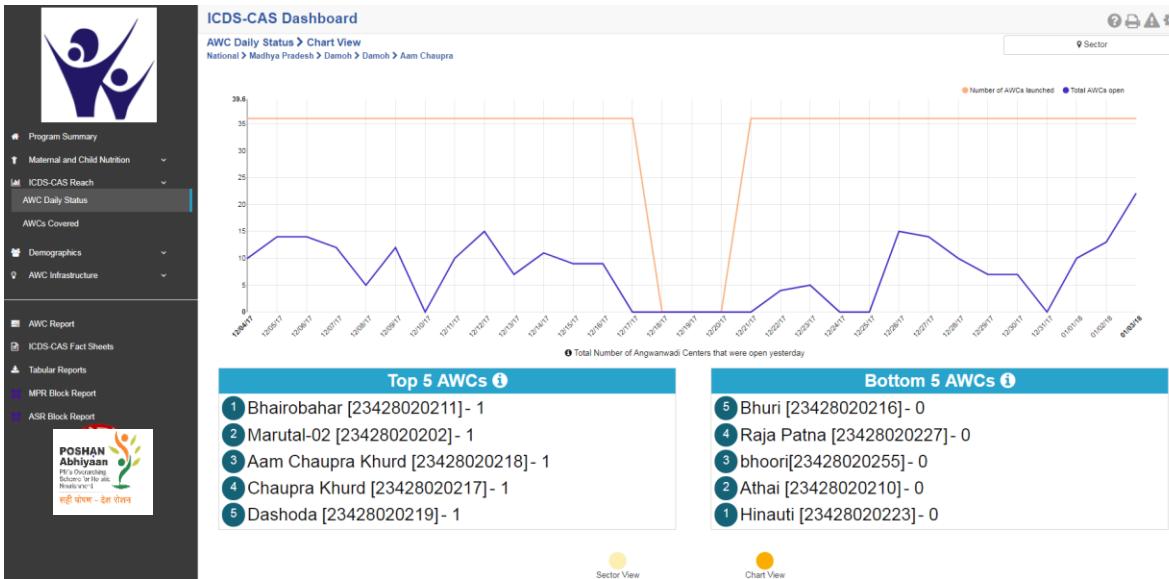

Figure 58: AWC Daily Status: Chart View – Sector

In the above snapshot, the AWCs with '1' written against them were open yesterday and the AWCs with '0' written against them were closed yesterday.

## 7.2 AWCs Launched

The second indicator under 'ICDS-CAS Reach' is 'AWCs Launched' which is explained below.

**Definition of indicator** – Total AWCs that have launched ICDS-CAS. AWCs are considered launched if they have submitted at least one Household Registration form.

The navigation workflow for moving to 'Map View' or 'Chart View' is similar to as explained for the first indicator – AWC Daily Status in Section 7.1.

### 7.2.1 AWCs Launched: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWC Daily Status in Section 7.1.

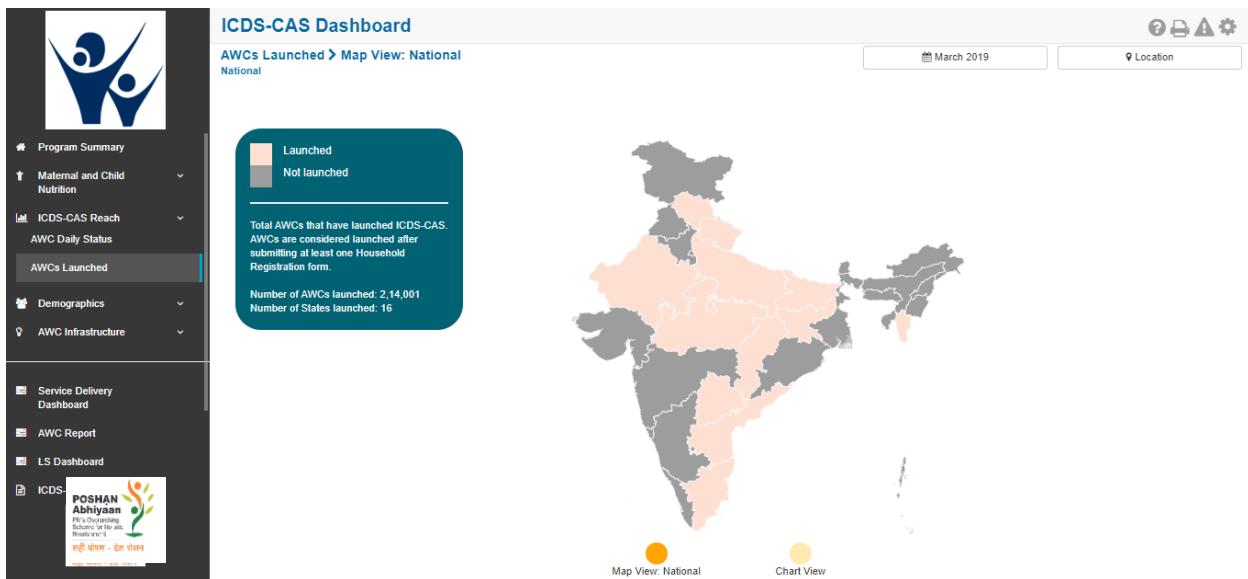

Figure 59: AWCs Covered: Map View – National

### 7.2.2 AWCs Launched: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWC Daily Status in Section 7.1.

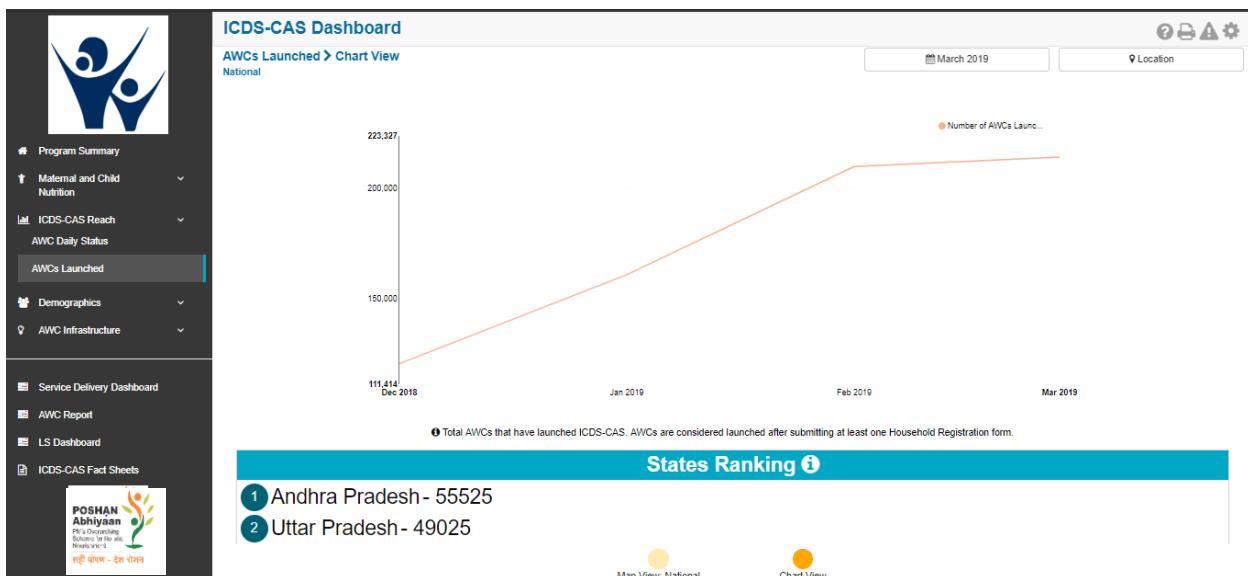

Figure 60: AWCs Covered: Chart View – National

## 1. 7.3 LSs Launched

The third indicator under 'ICDS-CAS Reach' is 'LSs Launched' which is explained below.

**Definition of indicator** – Total number of Lady Supervisors who have ever submitted any form in the LS app

The navigation workflow for moving to 'Map View' or 'Chart View' is similar to as explained for the first indicator – AWC Daily Status in Section 7.1.

### 7.3.1 LSs Launched: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar as explained for the first indicator – AWC Daily Status in Section 7.1.

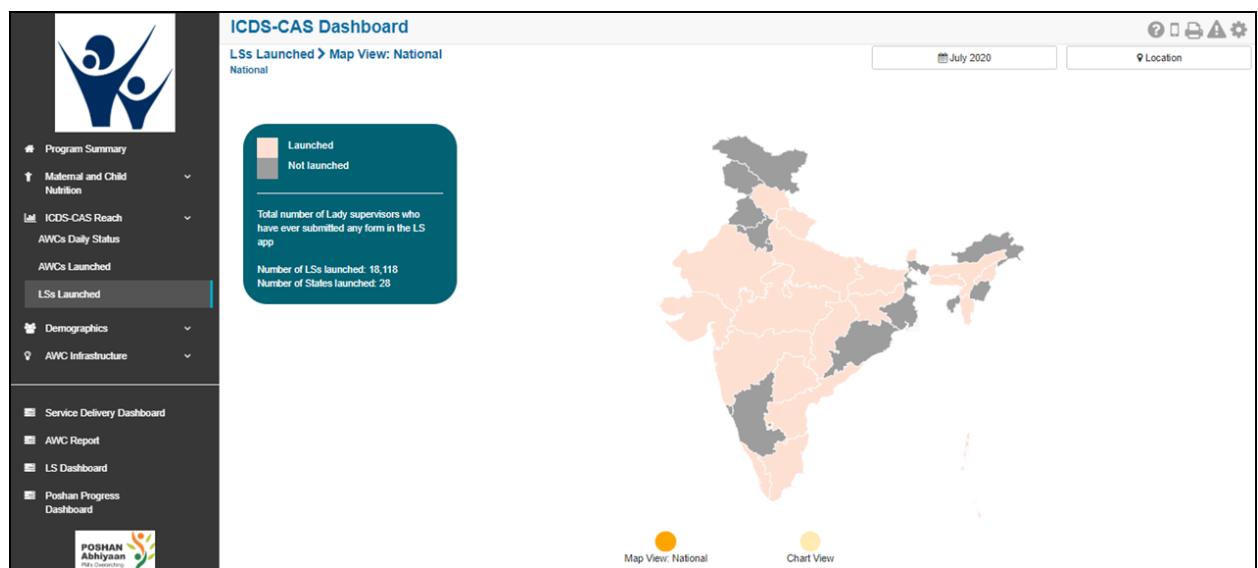

Figure 61 : LSs Launched - National Map View

### 7.3.2 LSs Launched: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar as explained for the first indicator – AWC Daily Status in Section 7.1.

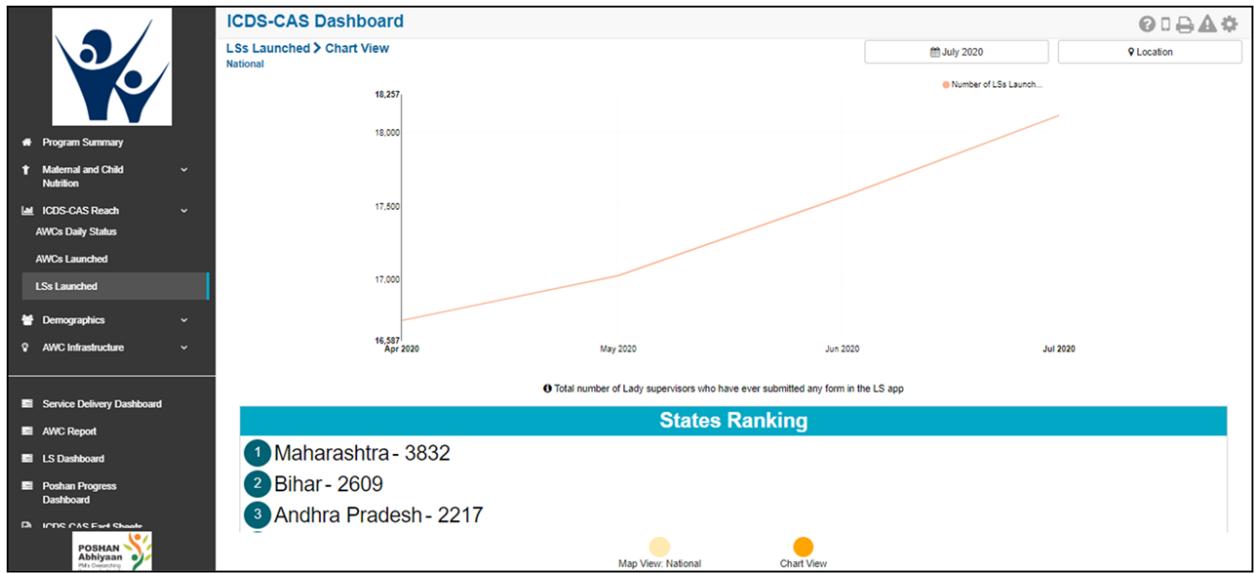

Figure 62: LSS Launched - National Chart View

## 8 Demographics

Demographics include indicators that provide information about the number of beneficiaries covered under ICDS-CAS across various categories. The section has the following list of indicators:

1. Registered Households
2. Children (0-6 years) who are enrolled for ICDS services
3. Pregnant Women enrolled for ICDS services
4. Lactating Mothers enrolled for ICDS services
5. Adolescent Girls (11-18 years) enrolled for ICDS services
6. Percent Aadhaar-seeded Beneficiaries

On the left hand navigation panel, click on 'Demographics' to see a detailed list of indicators. Select the indicator to see a detailed 'Map View' for the selected indicator.

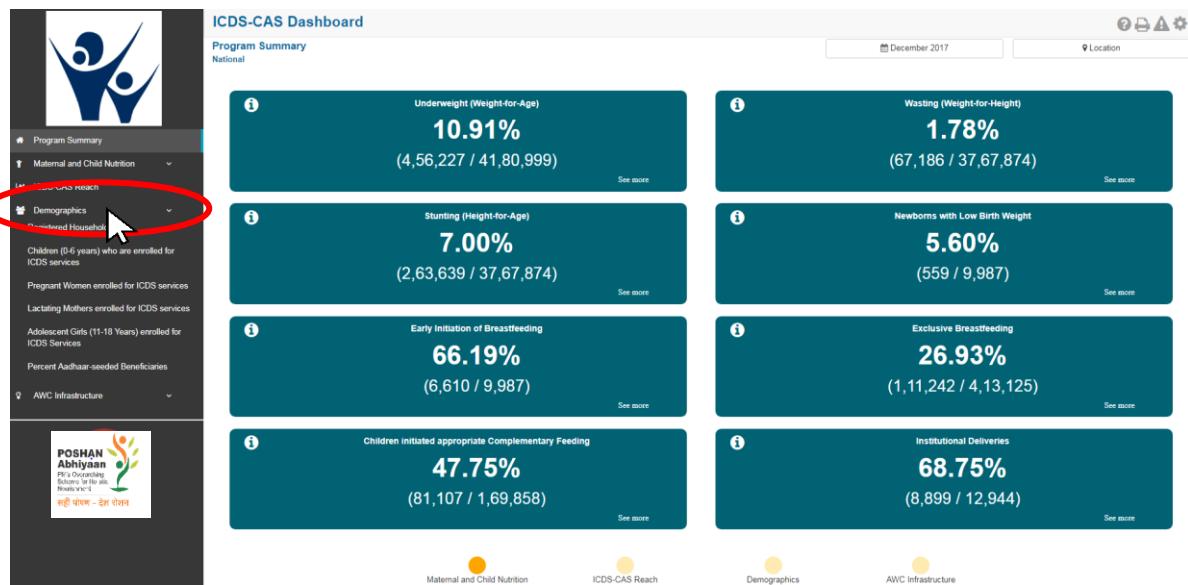

Figure 63: Link to view Demographics

## 8.1 Registered Households

The first indicator under 'Demographics' is 'Registered Households' which is explained below.

**Definition of indicator** – Total number of households registered

Click on the indicator 'Registered Households' from the left hand navigation panel under 'Demographics' to enter 'Map View'.

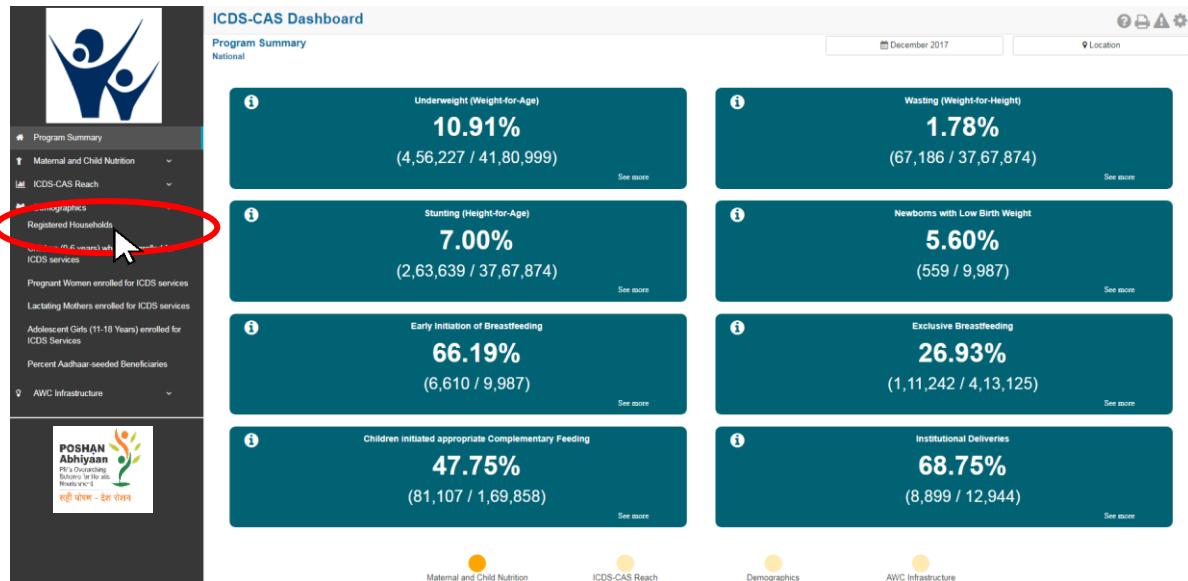

Figure 64: Link to view Registered Households

### 8.1.1 Registered Households: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

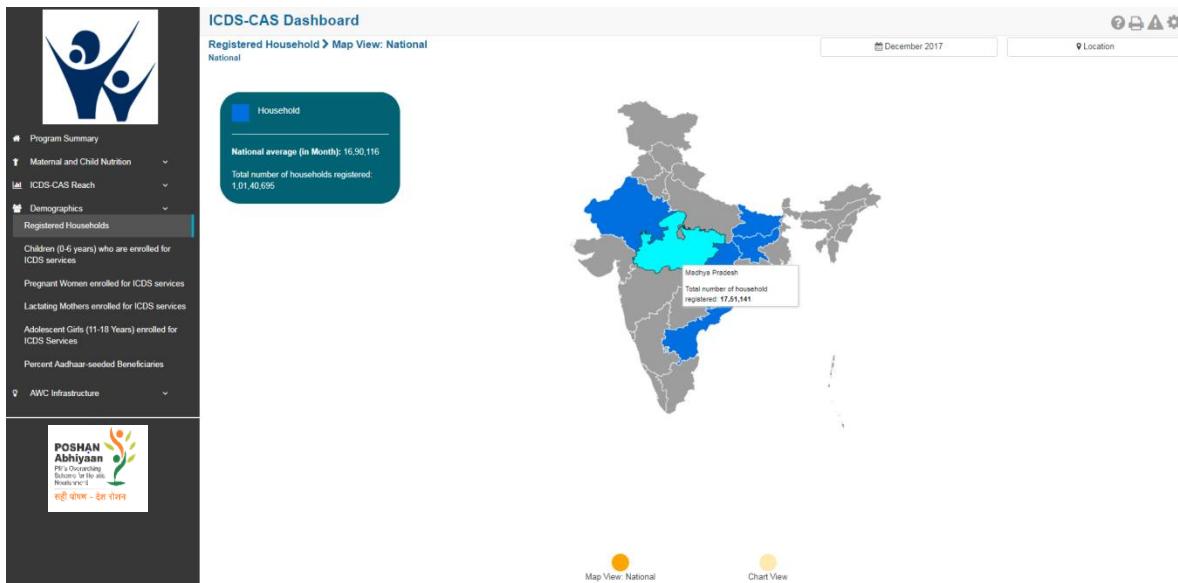

Figure 63: Registered Households: Map View – National

### 8.1.2 Registered Households: Map View – State

If a State level user (SPMU) logs into the dashboard, the 'Map View' will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

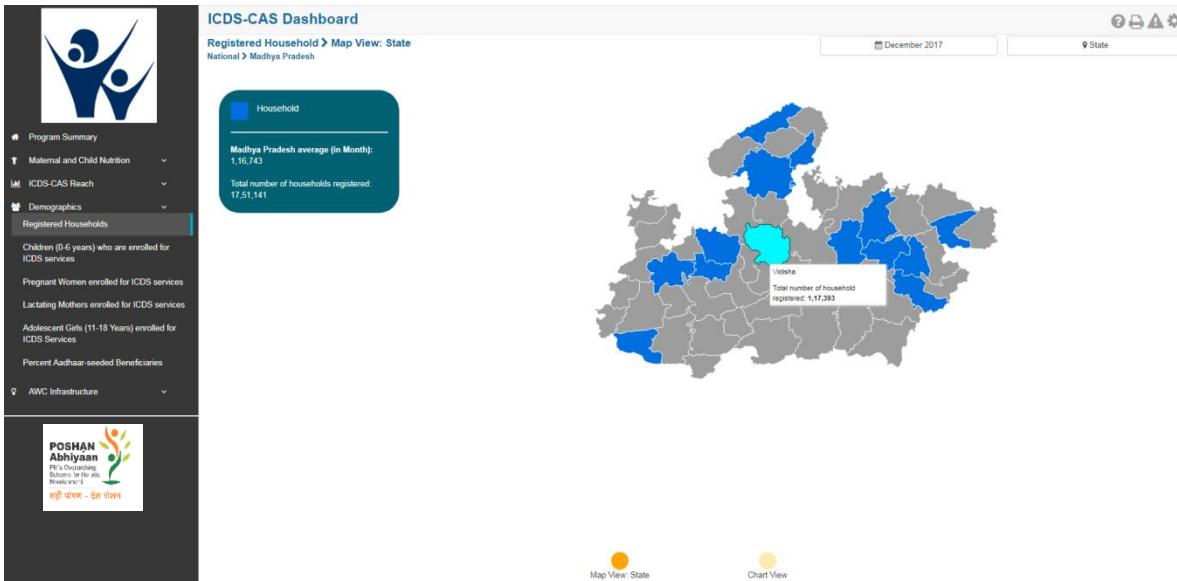

Figure 65: Registered Households: Map View – State

### 8.1.3 Registered Households: Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Map View’ will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

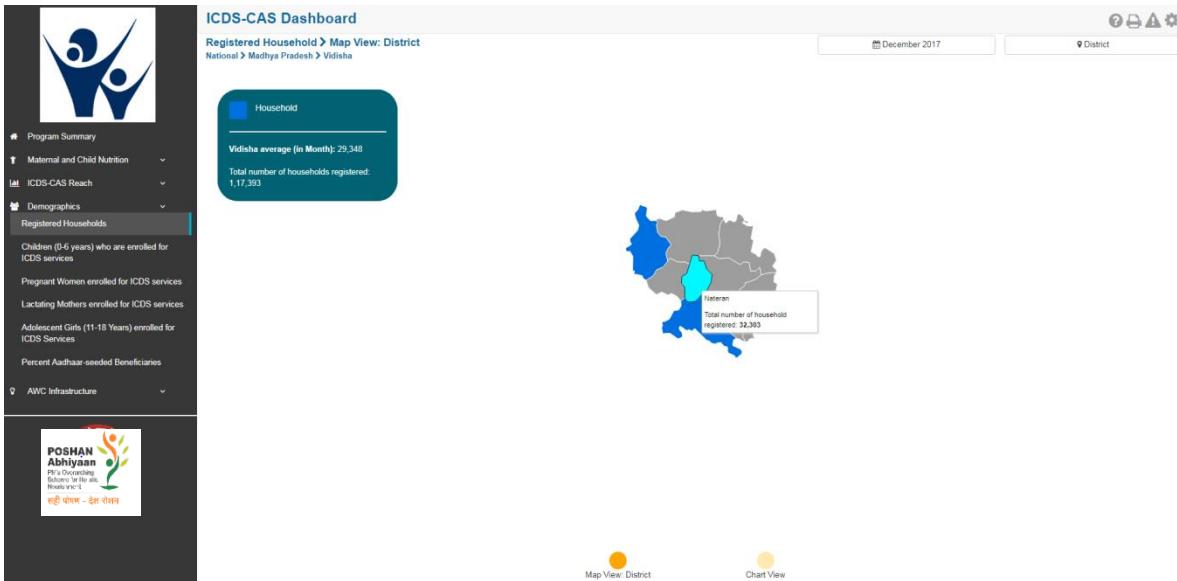

Figure 66: Registered Households: Map View – District

#### 8.1.4 Registered Households: Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the 'Map View' will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

Figure 67: Registered Households: Map View – Block View

#### 8.1.5 Registered Households: Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

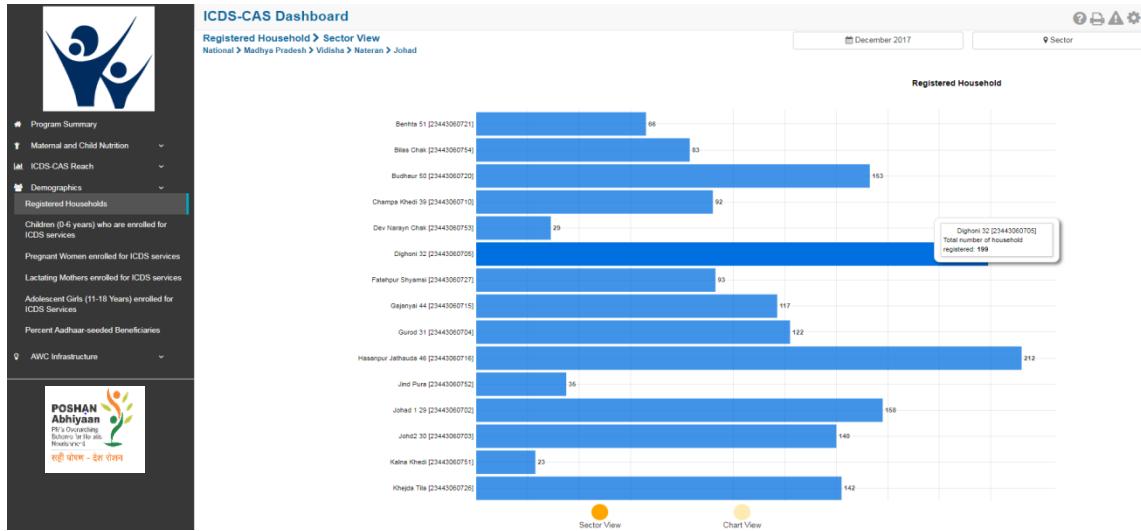

Figure 68: Registered Households: Map View – Sector View

### 8.1.6 Registered Households: Chart View – National

On the Map view page, click on the ‘Chart View’ bubble navigation to see a chart view of the indicator.

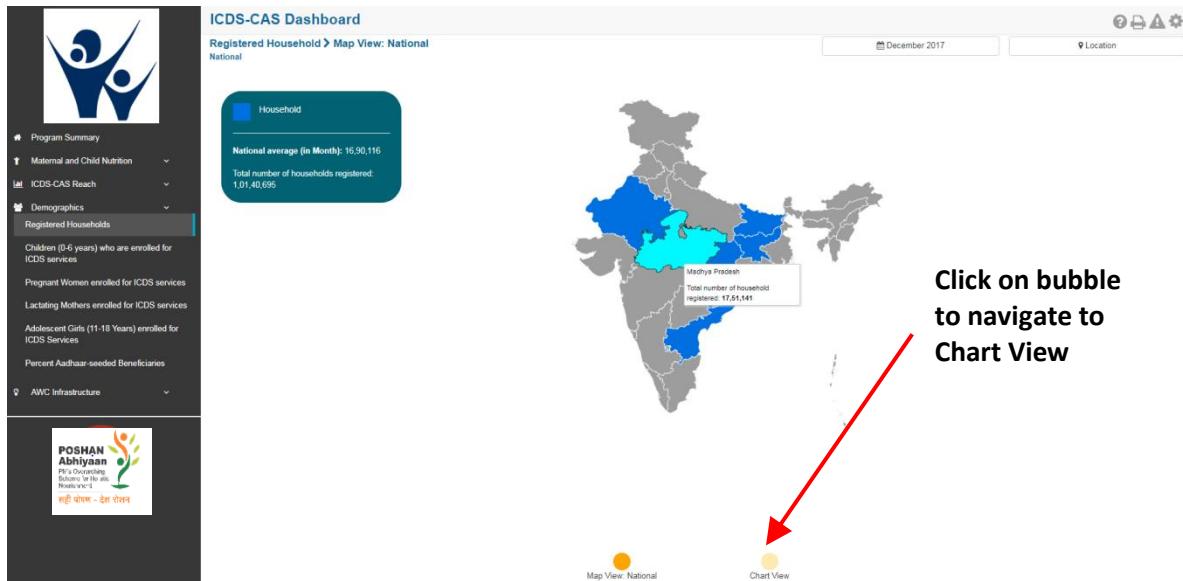

Figure 69: Navigating to Chart View

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

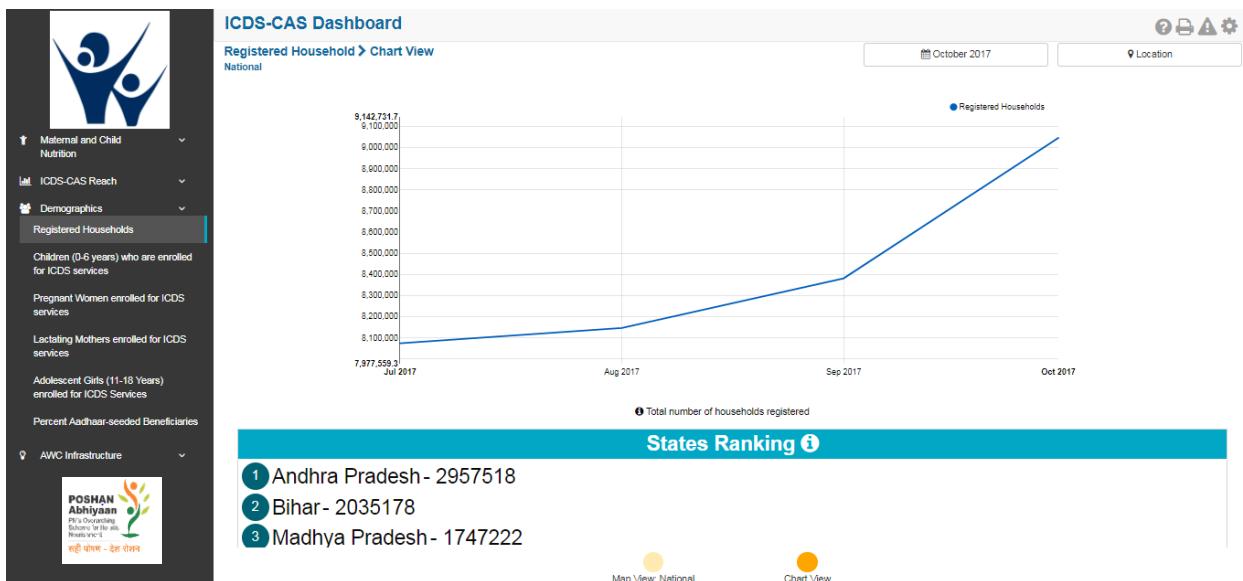

Figure 70: Registered Households: Chart View – National

### 8.1.7 Registered Households: Chart View – State

If a State level user (SPMU) logs into the dashboard, the ‘Chart View’ will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

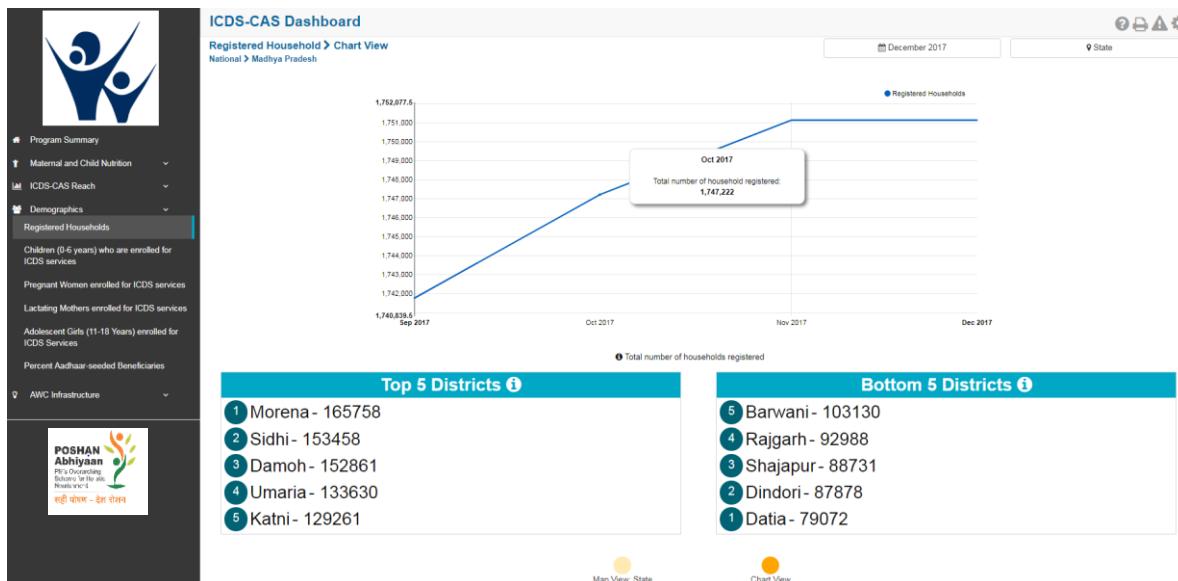

Figure 71: Registered Households: Chart View – State

### 8.1.8 Registered Households: Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

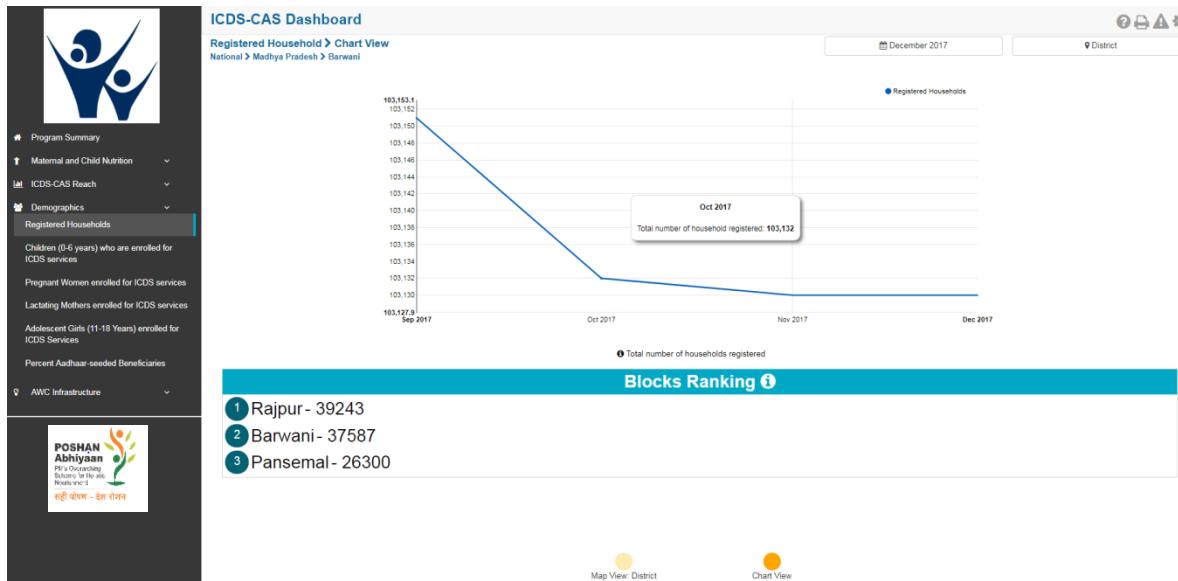

Figure 72: Registered Households: Chart View – District

### 8.1.9 Registered Households: Chart View – Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

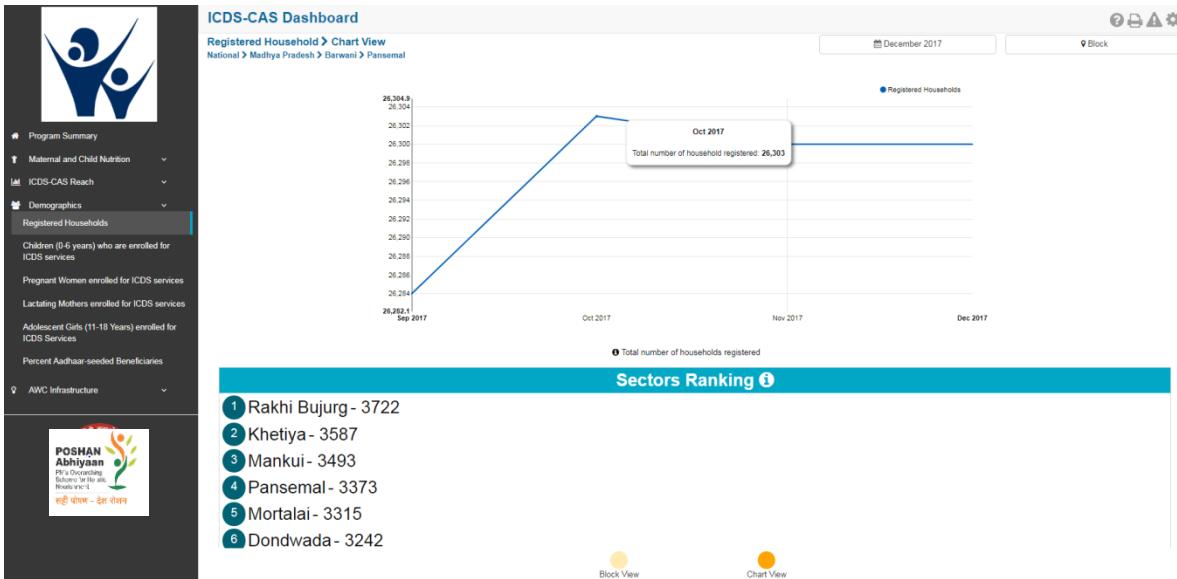

Figure 73: Registered Households: Chart View – Block

#### 8.1.10 Registered Households: Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

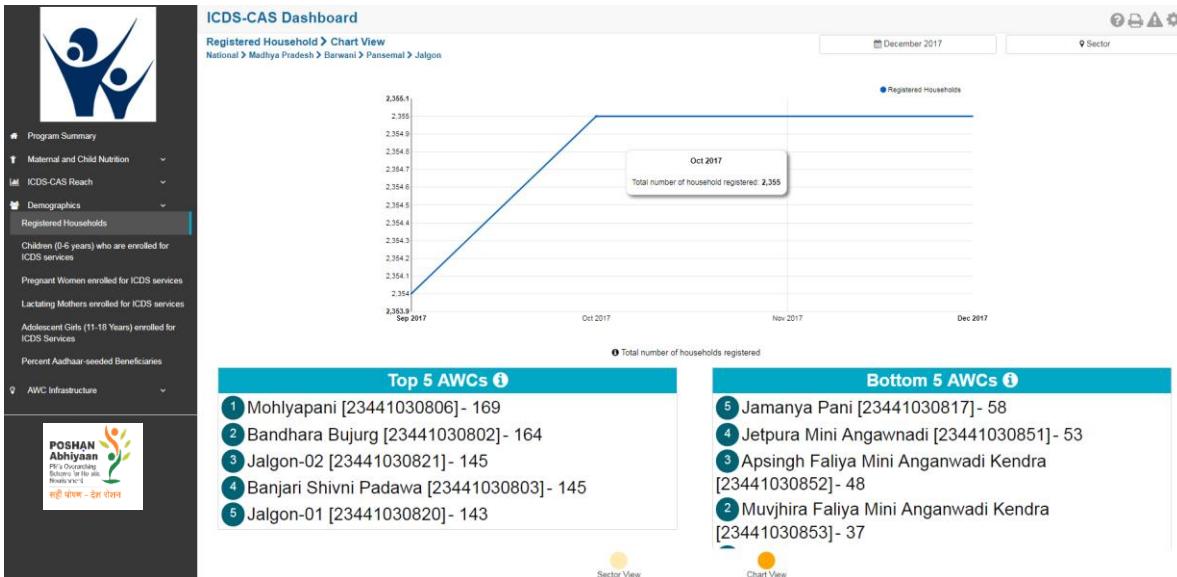

Figure 74: Registered Households: Chart View – Sector

## 8.2 Children (0-6 years) who are enrolled for ICDS services

The second indicator under ‘Demographics’ is ‘Children (0-6 years) who are enrolled for ICDS services’ which is explained below.

**Definition of indicator** – Number of children registered between 0-6 years old who are enrolled for ICDS services

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

### 8.2.1 Children (0-6 years) who are enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

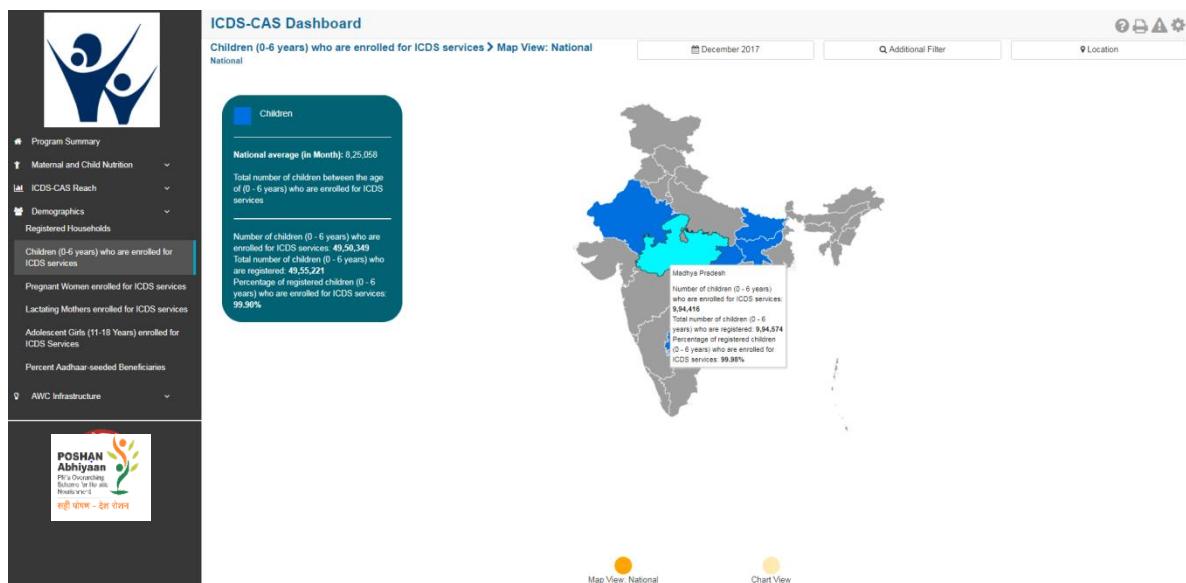

Figure 75: Children (0-6 years) who are enrolled for ICDS services: Map View – National

### 8.2.2 Children (0-6 years) who are enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

The X axis shows bifurcation of children between (0-6 years) to display number of children in the following age groups:

- Children between 0-1 Month
- Children between 1-6 Months
- Children between 6-12 months
- Children between 1-3 years
- Children between 3-6 years

The Y axis displays the total number of children (0-6 years) who are enrolled for ICDS services. The blue bars displayed in the below mentioned snapshot display the % of children in various age groups i.e. (0-6 years) out of the total number of children who are enrolled for ICDS-CAS services.

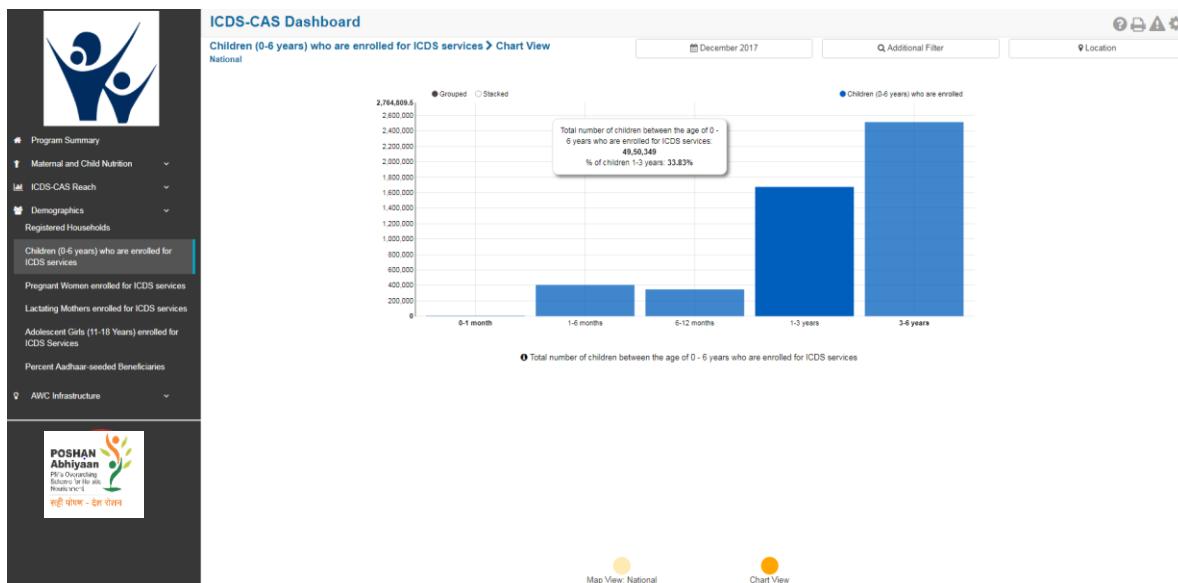

Figure 76: Children (0-6 years) who are enrolled for ICDS services: Chart View – National

### 8.3 Pregnant Women enrolled for ICDS services

The third indicator under ‘Demographics’ is ‘Pregnant Women enrolled for ICDS services’ which is explained below.

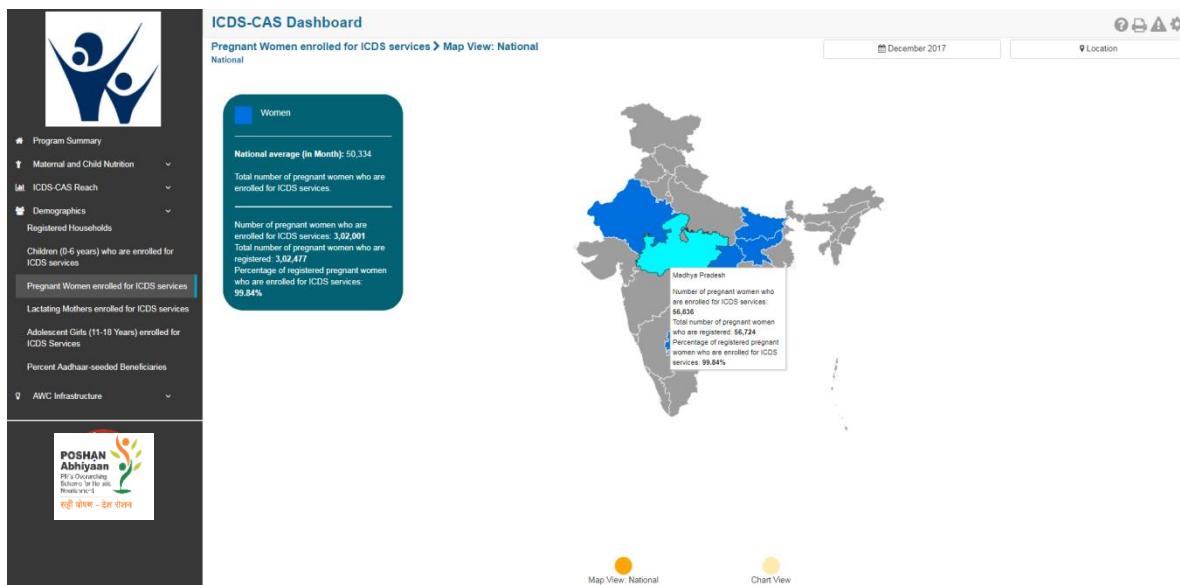

**Definition of indicator** – Number of pregnant women registered who are enrolled for ICDS services

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

#### 8.3.1 Pregnant Women enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

*Figure 77: Pregnant Women enrolled for ICDS services: Map View – National*

### 8.3.2 Pregnant Women enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

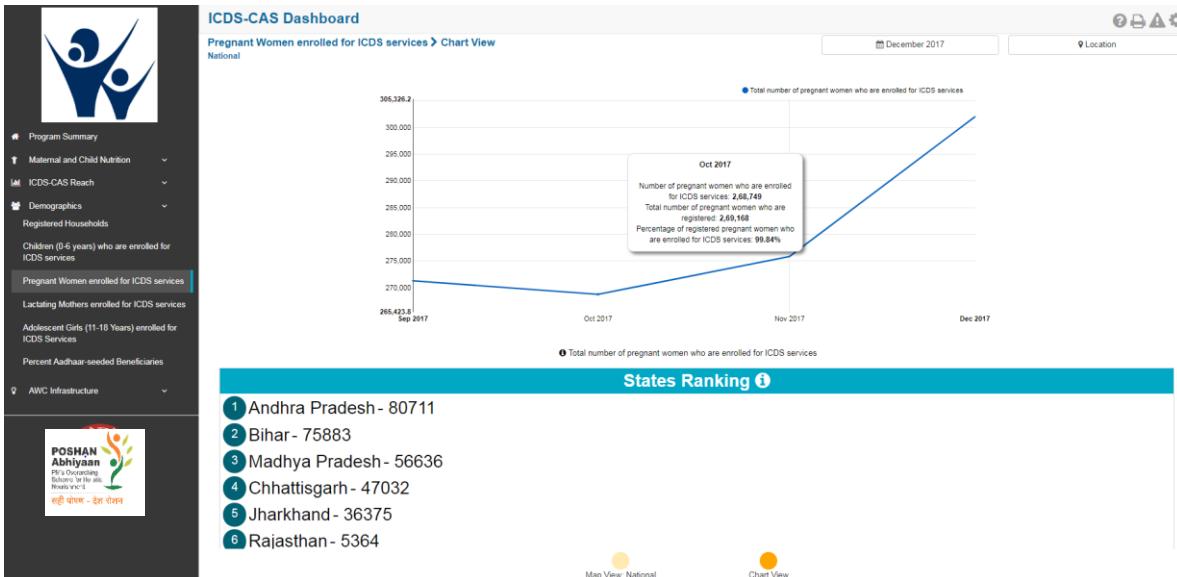

Figure 78: Pregnant Women enrolled for ICDS services: Chart View – National

## 8.4 Lactating Mothers enrolled for ICDS services

The fourth indicator under ‘Demographics’ is ‘Lactating Mothers enrolled for ICDS services’ which is explained below.

**Definition of indicator** – Number of lactating women registered who are enrolled for ICDS services

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

### 8.4.1 Lactating Mothers enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

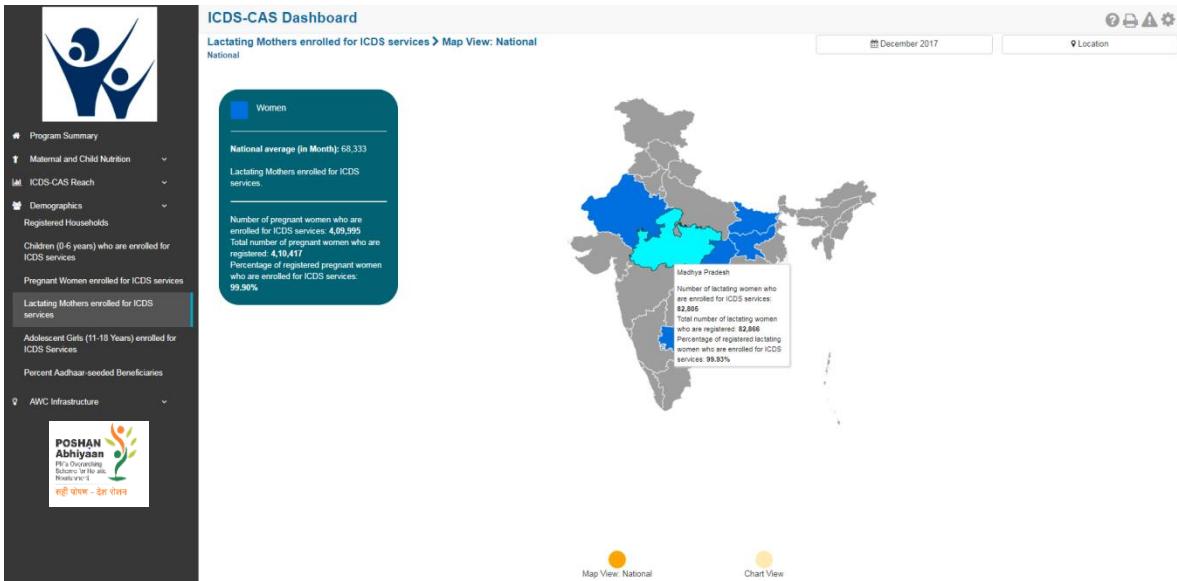

Figure 79: Lactating Mothers enrolled for ICDS services: Map View – National

#### 8.4.2 Lactating Mothers enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

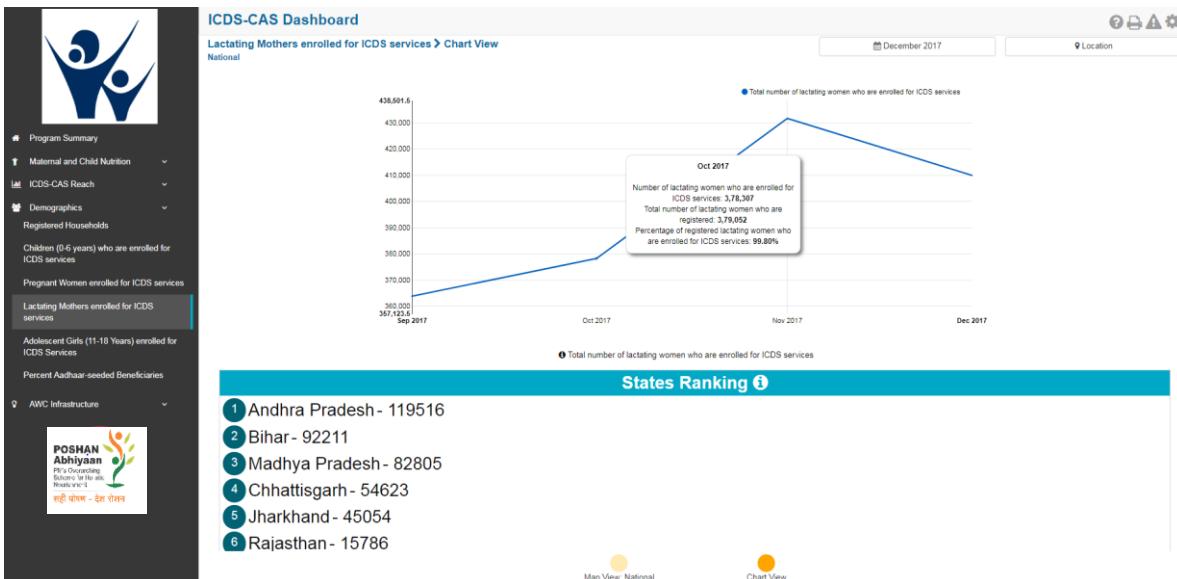

Figure 80: Lactating Mothers enrolled for ICDS services: Chart View – National

## 8.5 Out of School Adolescent Girls (11-14 years) enrolled for ICDS services

The fifth indicator under 'Demographics' is 'Adolescent Girls (11-14 years) enrolled for ICDS services' which is explained below.

**Definition of indicator** – Number of adolescent girls registered between 11-14 years old who are enrolled for ICDS services

The navigation workflow for moving to 'Map View' or 'Chart View' is similar to as explained for the first indicator – Registered Households in Section 8.1.

### 8.5.1 Out of School Adolescent Girls (11-14 years) enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

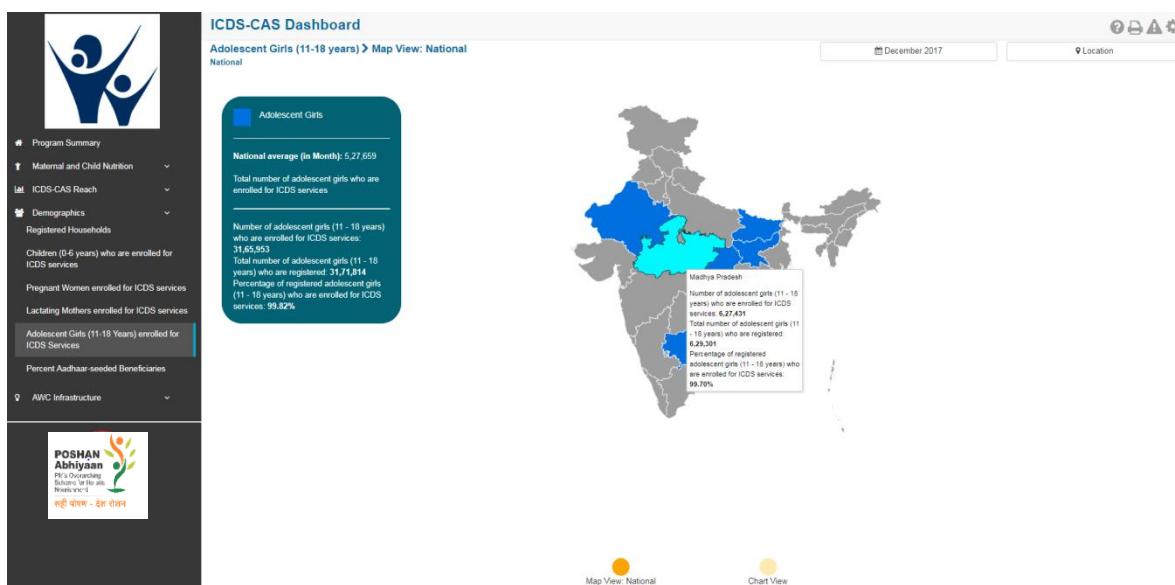

Figure 81: Adolescent Girls (11-18 years) enrolled for ICDS services: Map View – National

### 8.5.2 Out of School Adolescent Girls (11-14 years) enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

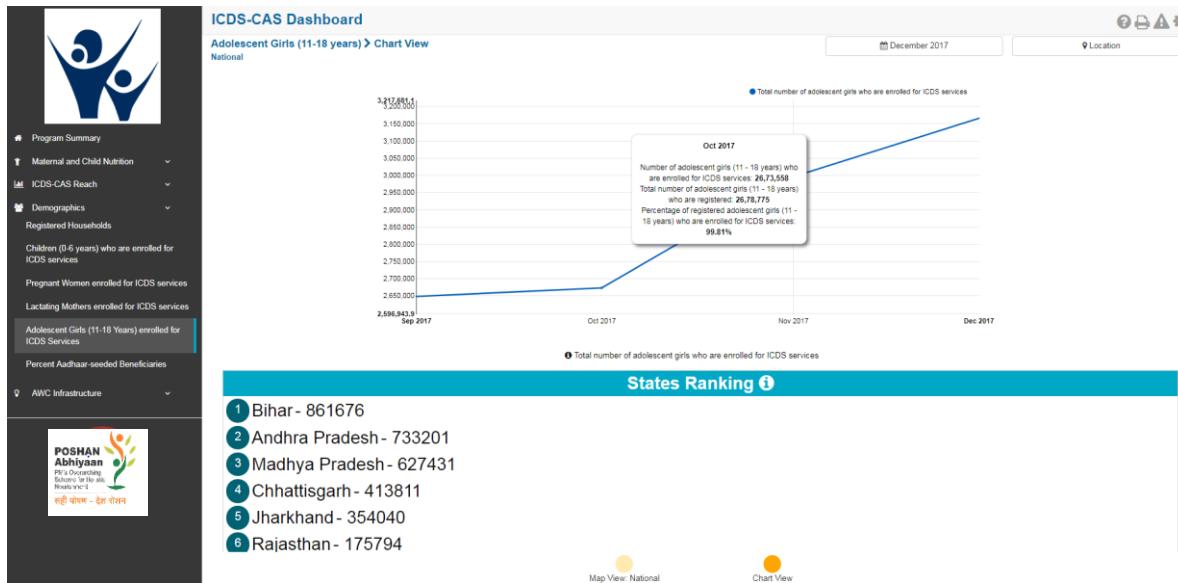

Figure 82: Adolescent Girls (11-18 years) enrolled for ICDS services: Chart View – National

## 8.6 Aadhaar-seeded Beneficiaries

The last indicator under ‘Demographics’ is ‘Percent Aadhaar-seeded Beneficiaries’ which is explained below.

**Definition of indicator** – Percentage of ICDS beneficiaries whose Aadhaar identification has been captured

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

### 8.6.1 Aadhaar-seeded Beneficiaries: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

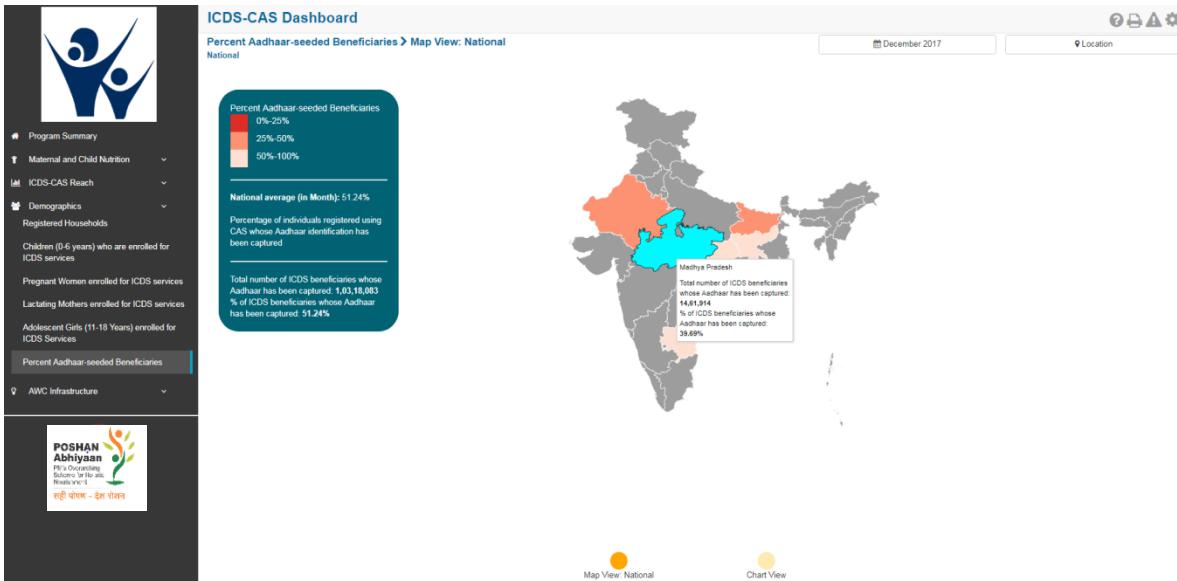

Figure 83: Percent Aadhaar-seeded Beneficiaries: Map View – National

## 8.6.2 Aadhaar-seeded Beneficiaries: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

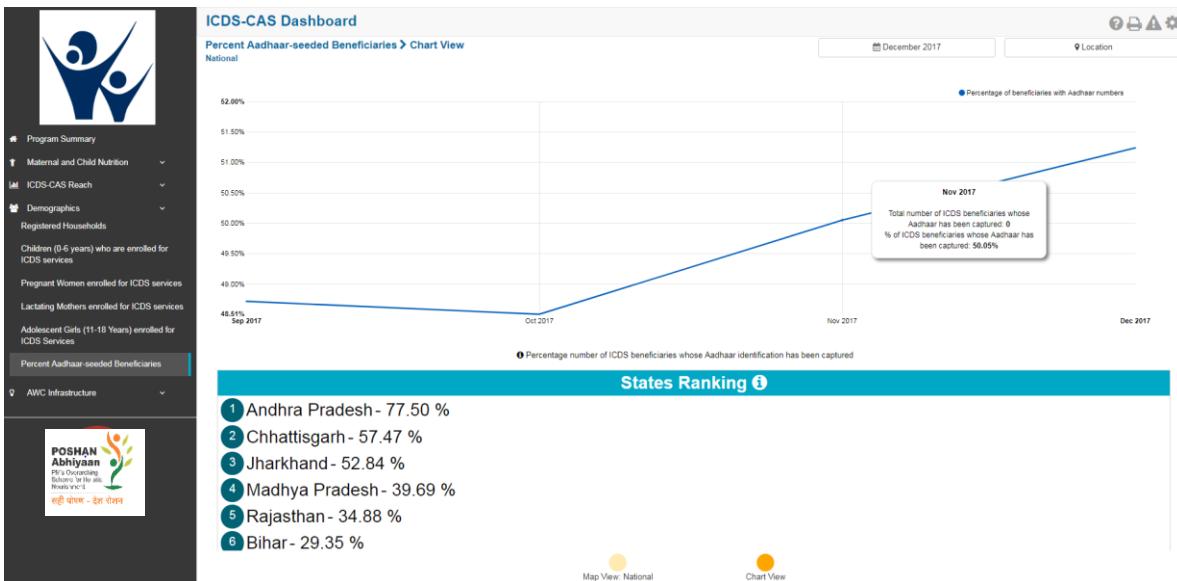

Figure 83: Percent Aadhaar-seeded Beneficiaries: Chart View – National

## 9 AWC Infrastructure

AWC Infrastructure includes indicators that provide information about infrastructure facilities available at the Anganwadi Centres (AWCs). The section has the following list of indicators:

1. AWCs with Clean Drinking Water
2. AWCs with Functional Toilet
3. AWCs with Medicine Kit
4. AWCs with Weighing Scale: Infants
5. AWCs with Weighing Scale: Mother and Child
6. AWCs reported Stadiometer
7. AWCs reported Infantometer

On the left hand navigation panel, click on 'AWC Infrastructure' to see a detailed list of indicators. Select the indicator to see a detailed 'Map View' for the selected indicator.

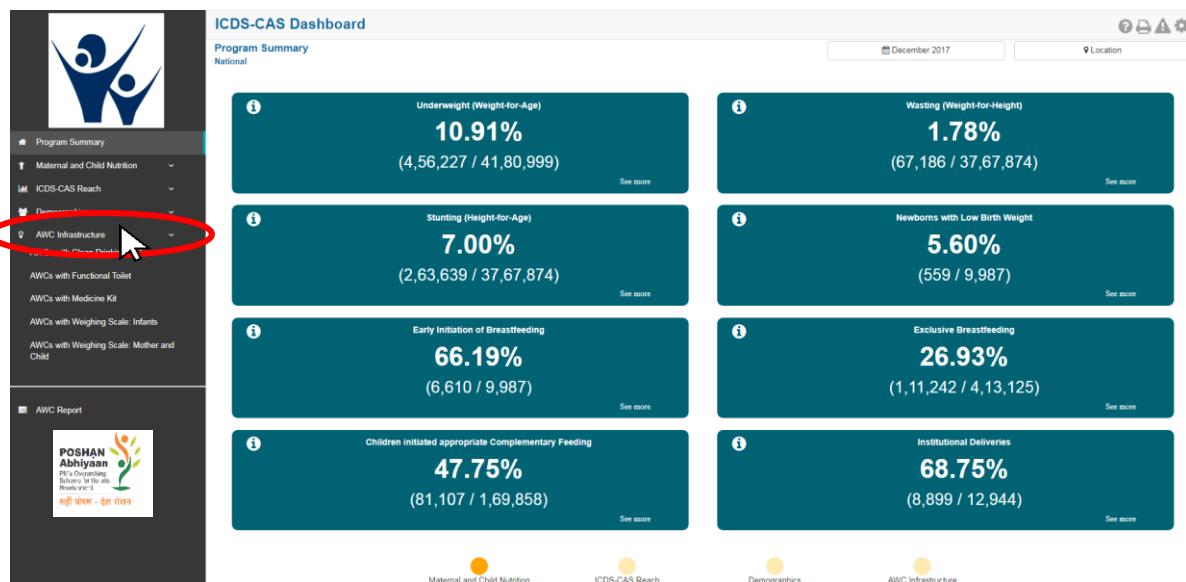

Figure 84: Link to view AWC Infrastructure

### 9.1 AWCs Reported Clean Drinking Water

The first indicator under 'AWC Infrastructure' is 'AWCs with Clean Drinking Water' which is explained below.

**Definition of indicator** – Number of AWCs with a source of clean drinking water

Click on the indicator 'AWCs with Clean Drinking Water' from the left hand navigation panel under 'AWC Infrastructure' to enter 'Map View'.

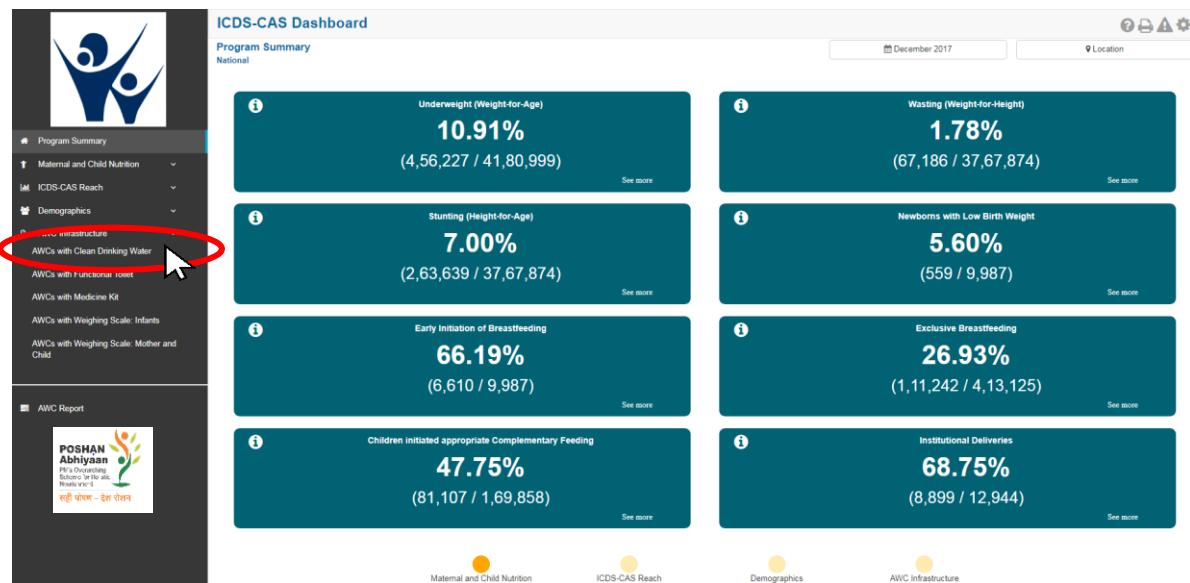

Figure 85: Link to view AWCs with Clean Drinking Water

### 9.1.1 AWCs with Clean Drinking Water: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

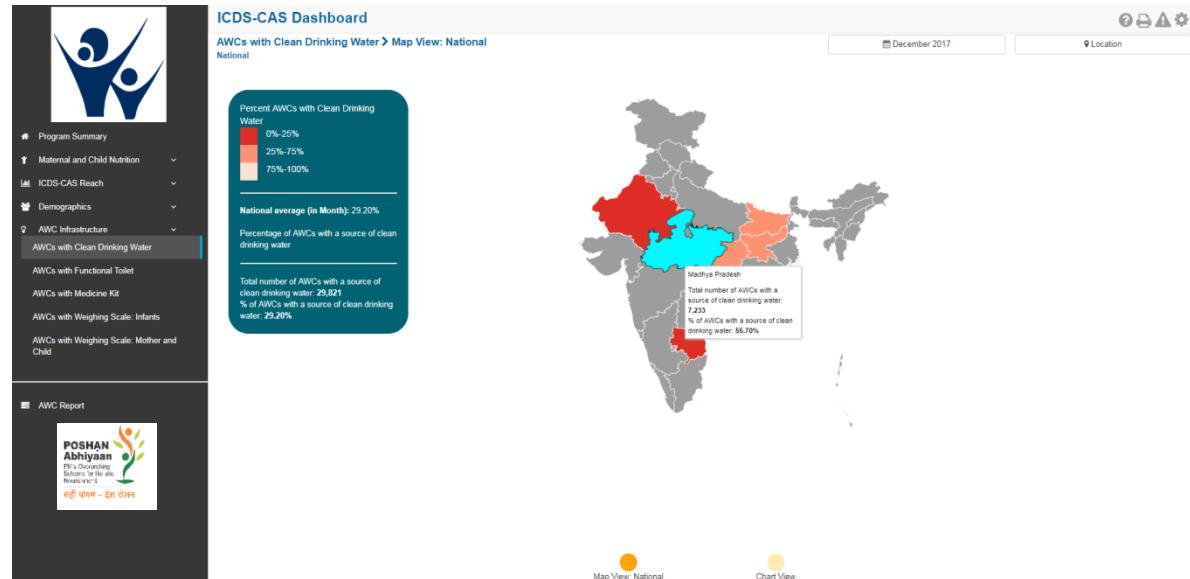

Figure 86: AWCs Reported Clean Drinking Water: Map View – National

### 9.1.2 AWCs Reported Clean Drinking Water: Map View – State

If a State level user (SPMU) logs into the dashboard, the 'Map View' will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

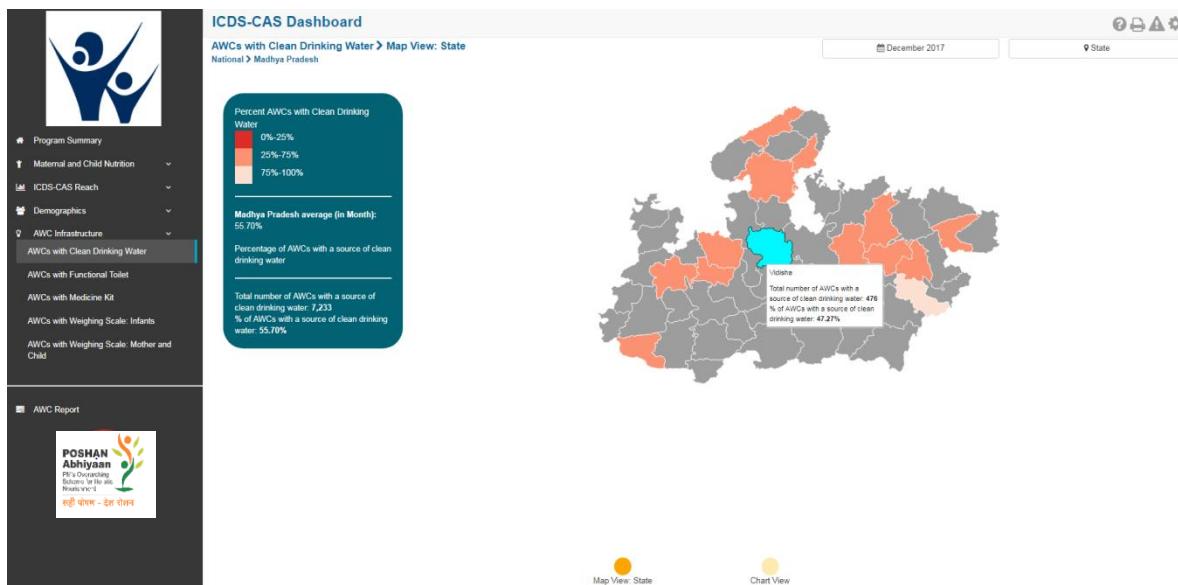

Figure 87: AWCs Reported Clean Drinking Water: Map View – State

### 9.1.3 AWCs Reported Clean Drinking Water: Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the 'Map View' will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

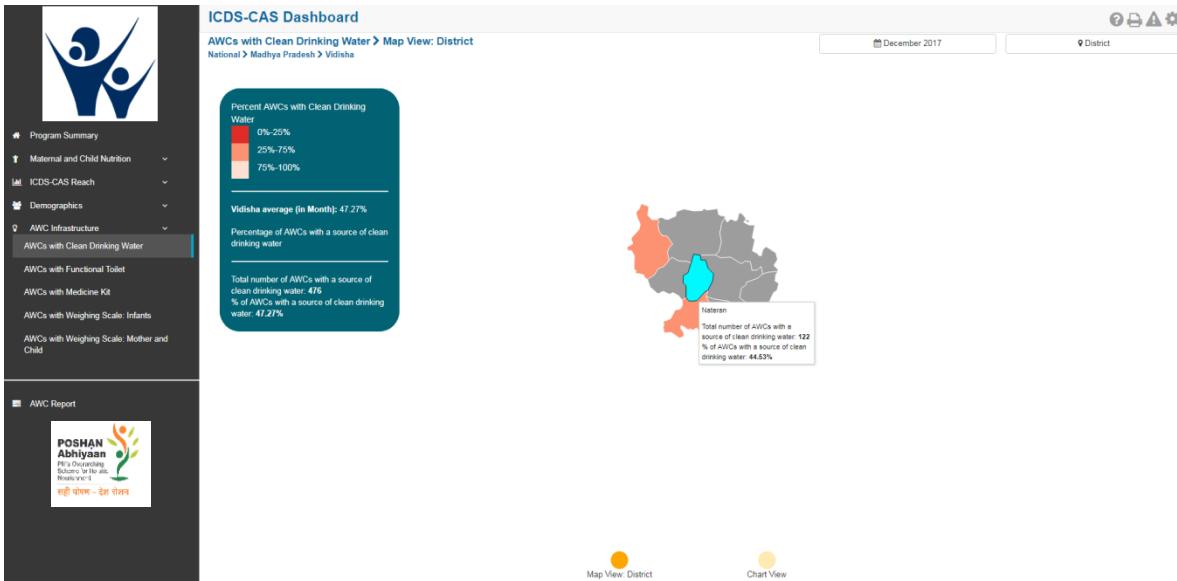

Figure 88: AWCs Reported Clean Drinking Water: Map View – District

#### 9.1.4 AWCs Reported Clean Drinking Water: Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the 'Map View' will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

Figure 89: AWCs Reported Clean Drinking Water: Block View

#### 9.1.5 AWCs Reported Clean Drinking Water: Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

Figure 90: AWCs Reported Clean Drinking Water: Sector View

### 9.1.6 AWCs Reported Clean Drinking Water: Chart View – National

On the Map view page, click on the ‘Chart View’ bubble navigation to see a chart view of the indicator.

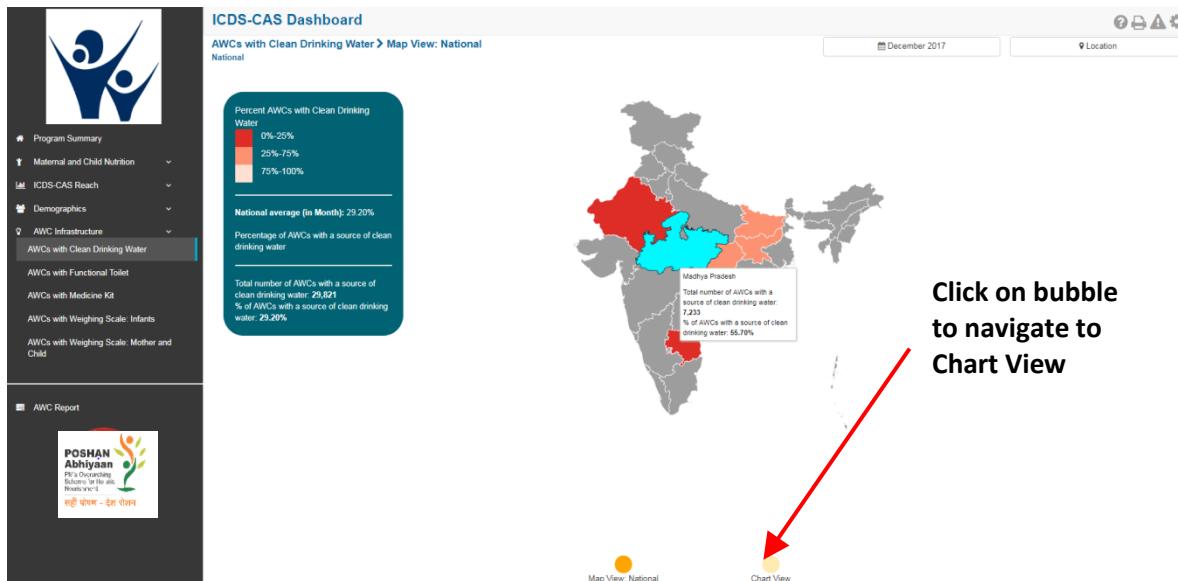

Figure 91: Navigating to Chart View

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from 'Map View' to 'Chart View' at any level by clicking on the 'Chart View' bubble navigation on the 'Map View' page.

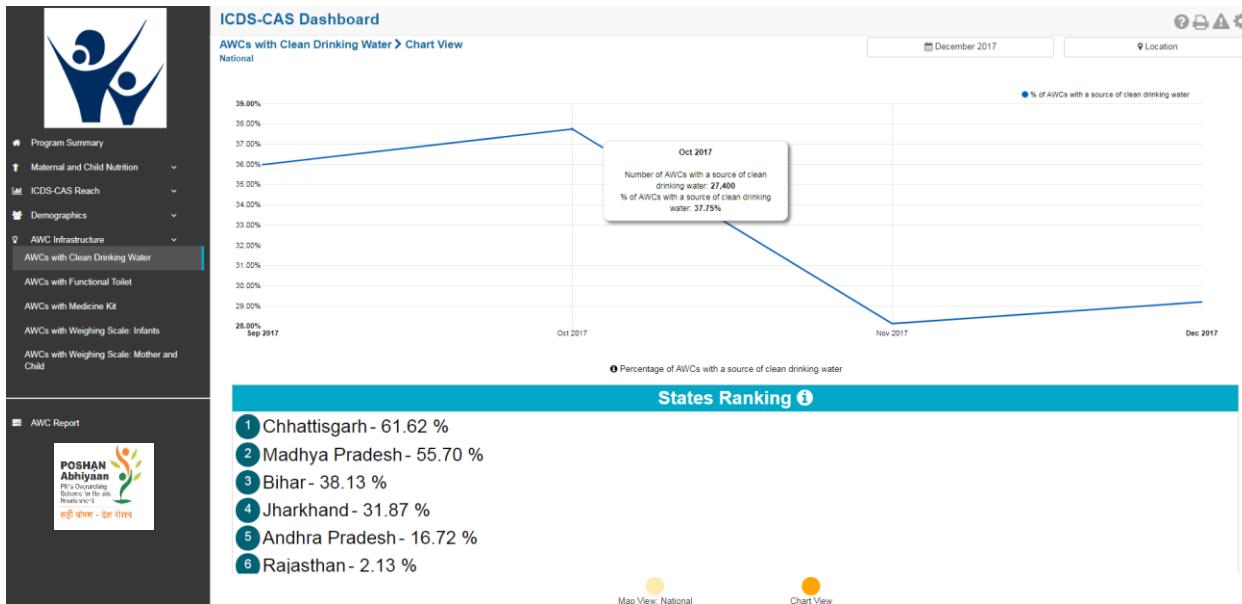

Figure 92: AWCs Reported Clean Drinking Water: Chart View – National

### 9.1.7 AWCs Reported Clean Drinking Water: Chart View – State

If a State level user (SPMU) logs into the dashboard, the 'Chart View' will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from 'Map View' to 'Chart View' at any level by clicking on the 'Chart View' bubble navigation on the 'Map View' page.

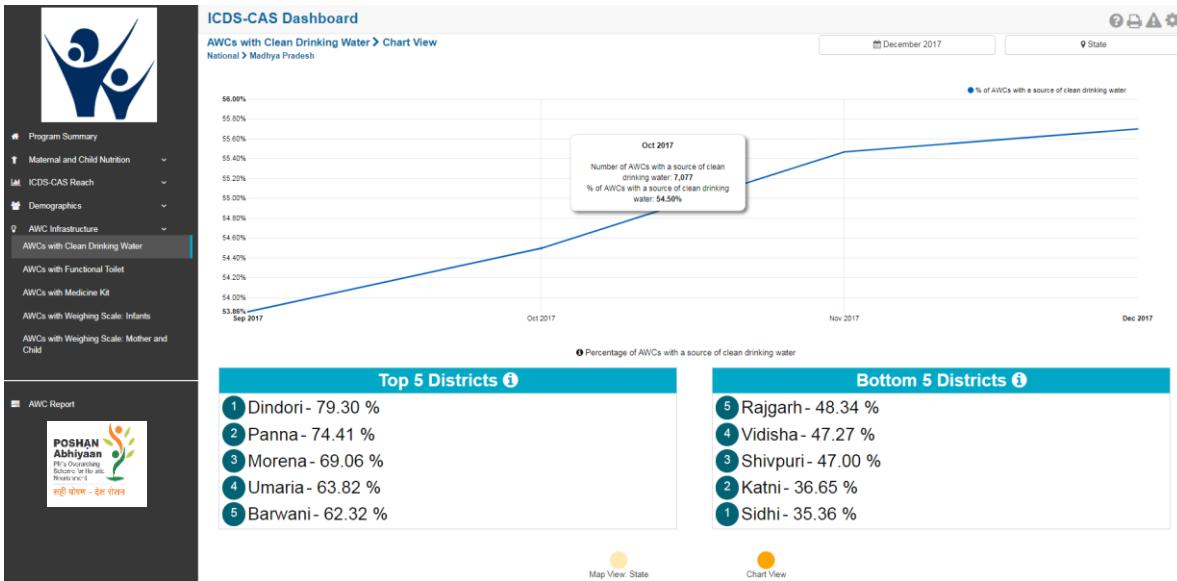

Figure 93: AWCs Reported Clean Drinking Water: Chart View – State

### 9.1.8 AWCs Reported Clean Drinking Water: Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

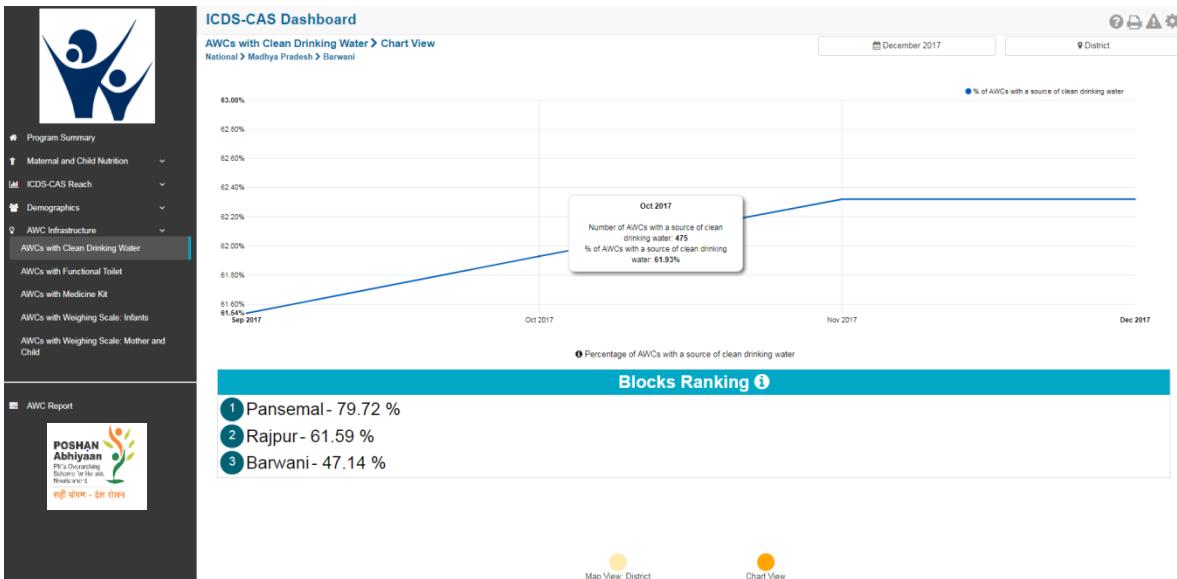

Figure 94: AWCs Reported Clean Drinking Water: Chart View – District

### 9.1.9 AWCs Reported Clean Drinking Water: Chart View – Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

Figure 95: AWCs Reported Clean Drinking Water: Chart View – Block

### 9.1.10 AWCs Reported Clean Drinking Water: Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

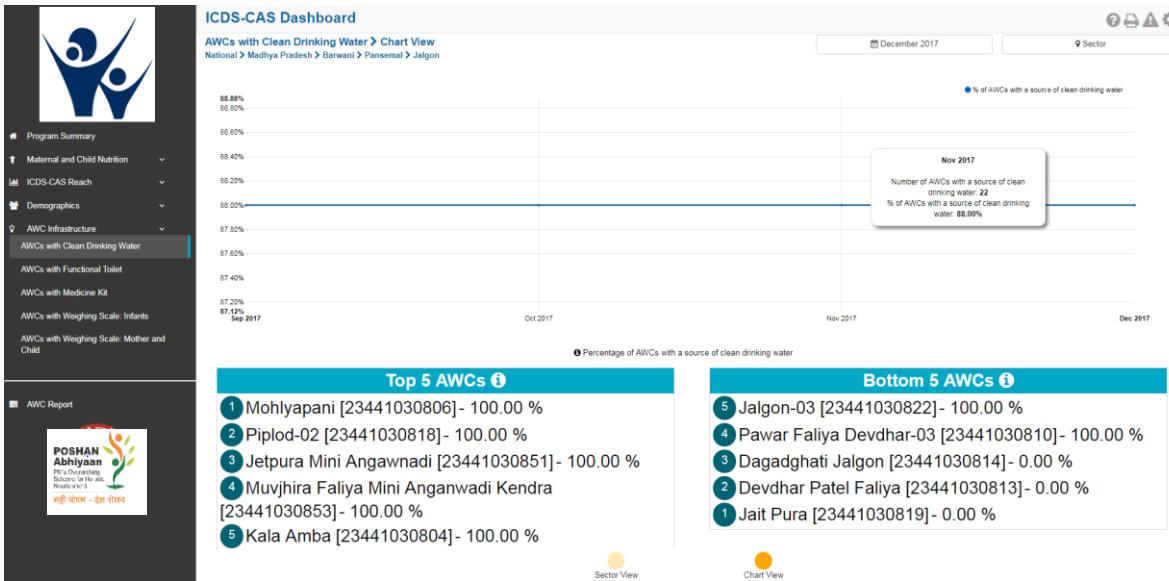

Figure 96: AWCs Reported Clean Drinking Water: Chart View – Sector

## 9.2 AWCs Reported Functional Toilet

The second indicator under ‘AWC Infrastructure’ is ‘AWCs Reported Functional Toilet’ which is explained below.

**Definition of indicator** – Number of AWCs Reported a functional toilet

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

### 9.2.1 AWCs Reported Functional Toilet: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

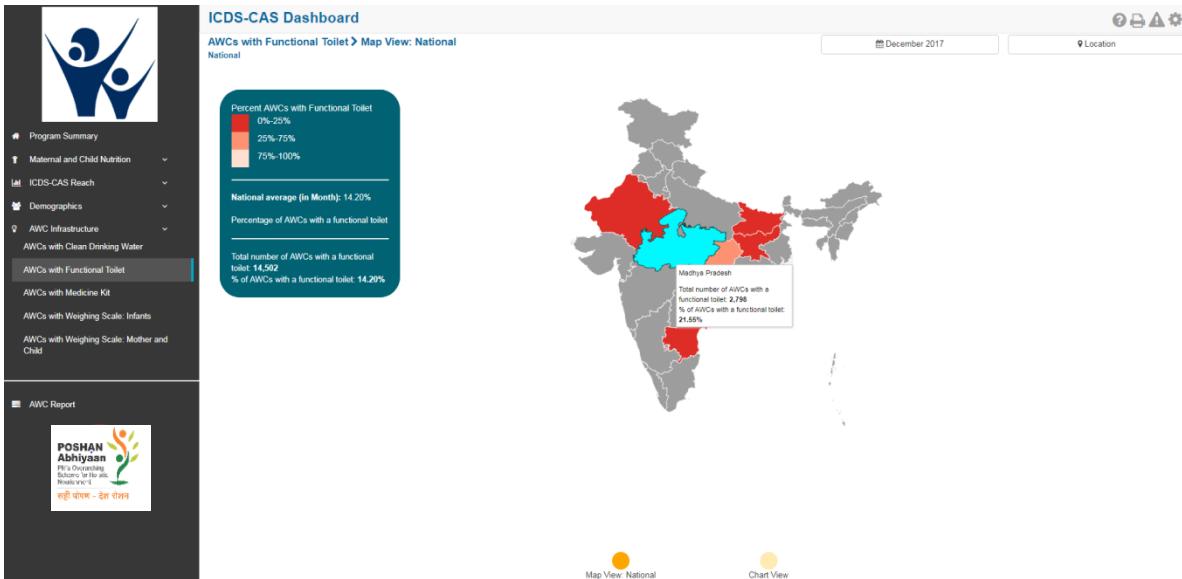

Figure 97: AWCs Reported Functional Toilet: Map View – National

## 9.2.2 AWCs Reported Functional Toilet: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

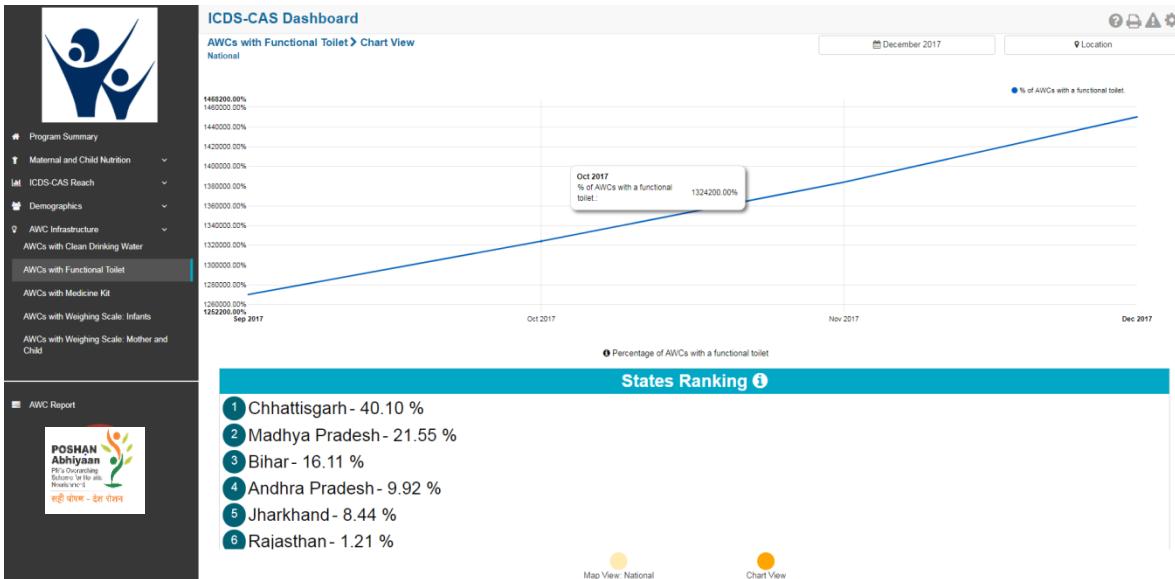

Figure 98: AWCs Reported Functional Toilet: Chart View – National

### 9.3 AWCs Reported Medicine Kit

The third indicator under ‘AWC Infrastructure’ is ‘AWCs Reported Medicine Kit’ which is explained below.

**Definition of indicator** – Number of AWCs Reported a medicine kit

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

#### 9.3.1 AWCs Reported Medicine Kit: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

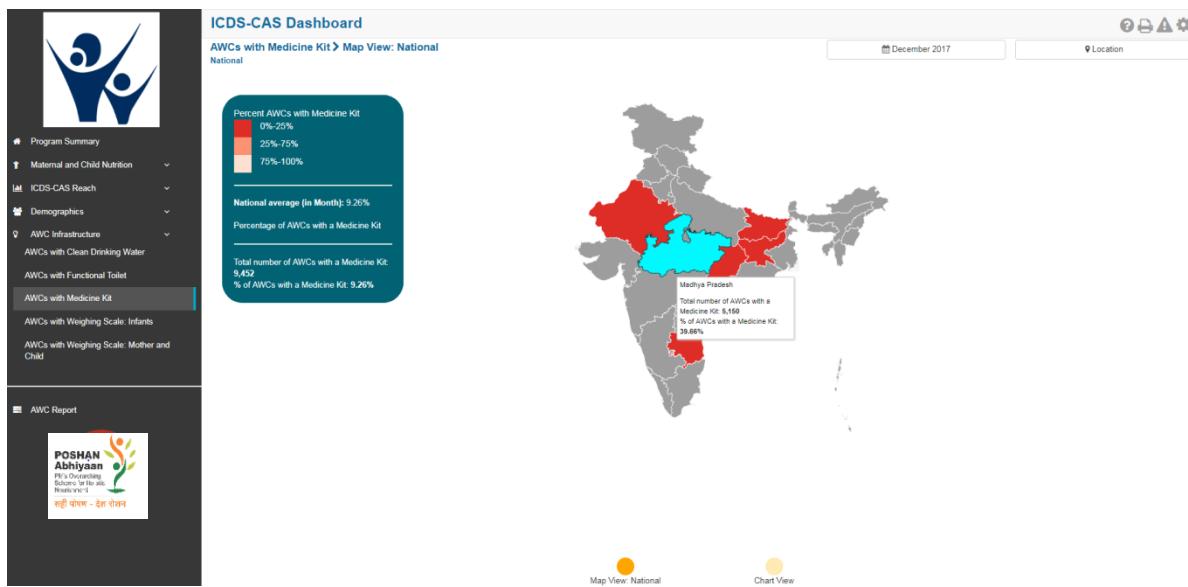

Figure 99: AWCs Reported Medicine Kit: Map View – National

#### 9.3.2 AWCs Reported Medicine Kit: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

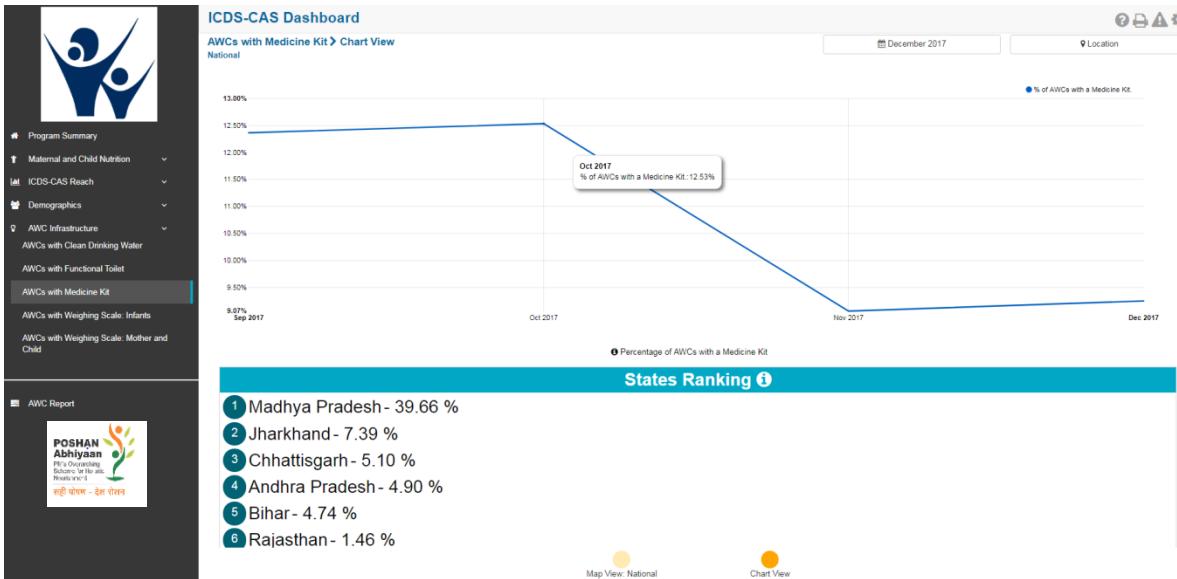

Figure 100: AWCs Reported Medicine Kit: Chart View – National

## 9.4 AWCs Reported Weighing Scale: Infants

The fourth indicator under ‘AWC Infrastructure’ is ‘AWCs Reported Weighing Scale: Infants’ which is explained below.

**Definition of indicator** – Number of AWCs Reported weighing scale for infants

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

### 9.4.1 AWCs Reported Weighing Scale: Infants: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

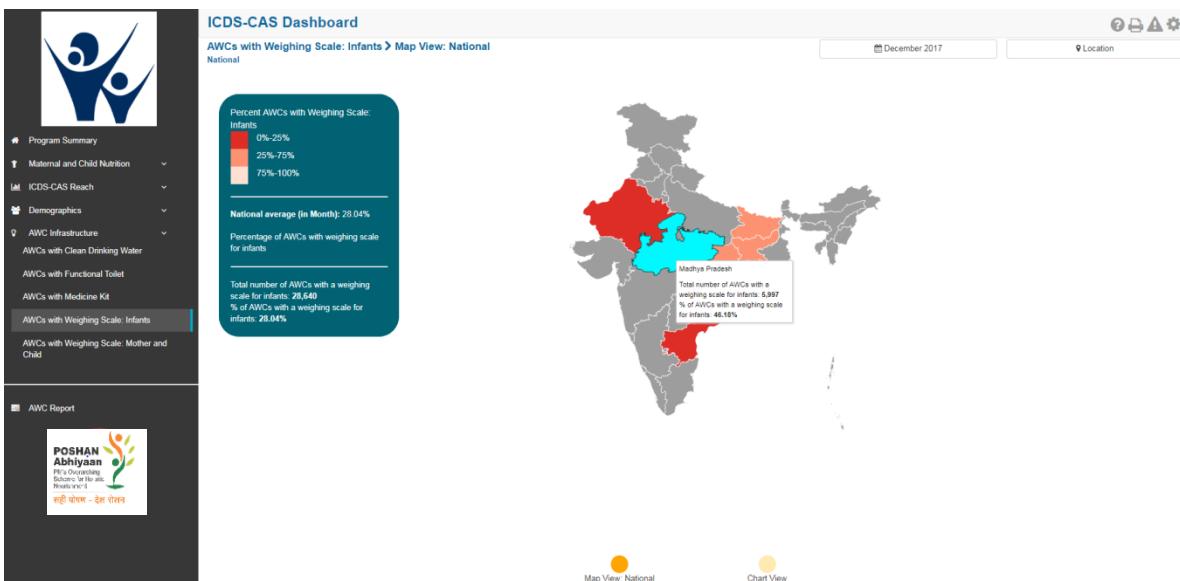

Figure 101: AWCs Reported Weighing Scale: Infants: Map View – National

#### 9.4.2 AWCs Reported Weighing Scale: Infants: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

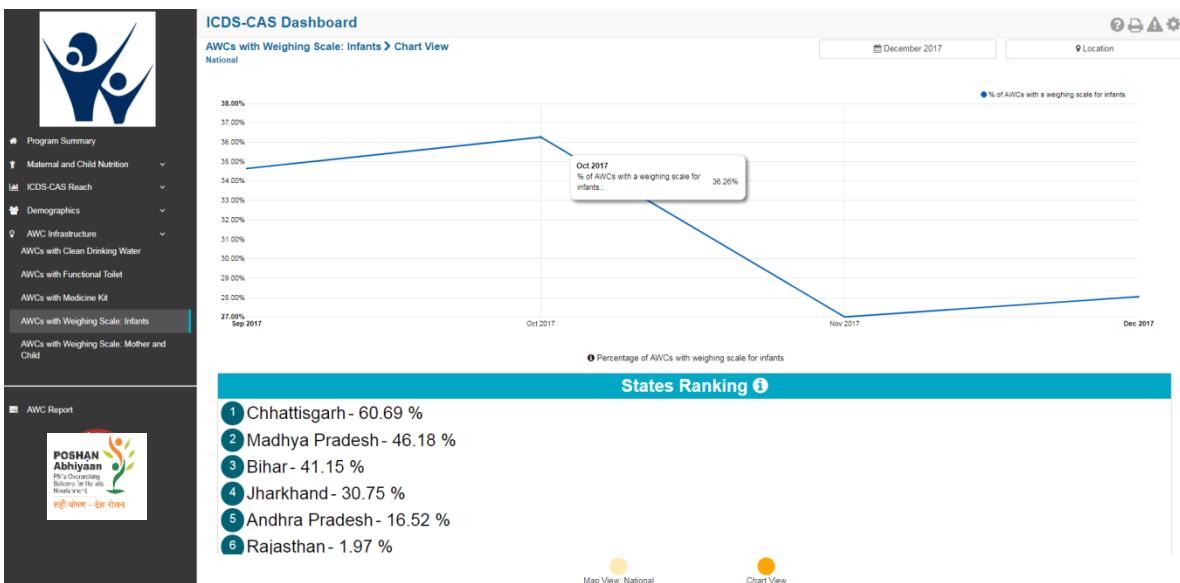

Figure 102: AWCs Reported Weighing Scale: Infants: Chart View – National

## 9.5 AWCs Reported Weighing Scale: Mother and Child

The last indicator under 'AWC Infrastructure' is 'AWCs Reported Weighing Scale: Mother and Child' which is explained below.

**Definition of indicator** – Number of AWCs Reported weighing scale for mother and child

The navigation workflow for moving to 'Map View' or 'Chart View' is similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

### 9.5.1 AWCs Reported Weighing Scale: Mother and Child: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

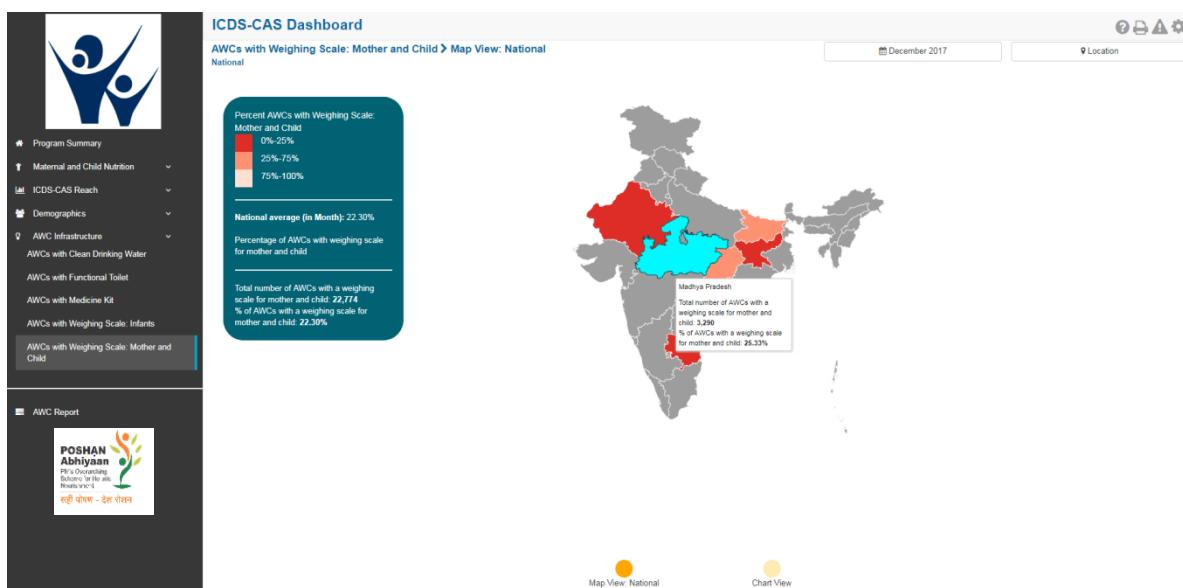

Figure 103: AWCs Reported Weighing Scale: Mother and Child: Map View – National

### 9.5.2 AWCs Reported Weighing Scale: Mother and Child: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar as explained for the first indicator – AWCs Reported Clean Drinking Water in Section 9.1.

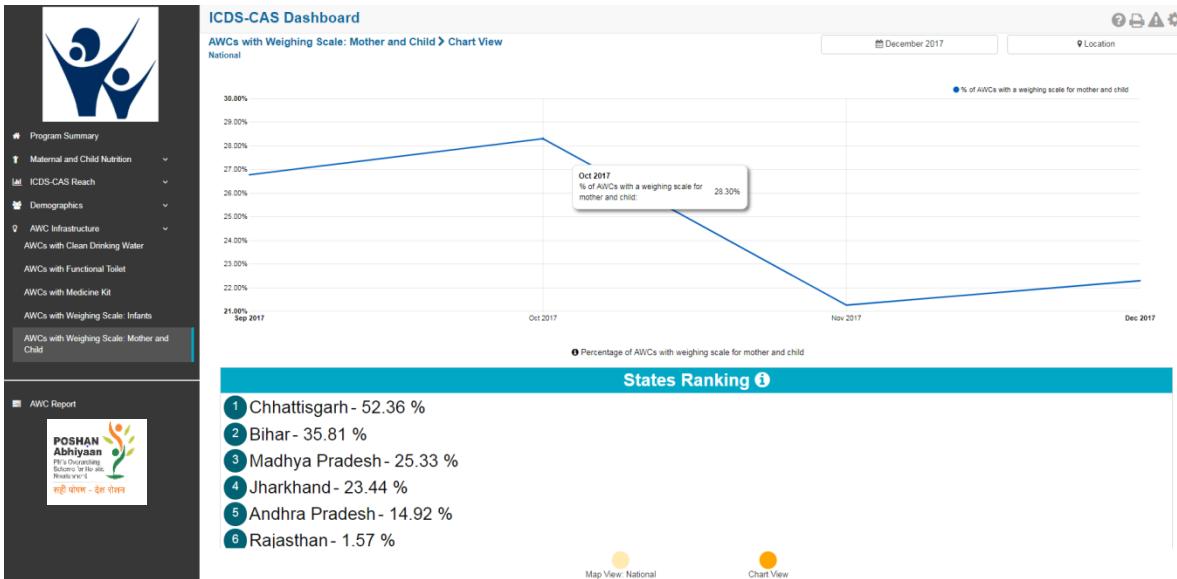

Figure 104: AWCs Reported Weighing Scale: Mother and Child: Chart View – National

## 2. 9.6 AWCs Reported Stadiometer

The sixth indicator under ‘AWC Infrastructure’ is ‘AWCs Reported Stadiometer’.

**Definition** – Of the AWCs that have submitted an Infrastructure Details form, the percentage of AWCs that reported having a stadiometer.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs Reported Clean Drinking Water.

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ shows a National view as shown in the below snapshot. Rest of the views (State / District / Block / Sector) are similar as explained for the first indicator – AWCs Reported Clean Drinking Water.

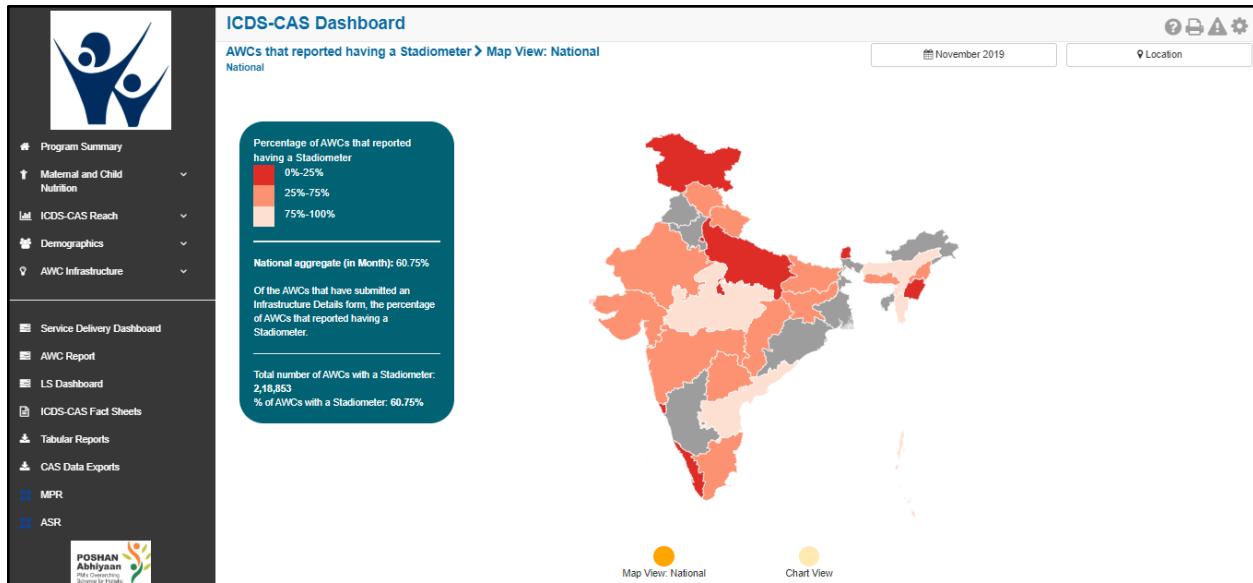

Figure 105: AWCs Reported Stadiometer - National Map View

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' shows a National view as shown in the below snapshot. Rest of the views (State / District / Block / Sector) are similar as explained for the first indicator – AWCs Reported Clean Drinking Water.

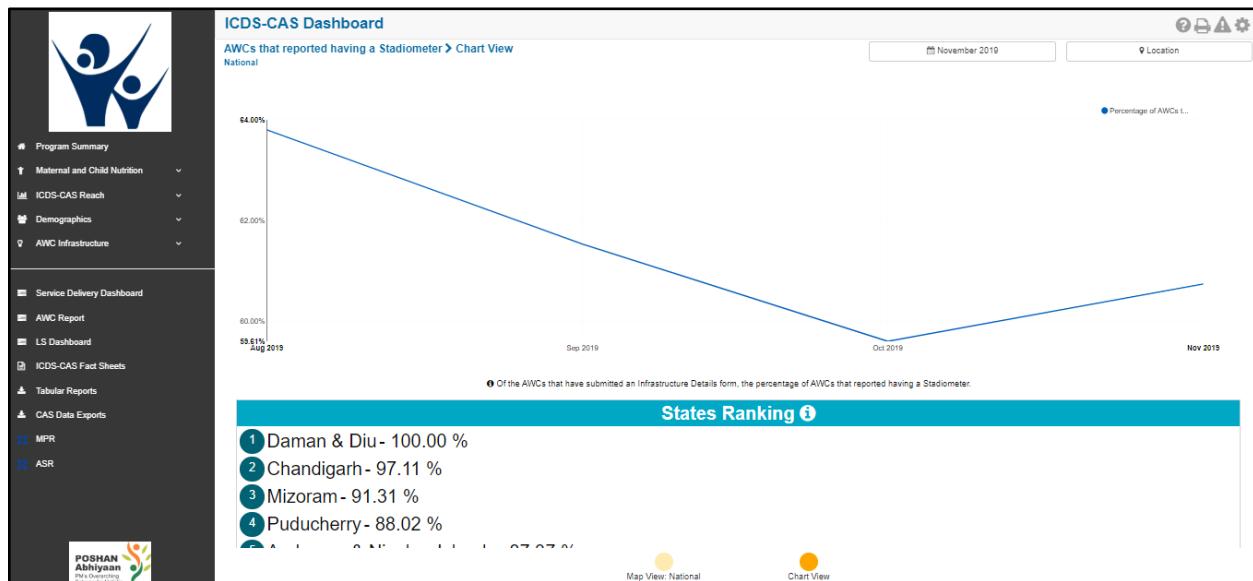

Figure 106: AWCs Reported Stadiometer - National Chart View

### 3. 9.7 AWCs Reported Infantometer

The last indicator under 'AWC Infrastructure' is 'AWCs Reported Infantometer'.

**Definition** – Of the AWCs that have submitted an Infrastructure Details form, the percentage of AWCs that reported having an infantometer.

The navigation workflow for moving to 'Map View' or 'Chart View' is similar to as explained for the first indicator – AWCs Reported Clean Drinking Water.

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' shows a National view as shown in the below snapshot. Rest of the views (State / District / Block / Sector) are similar as explained for the first indicator – AWCs Reported Clean Drinking Water.

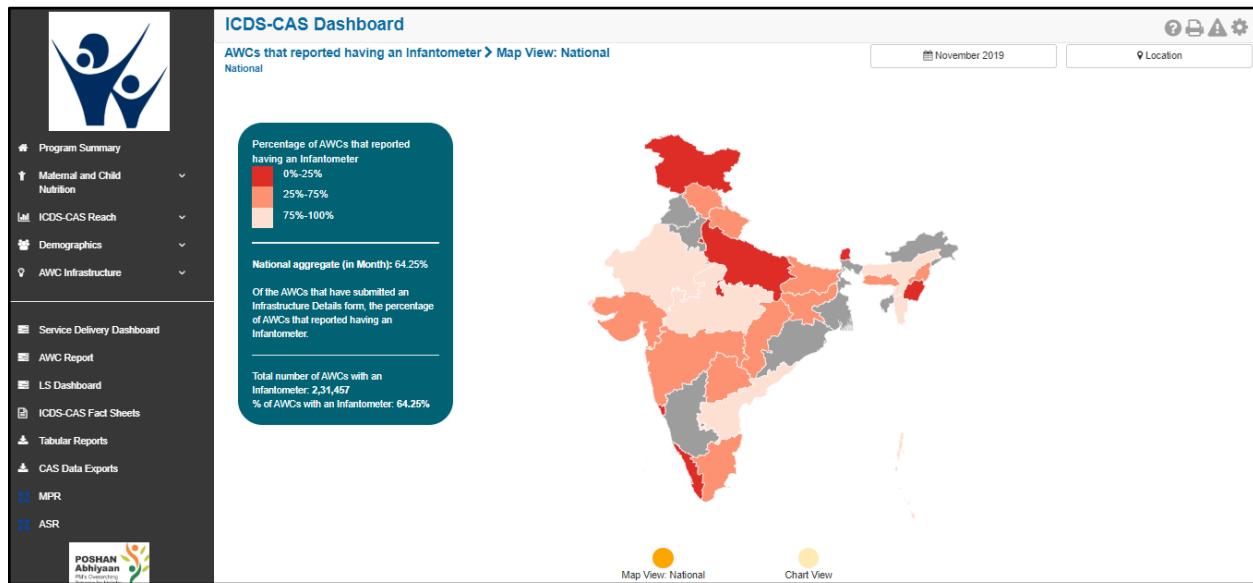

Figure 107: AWCs Reported Infantometer - National Map View

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Chart View' shows a National view as shown in the below snapshot. Rest of the views (State / District / Block / Sector) are similar as explained for the first indicator – AWCs Reported Clean Drinking Water.

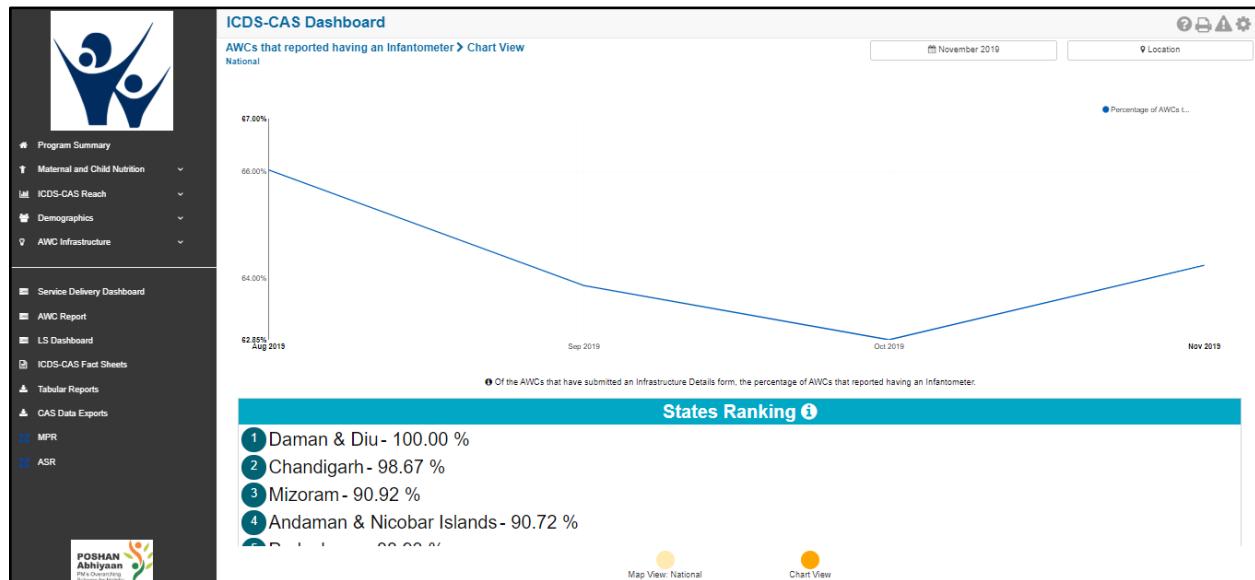

Figure 108: AWCs Reported Infantometer - National Chart View

## 2. 10. Service Delivery Dashboard

Service Delivery Dashboard provides a snapshot view of the services delivered by the Anganwadi workers to Pregnant Women, Lactating Women and children between 0-6 years of age. Service Delivery indicators are available on the left-hand panel of the dashboard. It has following three filter options available

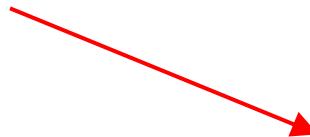

1. Location
2. Month, Year

We can toggle between following two beneficiary groups using the bubbles at the end of the dashboard

1. Pregnant Women, Lactating Women and children between 0-3 years (0-1095 days)
2. Children between 3-6 years (1096-2190 days)

**Time Filter:** User may select any month to review the data for that period

**Location Filter:** User may select State/District/Block/ Sector and review the data

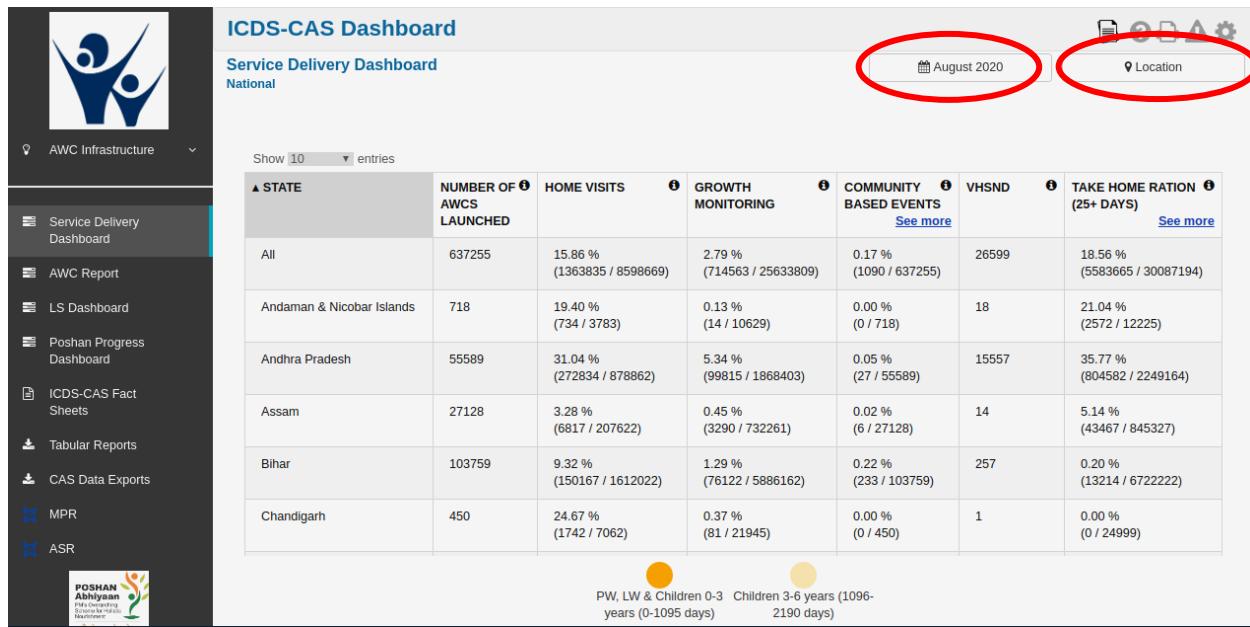

Figure 109 Service Delivery Dashboard Filters

Based on the values of the beneficiary & locations filters selected, following indicators are available in the service delivery dashboard

Beneficiary Group	See More	Available Indicators
PW, LW & Children 0-3 years (0-1095 days)	National, State, District and Block level	Number of AWC, Home Visits, Growth Monitoring, Community Based Events, VHSND, Take Home Ration
	Sector Level	Number of AWC, Home Visits, Growth Monitoring, Community Based Events, VHSND, Take Home Ration
Children 3-6 years (1096-2190 days)	National, State, District and Block level	Supplementary Nutrition, Pre-School Education, Growth Monitoring
	Sector Level	Name of AWC, Supplementary Nutrition, Pre-School education, Growth Monitoring

Users can access more details by clicking on the see more option under the indicator headings. The following additional indicators are available on the dashboard:

Beneficiary Group	Page	Available Indicators
PW, LW & Children 0-3 years (0-1095 days)	Community Based Events (CBE)	Number of CBEs conducted, Third Fourth Months of Pregnancy, Annaprasan Diwas, Suposhan Diwas, Celebrating coming-of-age, Public Health Message

	Take Home Ration(25+ Days)	Not Distributed, Distributed For (1-7) Days, Distributed For (8-14) Days, Distributed For (15-20) Days, Distributed For (21-24) Days, Distributed For at least 25 days
Children 3-6 years (1096-2190 days)	Supplementary Nutrition (25+ Days)	Not Provided, Provided For (1-7) Days, Provided For (8-14) Days, Provided For (15-20) Days, Provided For (21-24) Days, Provided For at least 25 days
	Pre-School Education (25+ Days)	Not Attended, Attended For (1-7) Days, Attended For (8-14) Days, Attended For (15-20) Days, Attended For (21-24) Days, Attended For at least 25 days

### 3. 11. AWC Report

'AWC Report' provides detailed information on various indicators about an individual Anganwadi Centre (AWC). The 'AWC Report' section covers the following indicators for each AWC:

1. Pre-School Education
2. Maternal and Child Nutrition
3. Demographics
4. AWC Infrastructure
5. Child Beneficiaries List

Note: The user will be automatically directed to the 'AWC Report' section when he/she selects an AWC location using the location filter at the top right corner while viewing other reports. The user must choose an individual AWC using the location filter to view an AWC Report.

From the left hand navigation panel, click on 'AWC Report' to view information for an individual AWC.

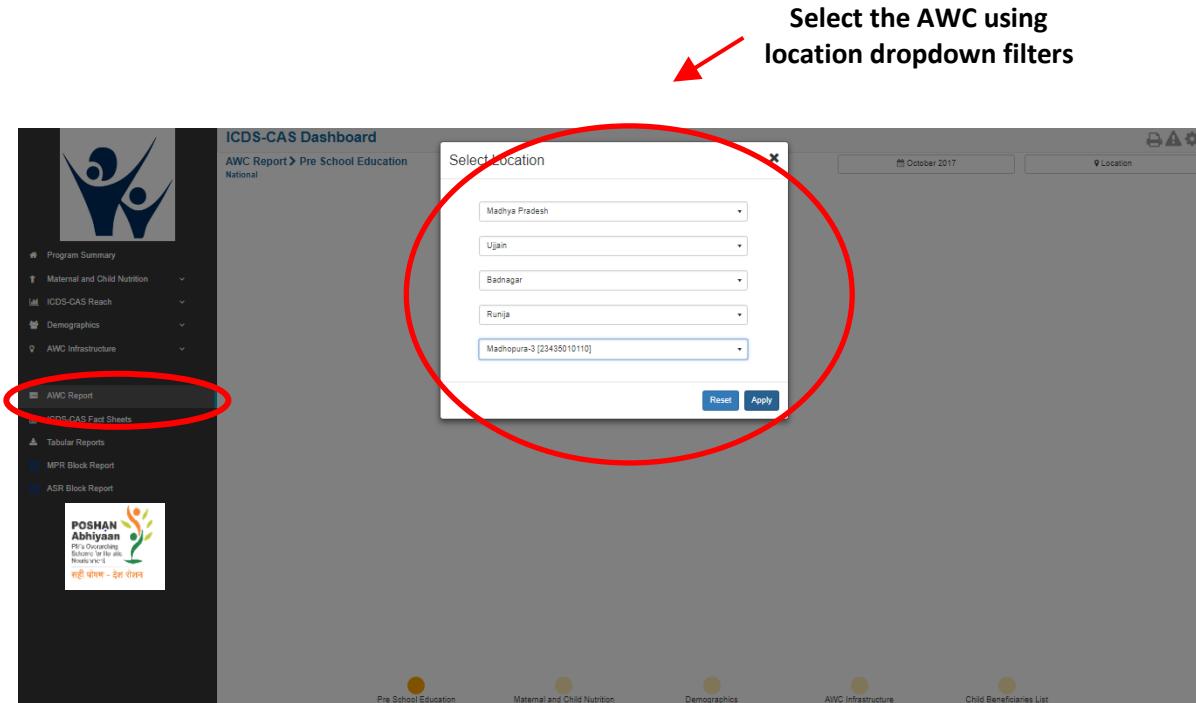

Figure 110: AWC Report

Select the 'AWC' for which you want to view the information and click on 'Apply'. The landing page of the 'AWC Report' will be the 'Pre-School Education' page.

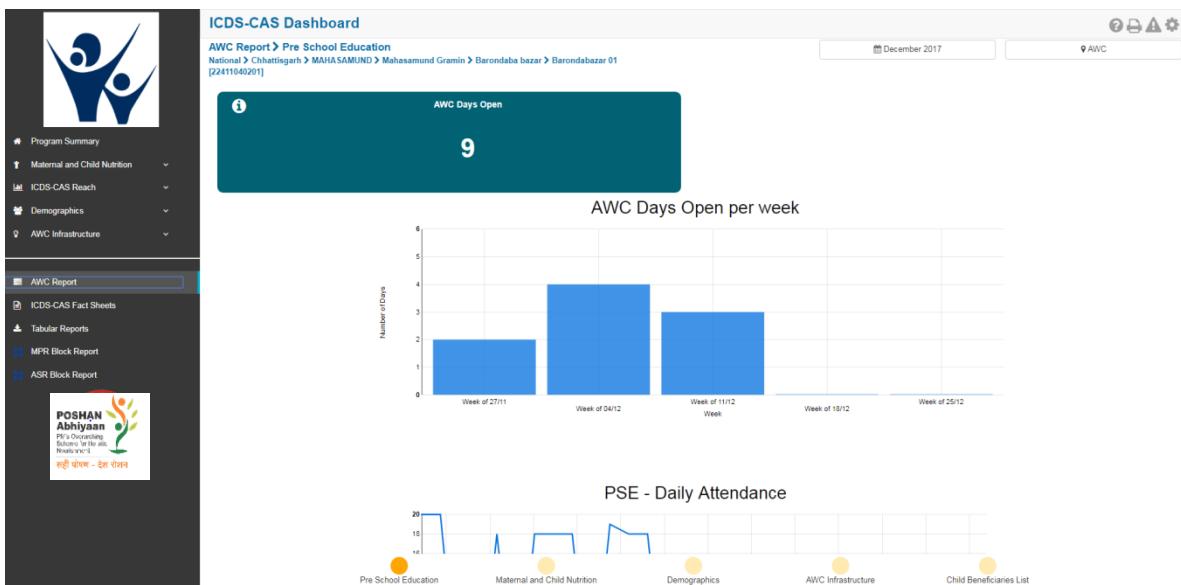

Figure 111: AWC Report: Landing Page

## 9.6 Pre-School Education

The ‘Pre-School Education’ section of the AWC Report provides information about the daily functioning of the AWC.

On the PSE page, the user can view the following information:

**AWC Days Open** – A KPI card displays the number of days the AWC was opened in the selected month. The AWC is expected to be opened 6 days a week (not on Sundays and public holidays).

Figure 112: AWC Days Open

**AWC Days Open per Week** – This is a graphical representation showing the number of days the AWC was opened in each week of the selected month.

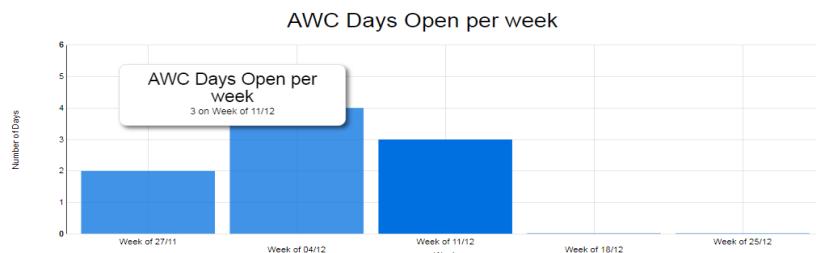

Figure 113: AWC Days Open per week

**PSE – Daily Attendance** – This is a graphical representation showing the number of children who attended the pre-school education on each day of the selected month.

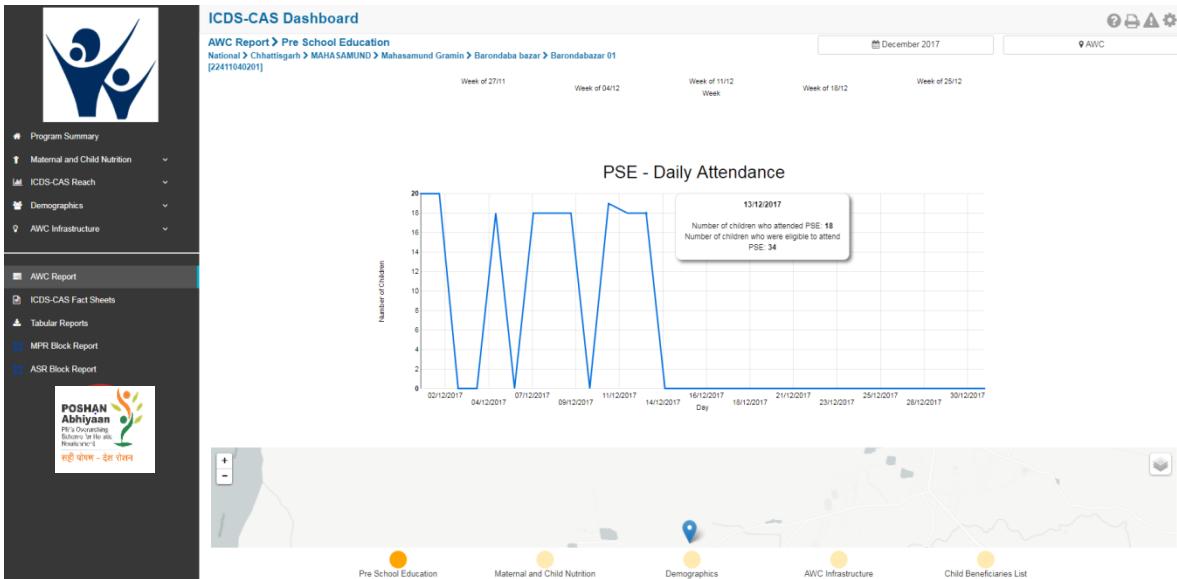

Figure 114: PSE - Daily Attendance

**GPS locations** – This section displays the GPS locations during ‘Daily Feeding’ form submissions in the AWW application by the AWW.

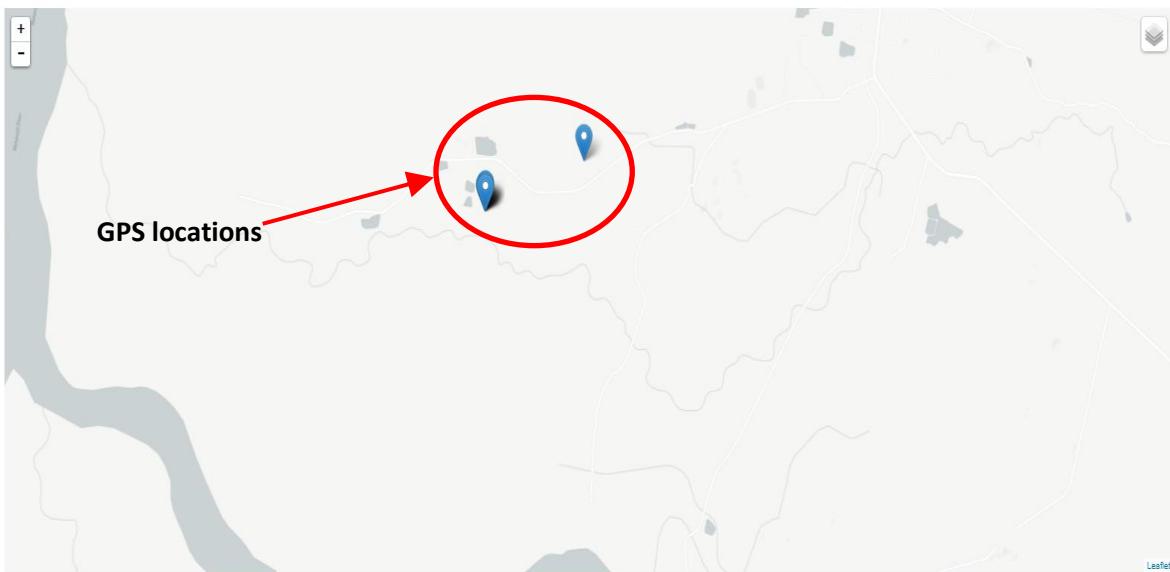

Figure 115: GPS Locations

**Photographs from Daily Feeding form** – This section displays all the photographs captured by the AWW while filling out the daily feeding form in the AWW application.

## PSE Photo Submissions

Figure 116: PSE Photo Submissions

Click on the bubble navigation to move to the next indicator i.e. ‘Maternal and Child Nutrition’.

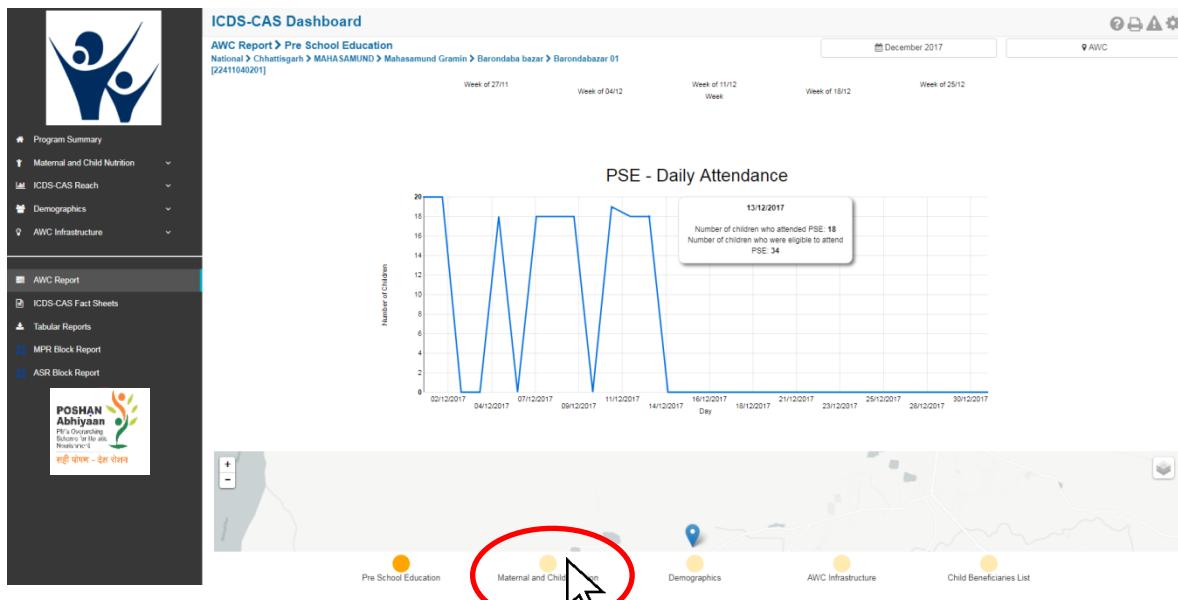

Figure 117: Navigating to Maternal and Child Nutrition

### 9.7 Maternal and Child Nutrition

The ‘Maternal and Child Nutrition’ section of the AWC Report provides information about indicators on mother and child health who are beneficiaries for the selected AWC. This section displays KPI cards for the following indicators:

1. Underweight (Weight-for-Age)
2. Wasting (Weight-for-Height)
3. Stunting (Height-for-Age)
4. Weighing Efficiency
5. Newborns with Low Birth Weight
6. Early Initiation of Breastfeeding

7. Exclusive Breastfeeding
8. Children initiated appropriate Complementary Feeding
9. Immunization Coverage (at age 1 year)
10. Institutional Deliveries

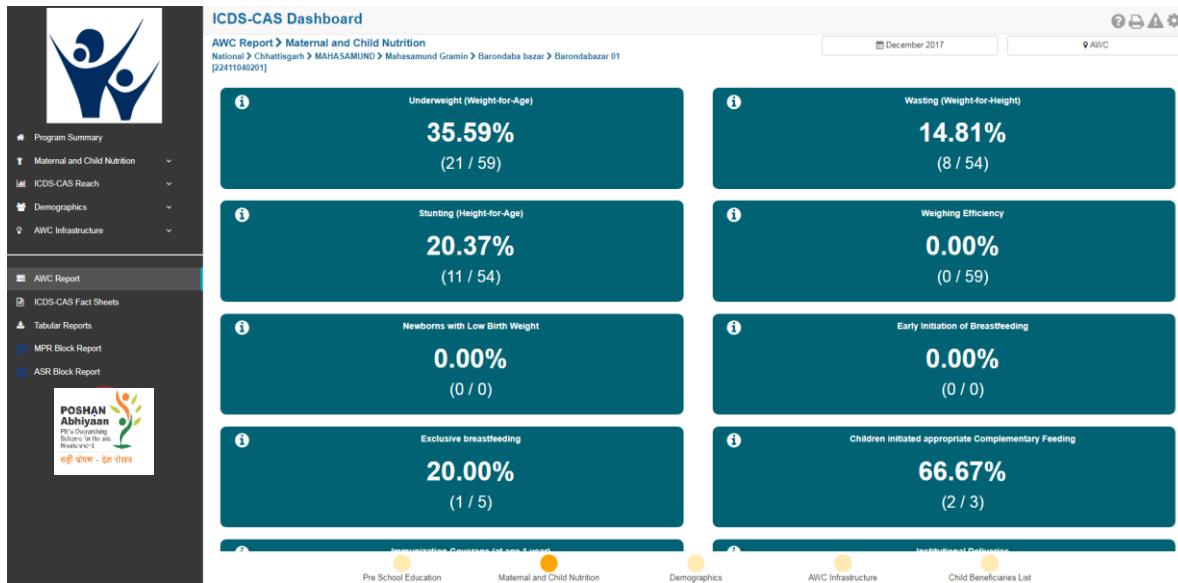

Figure 118: Maternal and Child Nutrition

## 9.8 Demographics

The 'Demographics' section of the AWC Report provides information about the number of beneficiaries covered by the AWC under ICDS-CAS across various categories. This section displays KPI cards for the following indicators:

1. Registered Households
2. Percent Aadhaar-seeded Beneficiaries
3. Percent children (0-6 years) who are enrolled for ICDS services
4. Percent pregnant women enrolled for ICDS services
5. Percent lactating women enrolled for ICDS services
6. Percent adolescent girls (11-14 years) enrolled for ICDS services

This section also displays a graphical representation for the number of children registered in the AWC across five age groups: 0-1 month, 1-6 months, 6-12 months, 1-3 years and 3-6 years.

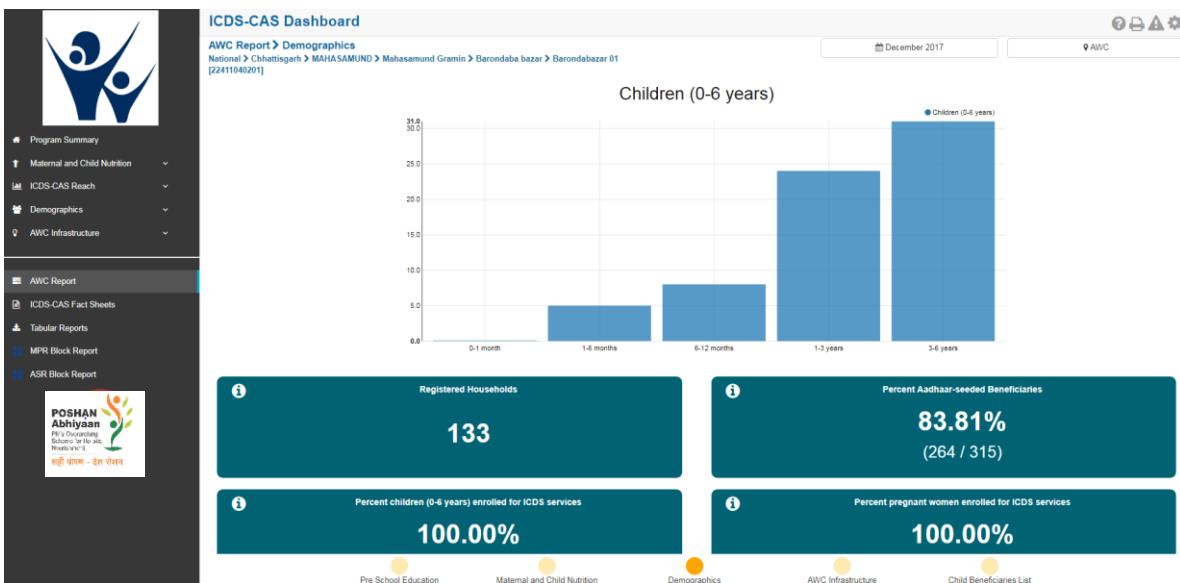

Figure 115: Demographics

## 9.9 AWC Infrastructure

The ‘AWC Infrastructure’ section of the AWC Report provides information about availability of infrastructure facilities at the selected AWC. This section displays KPI cards for the following indicators:

1. Clean Drinking Water
2. Functional Toilet
3. Weighing Scale: Infants
4. Weighing Scale: Mother and Child
5. Medicine Kit

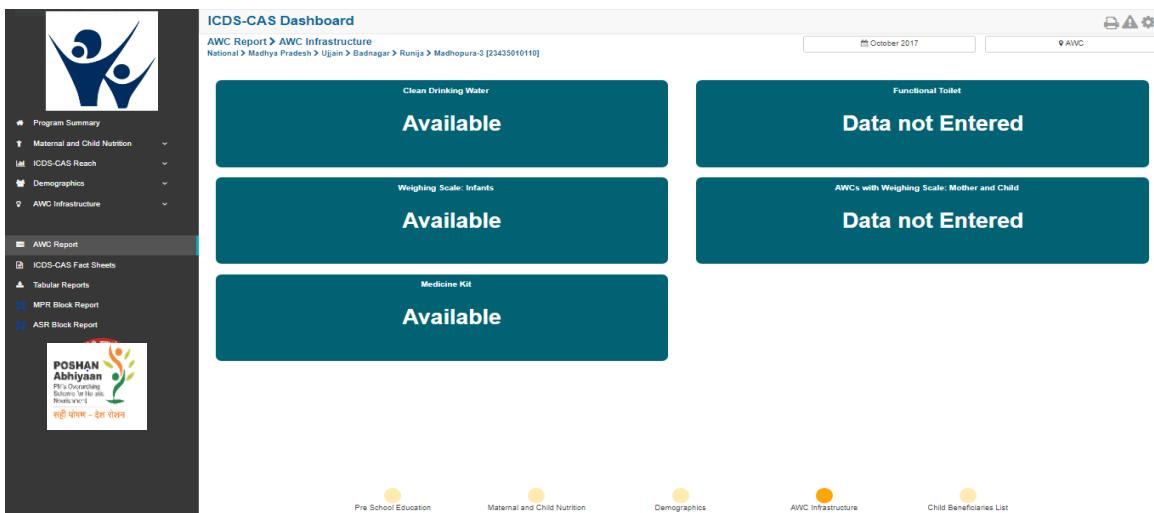

Figure 120: AWC Infrastructure

## 9.10 Child Beneficiaries List

The 'Child Beneficiaries List' section of the AWC Report provides a list of all the children (0-6 years) registered at the AWC. Following information is provided about each child registered at the centre:

1. Date of Birth
2. Current Age
3. 1 Year Immunizations Complete (Yes / No)
4. Weight-for-Age status
5. Weight-for-Height status
6. Height-for-Age status
7. PSE Attendance (in days)
8. AWW Phone Number
9. Mother Phone Number
10. Status

Note: If an AWW has not entered the relevant information for the specific month, 'Data Not Entered' for the respective data.

**The user can filter the list for any age group using the additional filter**

The screenshot shows the ICDS-CAS Dashboard with the 'Child Beneficiaries List' page selected. The dashboard has a left sidebar with various report categories like Program Summary, Maternal and Child Nutrition, Demographics, AWC Infrastructure, AWC Report, ICDS-CAS Fact Sheets, Tabular Reports, MPR Block Report, and ASR Report. At the bottom left is the POSHAN Abhiyaan logo. The main area displays a table of child beneficiaries with columns for Name, Date of Birth, Current Age, 1 Year Immunizations Complete, Weight-for-Age Status (in Month), Weight-for-Height Status (in Month), Height-for-Age Status (in Month), and PSE Attendance (Days). The table shows 10 entries from December 2017. An 'Additional Filter' button is circled in red at the top right of the search bar. Below the table are navigation links for First, Previous, Next, and Last. At the bottom are five circular icons for Pre School Education, Maternal and Child Nutrition, Demographics, AWC Infrastructure, and Child Beneficiaries List.

Figure 122: Child Beneficiaries List – Select Beneficiary

The ‘Child Beneficiary Details’ section provides the following information about the selected child:

1. Beneficiary Information – This section provides details like Status, Name, Mother’s name, Date of Birth, Age and Sex of the beneficiary child.

#### Beneficiary Information:

**Name:** Battula Teja Siva Durga

**Mother Name:** BATTULA NEERAJA

**Date of Birth:** 2013-02-04

**Age:** 4 years 10 months

**Sex:** M

Figure 123: Beneficiary Information

2. Growth Monitoring Graphs – This section provides graphical plots for the selected child beneficiary based on the following three indicators:

- a. Weight for Age
- b. Height for Age
- c. Weight for Height

Note: The plot lines are displayed on the graph only as per the data entered by the AWW.  
Example - if a child’s weight was not recorded in the application for a particular month, then there will not be a plot for in the weight-for-age chart for the particular month.

Growth Monitoring:

Weight For Age:

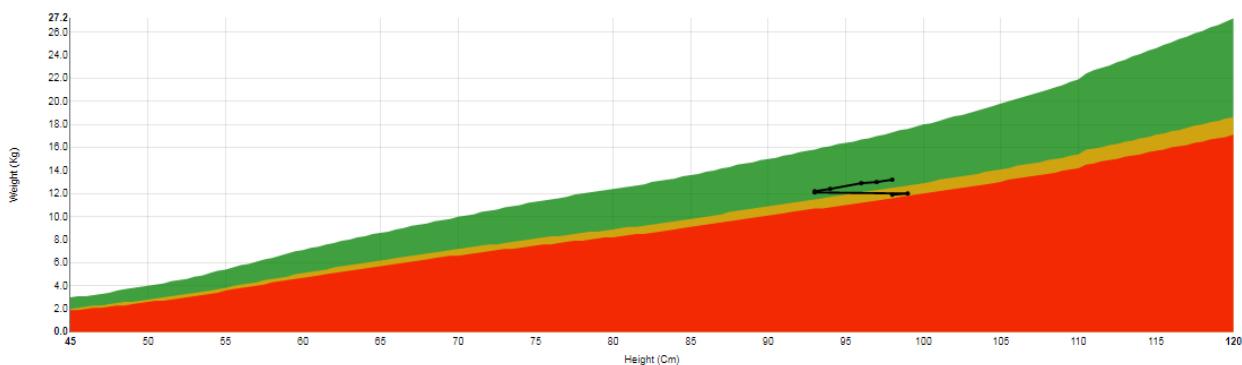

Figure 126: Weight for Height

## 9.11 Pregnant women

The Pregnant women report shows a list of pregnant women registered and availing services in an individual AWC and a set of indicators for each pregnant woman in the list.

Below are the indicators available for each woman:

1. Name
2. Age
3. Status
4. Pregnancy Registration
5. EDD\*
6. Trimester
7. Anemia during last ANC
8. Number of ANC visits
9. Beneficiary Status
10. Number of THRs given in current month
11. Date of last THR

\*Expected Date of Delivery

To access this report, user can click on the "AWC Report" in the left-hand side panel. User will be prompted to select the AWC location that they want to access the report for.

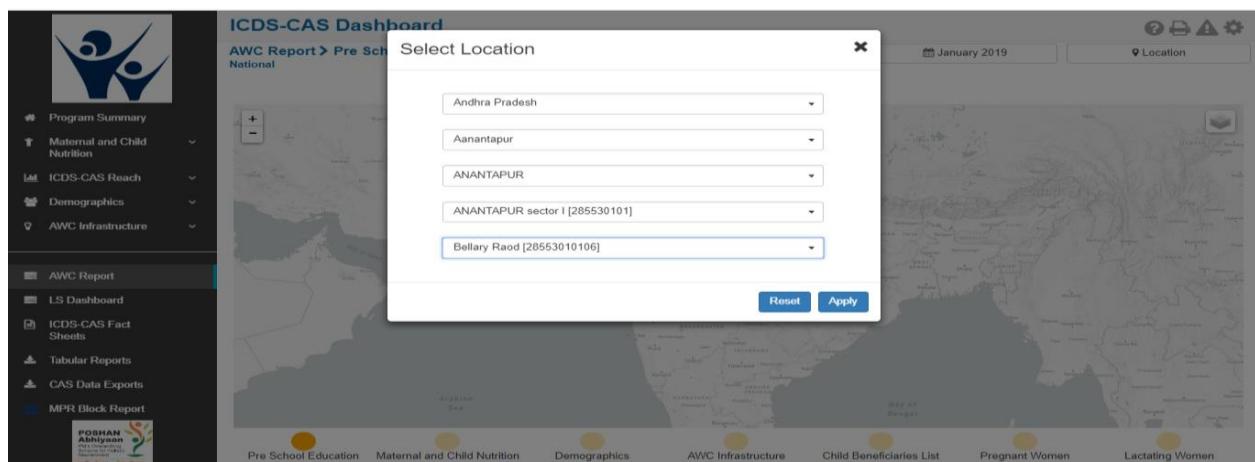

Figure 127 Location selection for pregnant women report

On selecting the location and clicking apply, user will be able to view a list of Pregnant Women who are taking services from that particular AWC.

Pre School Education Maternal and Child Nutrition Demographics AWC Infrastructure Child Beneficiaries List Pregnant Details Lactating Women

Figure 129: Pregnant women case details

User can click on the “back” button available on the top right corner (highlighted in image above) to go back to the list of pregnant women.

Note:

- i. Pregnant women report will be available only at AWC level.
- ii. There won't be any date filter since the report will show all the pregnant women in the AWC. As soon as a woman delivers, she will stop appearing in the Pregnant women report and appear in Lactating Women report (explained in the next section).
- iii. The status of a pregnant woman will change to 'Pregnancy terminated' if the woman has an abortion in the current month.

## 9.12 Lactating women

The Lactating women report shows a list of all the lactating women registered and availing services in an individual AWC and a set of indicators for each woman in the list.

Below are the indicators available for each woman:

1. Name
2. Age
3. Date of Delivery
4. Type of Delivery
5. Institutional Delivery
6. Number of PNC Visits
7. Breastfed within hour of birth
8. Exclusively breastfeeding at last home visit
9. Number of THRs given in the current month

To access this report, user can click on the "AWC Report" tab in the left-hand side panel. User will be prompted to select the AWC location that he or she wants to access the report for.

The screenshot shows the ICDS-CAS Dashboard with the 'AWC Report > Lactating Women' section selected. A modal window titled 'Select Location' is open, prompting the user to choose an AWC to see data. The modal lists several AWC names: Bihar, BUXAR, CHAKKI, S01 [102320301], AAJA TOLA BISHESAR DERA [10232030112], KIRAN DEORI, and Sriman Deori. Below the modal is a table of data for lactating women across different AWCs, with columns for Name, Age, Date of Delivery, Type of Delivery, Institutional Delivery (Y/N), Number of PNC visits, Breastfed within hour of birth, Exclusively breastfeeding at last home visit, and Number of THR given. The table includes rows for each AWC listed in the modal.

Figure 130 Location filters for lactating women

On selecting the location and clicking apply, user will be able to view a list of Lactating Women who are taking services from that particular AWC.

The screenshot shows the ICDS-CAS Dashboard with the 'AWC Report > Lactating Women' section selected. The table displays a list of lactating women across various AWCs. One row for 'Pataan Sabiya' is highlighted with a red oval around the 'Lactating Women' column, which contains the value 'Data Not Entered'. The table has columns for Name, Age, Date of Delivery, Type of Delivery, Institutional Delivery (Y/N), Number of PNC visits, Breastfed within hour of birth, Exclusively breastfeeding at last home visit, and Number of THR given in current month.

Figure 131 List of lactating women

Note: Lactating women report will be available only at AWC level.

## 10. LS Dashboard

This section provides various indicators with respect to the Lady Supervisor activity on monthly basis. LS Dashboard will be available at the left panel below the AWC Report section. Clicking on the “LS Dashboard” prompts the user to select a sector level location for which he/she wants to view the dashboard

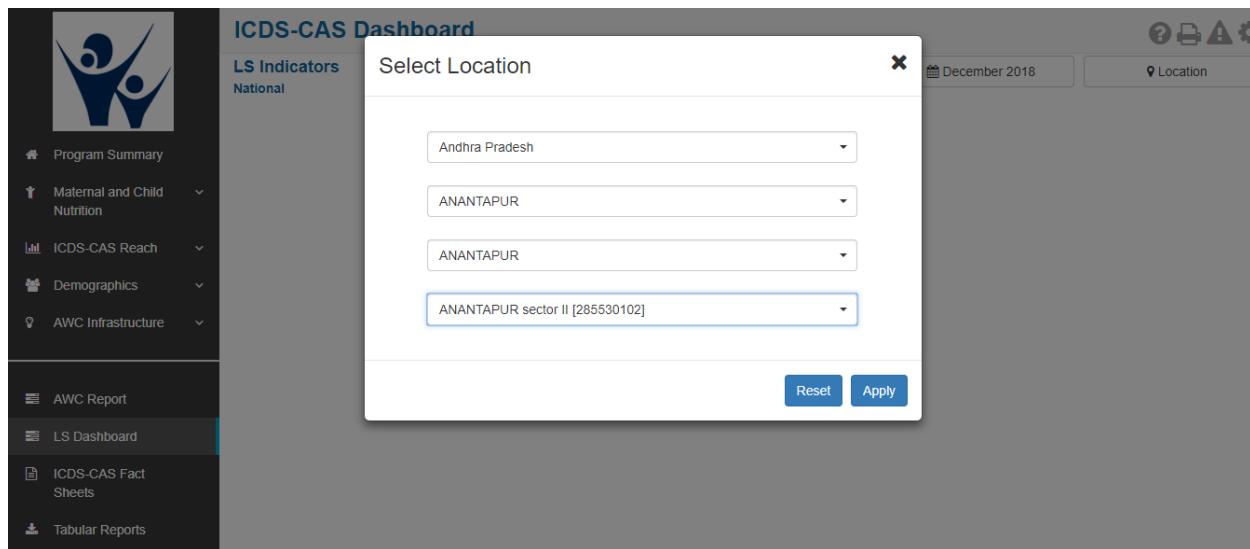

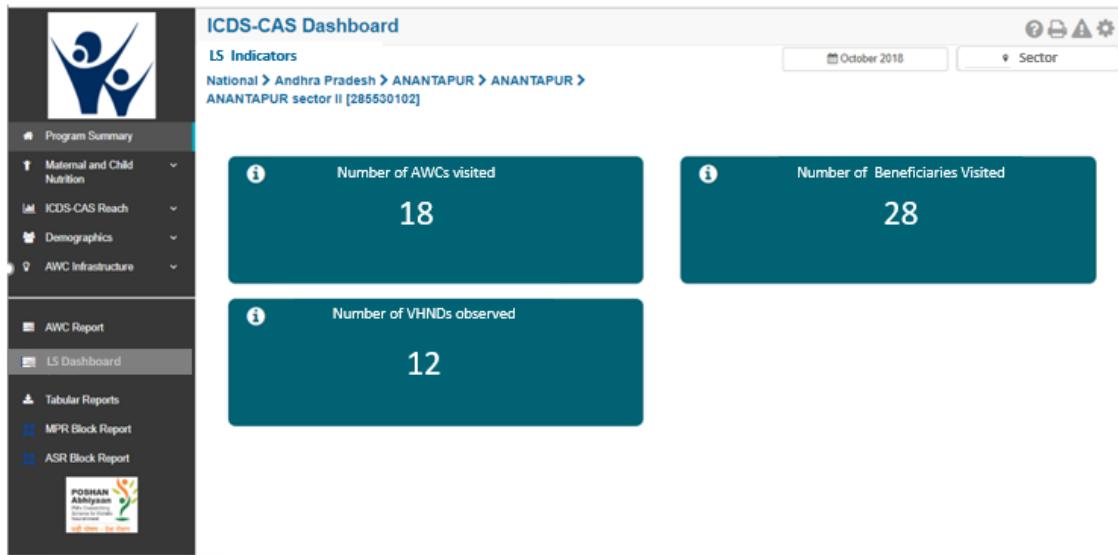

Figure 132 Location filter for LS Dashboard

Note: This report will be available only at sector level.

Once the location of the sector has been selected, the user should be able to view the following three indicators

1. Number of AWCs visited
2. Number of Beneficiaries visited
3. Number of VHSND observed

*Figure 133 LS Dashboard Indicators*

The three indicators are defined as following:

1. Number of AWCs visited: Number of AWC visit forms submitted by LS in current month
2. Number of Beneficiaries visited: Number of beneficiaries visited by LS in the current month
3. Number of VHSND observed: Number of VHSND observed by LS in the current month

## 13. Poshan Progress Dashboard

This section provides ICDS program coverage and service delivery indicators along with a comparative analysis of state/districts performance on those indicators- 3 best performing states/districts and 3 worst performing states/districts.

Poshan Progress Dashboard will be available at the left panel below the LS Dashboard section. Clicking on 'Poshan Progress Dashboard' will open the landing page, Overview page . Users can navigate through to the comparative analysis page by clicking on comparative analysis option a the bottom of the page

ICDS CAS Coverage	Number of States Covered	28	Number of Districts Covered	349
	Number of Blocks Covered	3755	Number of AWCs Launched	635530
	% Number of Days AWC Were opened	25.44%	% of Home Visits	44.05%

Service Delivery	% of children between 3-6 years provided PSE for atleast 21+ days	0.00%	Weighing efficiency	12.78%
	% of trimester three women counselled on immediate and EBF	47.69%	Height Measurement Efficiency	10.14%
	% of children between 6 months -3 years, P&LW provided THR for atleast 21+ days	29.50%	% of children between 3-6 years provided SNP for atleast 21+ days	0.00%

Figure 135 : Overview Page of the Poshan Progress Dashboard

The user can choose the period for which they want to view data, i.e., Monthly or quarterly. The default view will be of monthly data.

The following indicators will be presented on the overview page. Each indicator is categorized as ICDS-CAS Coverage or Service Delivery.

#### ICDS-CAS Coverage:

- Number of States Covered
- Number of Blocks Covered
- % Number of Days AWC Were opened
- Number of Districts Covered
- Number of AWCs Launched
- % of Home Visits

#### Service Delivery:

- % of children between 3-6 years provided PSE for atleast 21+ days
- % of trimester three women counselled on immediate and EBF
- % of children between 6 months -3 years, P&LW provided THR for atleast 21+ days
- Weighing efficiency
- Height Measurement Efficiency
- % of children between 3-6 years provided SNP for atleast 21+ days

## 13.1 Posan Progress Dashboard - Comparative Analysis

To access the comparative analysis page, click on the bubble marked 'Comparative Analysis'. This section shows the ranking of states/districts across various ICDS-CAS Coverage and Service Delivery indicators.

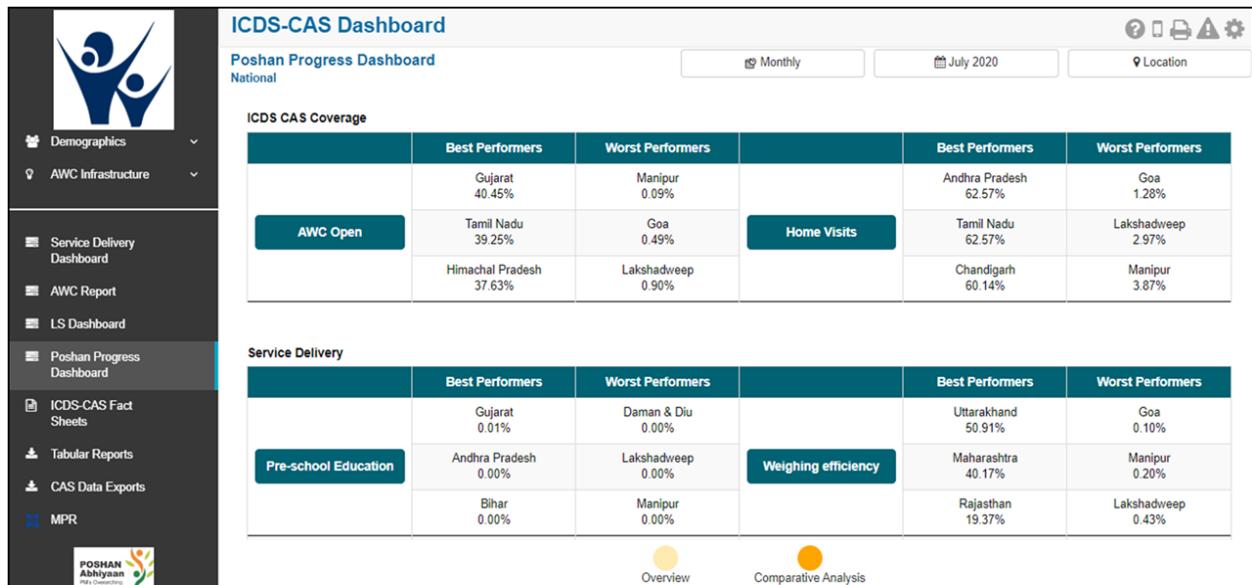

Figure 136 : Comparative Analysis page of Poshan Progress Dashboard

The list of indicators presented in this section is described below:

- AWCs Open
- Home Visits
- Pre-School Education
- Weighing Efficiency
- Counselling
- Height Measurement Efficiency
- Supplementary Nutrition
- Take Home Ration

Note: The Poshan Progress Dashboard (PPD) is made available from April 2019 for both the monthly report and the quarterly report,

## 14. ICDS-CAS Fact Sheet

This section provides the user at various levels (National/State/District/Block/Sector) access to ICDS-CAS Fact Sheet to view indicators on the following outcome areas:

- Maternal and Child Nutrition
- Interventions

- Behavior Change
- Water, Sanitation and Hygiene
- Demographics
- All

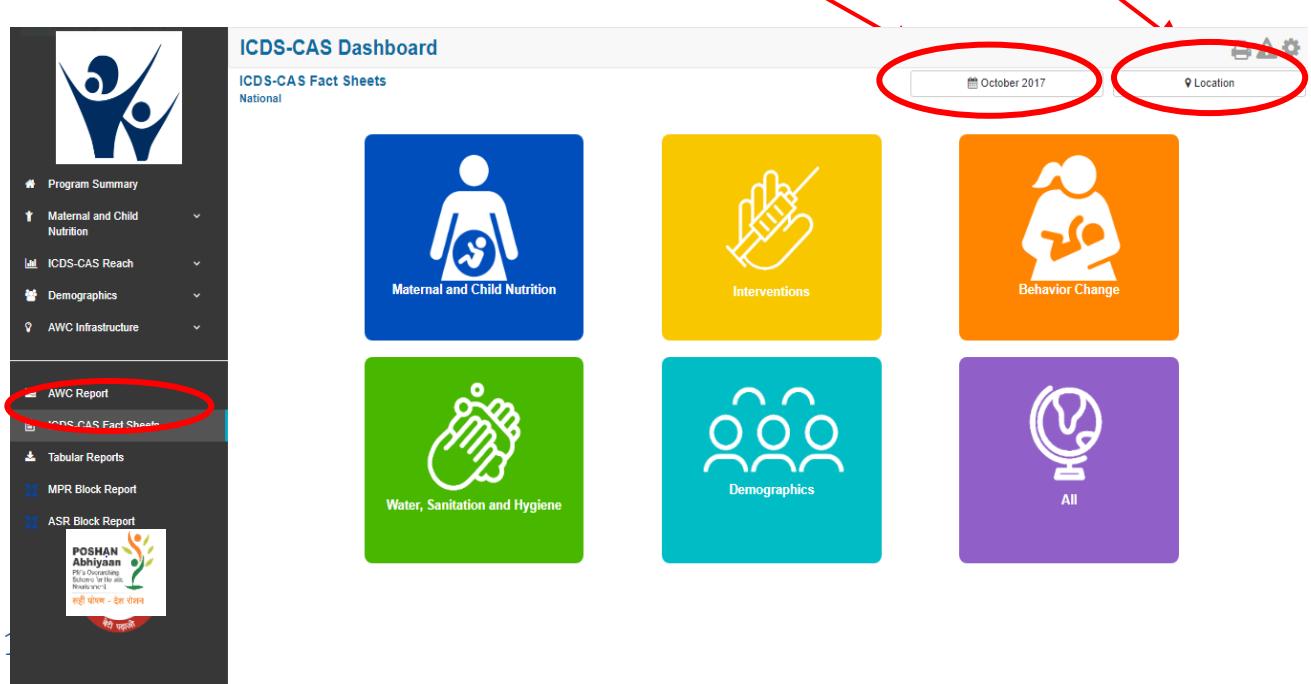

The ICDS- CAS Fact Sheet provides the user access to indicator wise data for last 3 months period along with the National Average. The ICDS-CAS Fact Sheets can be easily printed and downloaded from the dashboard by the user.

Note: The National Average displayed for the specific month chosen using the 'Select Month/Year' filter is calculated using the data from the previous calendar month.

For Example – A National level user will see data for the entire country and can drill down to lower levels (State/District/Block/Sector), a State level user will see data for the entire State and can drill down to lower levels (District/Block/Sector), a District level user will only see data for his/her District and can drill down to lower levels (Block/Sector), a Block level user will only see data for his/her Block and can drill down to lower levels.

**Time Filter:** User may select any month to review the data for that period

**Location Filter:** User may select State/ District/Block/ Sector and review the data

The screenshot shows the ICDS-CAS Dashboard. On the left, there's a sidebar with various report options. In the center, there are six colored boxes representing different program areas: Maternal and Child Nutrition (blue), Interventions (yellow), Behavior Change (orange), Water, Sanitation and Hygiene (green), Demographics (teal), and All (purple). At the top right, there are two input fields: 'October 2017' for the time filter and 'Location' for the location filter. Both of these input fields are circled in red.

In order to view the Mother and Child Nutrition indicators related ICDS-CAS Fact Sheet the user shall be required to click on the following:

Figure 137: Landing Page View

#### 14.1.1. Maternal and Child Nutrition ICDS-CAS Fact Sheet –National Level View

In case a National level (MWCD/CPMU) user clicks on the above mentioned box, the following ICDS-CAS Fact Sheet shall be displayed.

	Aug 2017	Sep 2017	Oct 2017	National Average
Weighing Efficiency (Children <5 weighed)	39.15 %	▲39.86 %	▲42.98 %	40.58 %
Total number of unweighed children (0-5 Years)	23,51,628	▼22,77,516	▼19,73,150	---
Children from 0 - 5 years who are severely underweight (weight-for-age)	1.52 %	▲1.71 %	▲2.03 %	1.74 %
Children from 0-5 years who are moderately underweight (weight-for-age)	7.96 %	▲8.48 %	▲9.73 %	8.69 %
Children from 0-5 years who are at normal weight-for-age	49.04 %	▲52.30 %	▲59.46 %	53.39 %
Children from 6 - 60 months with severe acute malnutrition (weight-for-height)	0.43 %	▲0.52 %	▲0.66 %	0.53 %
Children from 6 - 60 months with moderate acute malnutrition (weight-for-height)	0.79 %	▲0.88 %	▲1.05 %	0.90 %
Children from 6 - 60 months with normal weight-for-height	6.28 %	▲7.11 %	▲8.60 %	7.28 %
Children from 6 - 60 months with severe stunting (height-for-age)	2.73 %	▲3.21 %	▲4.01 %	3.29 %
Children from 6 - 60 months with moderate stunting (height-for-age)	1.85 %	▲2.07 %	▲2.50 %	2.13 %

Figure 138: Maternal and Child Nutrition– National Level User View

#### 14.1.2. Maternal and Child Nutrition ICDS-CAS Fact Sheet –State View

In case State Level (MWCD/CPMU) users, the following ICDS-CAS Fact Sheet shall be displayed.

Nutrition Status of Children	Oct 2017	Nov 2017	Dec 2017	National Average
Weighing Efficiency (Children <5 weighed)	63.68 %	<span style="color:red">↓38.98 %</span>	<span style="color:red">↓18.18 %</span>	36.48 %

In case a National level (MWCD/CPMU) user clicks on the above mentioned box, the following ICDS-CAS Fact Sheet shall be displayed.

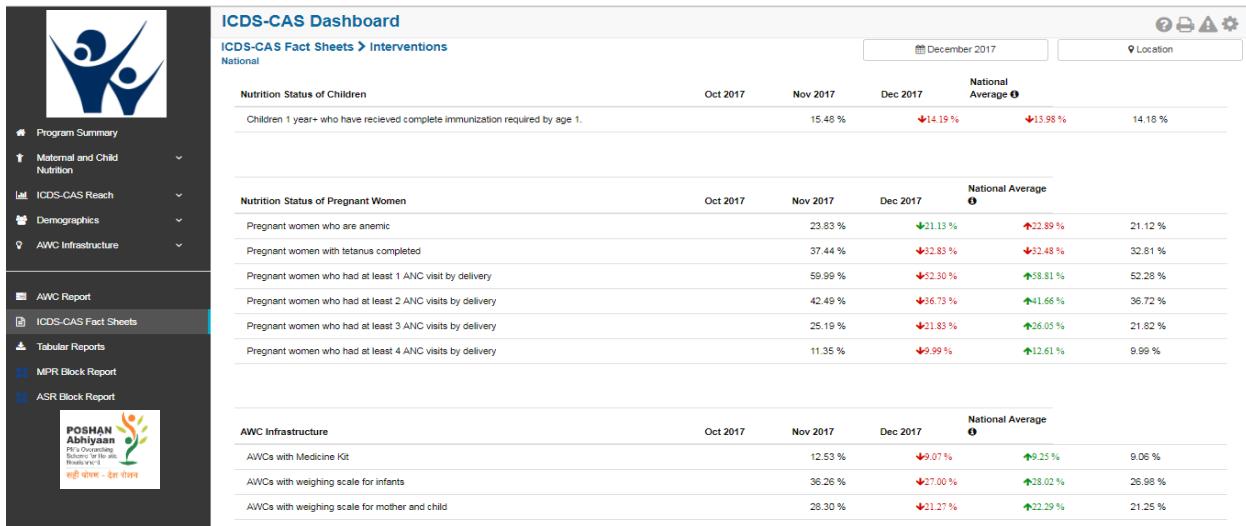

Figure 144: Intervention– National Level User View

Please Note: The ICDS-CAS Fact Sheets (State / District / Block / Sector) can be accessed by the user using the location and time filters as explained in Section 5.

#### 14.3. Behavior Change

In order to view the Behavior indicators related ICDS-CAS Fact Sheet the user shall be required to click on the following:

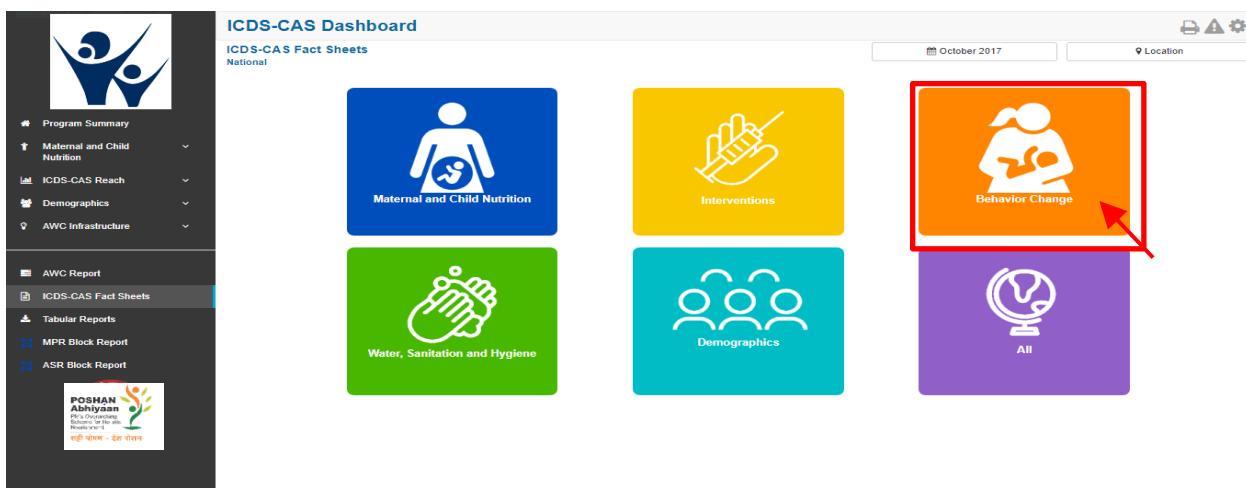

Figure 145: Behavior Change

### 14.3.1. Interventions ICDS-CAS Fact Sheet –National Level View

In case a National level (MWCD/CPMU) user clicks on the above mentioned box, the following ICDS-CAS Fact Sheet shall be displayed.

Child Feeding Indicators	Oct 2017	Nov 2017	Dec 2017	National Average
Percentage of children who were put to the breast within one hour of birth.	74.90 %	↓66.07 %	↓66.04 %	66.05 %
Infants 0-6 months of age who are fed exclusively with breast milk.	61.09 %	↑56.12 %	↓26.05 %	56.10 %
Children between 6 - 8 months given timely introduction to solid, semi-solid or soft food.	69.93 %	↓65.68 %	↓47.49 %	65.66 %
Children from 6 - 24 months complementary feeding	78.41 %	↓73.93 %	↓72.39 %	73.91 %
Children from 6 - 24 months consuming at least 4 food groups	71.88 %	↓67.78 %	↓66.38 %	67.76 %
Children from 6 - 24 months consuming adequate food	68.47 %	↓64.27 %	↓62.74 %	64.25 %
Children from 6 - 24 months whose mothers handwash before feeding	76.21 %	↓71.77 %	↓70.18 %	71.75 %

Nutrition Status of Pregnant Women	Oct 2017	Nov 2017	Dec 2017	National Average
Women resting during pregnancy	78.94 %	↓76.28 %	↑77.71 %	76.24 %
Women eating an extra meal during pregnancy	79.04 %	↓76.50 %	↑77.99 %	76.46 %
Pregnant women in 3rd trimester counselled on immediate and exclusive breastfeeding during home visit	57.98 %	↓56.26 %	↓51.76 %	56.21 %

Figure 146: Behavior Change– National Level User View

Please Note: The ICDS-CAS Fact Sheets (State / District / Block / Sector) can be accessed by the user using the location and time filters as explained in Section 5.

### 14.4. Water, Sanitation and Hygiene

In order to view the Water, Sanitation and Hygiene indicators related ICDS-CAS Fact Sheet the user shall be required to click on the following:

Figure 147: Water, Sanitation and Hygiene

#### 14.4.1. Water, Sanitation and Hygiene ICDS-CAS Fact Sheet –National Level View

In case a National level (MWCD/CPMU) user clicks on the above mentioned box, the following ICDS-CAS Fact Sheet shall be displayed.

The screenshot shows the ICDS-CAS Dashboard with the following details:

- Left Sidebar:** Includes links for Program Summary, Maternal and Child Nutrition, ICDS-CAS Reach, Demographics, AWC Infrastructure, AWC Report, ICDS-CAS Fact Sheets (which is the selected tab), Tabular Reports, MPR Block Report, ASR Block Report, and the POSHAN Abhiyaan logo.
- Header:** Shows "ICDS-CAS Dashboard" and "ICDS-CAS Fact Sheets > Water Sanitation And Hygiene National". It also includes date filters for December 2017 and location filters.
- Content Area:** Displays a table titled "AWC Infrastructure" comparing Oct 2017, Nov 2017, Dec 2017, and National Average across two categories: AWCs with clean drinking water and AWCs with functional toilet.

Figure 148: Water, Sanitation and Hygiene– National Level User View

Please Note: The ICDS-CAS Fact Sheets (State / District / Block / Sector) can be accessed by the user using the location and time filters as explained in Section 5.

#### 14.5. Demographics

In order to view the Demographics indicators related ICDS-CAS Fact Sheet the user shall be required to click on the following:

The screenshot shows the ICDS-CAS Dashboard with the following details:

- Left Sidebar:** Includes links for Program Summary, Maternal and Child Nutrition, ICDS-CAS Reach, Demographics, AWC Infrastructure, AWC Report, ICDS-CAS Fact Sheets (selected), Tabular Reports, MPR Block Report, ASR Block Report, and the POSHAN Abhiyaan logo.
- Header:** Shows "ICDS-CAS Dashboard" and "ICDS-CAS Fact Sheets National". It includes date filters for October 2017 and location filters.
- Content Area:** Features six colored boxes representing different fact sheets: Maternal and Child Nutrition (blue), Interventions (yellow), Behavior Change (orange), Water, Sanitation and Hygiene (green), Demographics (cyan, highlighted with a red box and arrow), and All (purple).

Figure 149: Demographics

#### 14.5.1. Water, Sanitation and Hygiene ICDS-CAS Fact Sheet –National Level View

In case a National level (MWCD/CPMU) user clicks on the above mentioned box, the following ICDS-CAS Fact Sheet shall be displayed.

Demographics	Oct 2017	Nov 2017	Dec 2017	National Average
Number of Households	90,45,634	↑1,01,40,622	1,01,40,622	1,01,45,640
Total Number of Household Members	4,04,39,643	↑4,56,43,410	↑4,88,59,706	4,56,65,854
Total number of members enrolled at AWC	1,67,18,786	↑1,88,45,318	↑2,01,36,844	1,88,56,035
Percent Aadhaar-seeded beneficiaries	48.51 %	↑50.05 %	↑51.24 %	50.03 %
Total pregnant women	2,89,168	↑3,76,735	↑3,01,400	2,76,962
Total pregnant women enrolled for services at AWC	2,68,749	↑3,76,235	↑3,00,938	2,76,479
Total lactating women	3,79,052	↑4,31,262	↓4,07,858	4,31,378
Total lactating women registered for services at AWC	3,78,307	↑4,30,819	↓4,07,440	4,30,933
Total children (0-6 years)	42,78,724	↑48,02,878	↑49,28,576	48,04,131
Total children (0-6 years) enrolled for ICDS services	42,74,270	↑47,97,785	↑49,23,799	47,99,035

Please Note: The ICDS-CAS Fact Sheets (State / District / Block / Sector) can be accessed by the user using the location and time filters as explained in Section 5.

#### 14.6. All – ICDS-CAS Fact Sheet

In order to view the related ICDS-CAS Fact Sheet for all the indicators the user shall be required to click on the following:

Figure 151: All Indicators

#### 14.6.1. All Indicators ICDS-CAS Fact Sheet– National Level View

This ICDS-CAS Fact Sheet shall provide the user at National level information on all the indicators.

	Oct 2017	Nov 2017	Dec 2017	National Average
Weighing Efficiency (Children <5 weighed)	41.88 %	↓39.01 %	↓13.91 %	31.07 %
Total number of unweighed children (0-5 Years)	20,96,731	↑24,84,433	↑55,81,546	---
Children from 0 - 5 years who are severely underweight (weight-for-age)	1.96 %	↑1.99 %	↓1.98 %	1.98 %
Children from 0-5 years who are moderately underweight (weight-for-age)	9.38 %	↓9.10 %	↓8.97 %	9.14 %
Children from 0-5 years who are at normal weight-for-age	57.26 %	↓51.22 %	↓52.50 %	54.20 %
Children from 6 - 60 months with severe acute malnutrition (weight-for-height)	0.63 %	↑0.63 %	↑0.65 %	0.64 %
Children from 6 - 60 months with moderate acute malnutrition (weight-for-height)	1.01 %	↑1.15 %	↓1.14 %	1.10 %
Children from 6 - 60 months with normal weight-for-height	8.24 %	↑9.22 %	↑9.38 %	8.98 %
Children from 6 - 60 months with severe stunting (height-for-age)	3.85 %	↑4.10 %	↑4.19 %	4.06 %
Children from 6 - 60 months with moderate stunting (height-for-age)	2.40 %	↑2.79 %	↑2.83 %	2.68 %

Figure 152: All Indicators– National Level User View

Please Note: The user based on his level of access shall have the option to select the month and location and review the ICDS-CAS Fact Sheet accordingly.

## 15. Tabular Reports

This section enables the user at various levels (National/State/District/Block/Sector) to download various reports pertaining to key program area indicators such as Child, Pregnant Women, Demographics, System Usage, AWC Infrastructure and Child Beneficiary List.

Once the user clicks on the “Tabular Reports” on the left hand navigation panel, the following screen shall be displayed prompting the users to select from the multiple filters available:

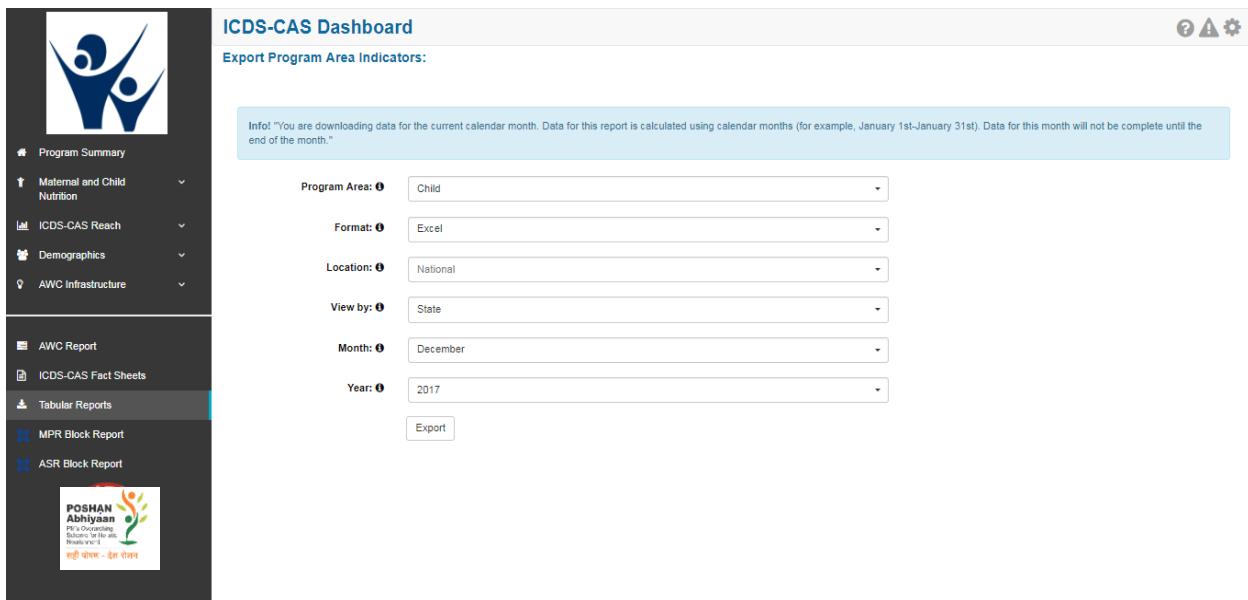

Figure 153: Tabular Reports: Landing Page

On the landing page of “Tabular Reports” the user shall be provided access to various filters such as Program Areas, Report, Location, View By, Month and Year each having drop down menus for selection and requesting report exports. These drop downs are **filters** available to export selected data as per the needs of the dashboard user.

Program Area: <b>Child</b>	Format: <b>Excel</b>
Location: <b>National</b>	View by: <b>National</b>
Month: <b>December</b>	Year: <b>2017</b>
<b>Export</b>	

Figure 154: Tabular Report - Filters

- Report filter allows the user to select CSV or Excel format for downloading the reports
- Location filter allows the user to select name of the State for which the report is required
- View By Filter allows the user to generate report for State/ District/ Block/ Supervisor/ AWC
- Month Filter allows user to generate report for any month of the year
- Year Filter allows user to select the year for which report is required such as 2016, 2017 etc.

Once the user has made his selection using the above mentioned filters he clicks on the “Export” button the relevant reports are downloaded.

### 15.1. Tabular Report: Program Area – Child

The user based on his/her access (National/State/District/Block/Sector) can use the above mentioned filters to download the report for the program area pertaining to child indicators.

Figure 155: Program Area - Child

The filter selection shown above will automatically download the ‘Child’ Tabular Report in Excel format. Each Excel sheet shows two tabs. The first shows aggregated data for child related indicators at the National Level for December and the second tab shows ‘Export Info’, the filters that were chosen by the user on the ‘Tabular Reports’ page.

State	Weighing efficiency (in month)	Height measurement efficiency (in month)	Total number of unweighed children (0-5 Years)	Percentage of severely underweight children	Percentage of moderately underweight children	Percentage of normal weight-for-age children	Percentage of children with severe wasting
Andhra Pradesh	24.34 %	5.79 %	821171	0.85 %	5.50 %	55.86 %	0.63 %
Bihar	5.13 %	0.87 %	1000426	2.11 %	5.21 %	19.14 %	0.56 %
Chhattisgarh	5.77 %	0.82 %	505087	2.68 %	14.54 %	80.61 %	1.66 %
Jharkhand	5.38 %	0.08 %	476522	1.65 %	6.88 %	67.51 %	0.14 %
Madhya Pradesh	26.23 %	1.35 %	615569	3.39 %	17.49 %	72.54 %	0.58 %
Rajasthan	1.53 %	0.06 %	164555	0.07 %	0.32 %	2.59 %	0.01 %

**Export Info:** This displays the details of filters selected by the user while downloading the report

## 15.2. Tabular Report: Program Area – Pregnant Women

The user can download the report for Pregnant Women related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Number of lactating women
- Number of pregnant women
- Number of postnatal women
- Percentage Anemia
- Percentage Tetanus Completed
- Percent women had at least 1 ANC visit by delivery
- Percent women had at least 2 ANC visit by delivery
- Percent women had at least 3 ANC visit by delivery
- Percent women had at least 4 ANC visit by delivery
- Percentage of women resting during pregnancy
- Percentage of women eating extra meal during pregnancy
- Percentage of trimester 3 women counselled on immediate breastfeeding

## 15.3. Tabular Report: Program Area – Demographics

The user can download the report for Demographic related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Number of households
- Total number of beneficiaries who have an Aadhaar ID
- Total number of beneficiaries (under 6 years old, pregnant women, and lactating women, alive and seeking services)
- Percent Aadhaar-seeded beneficiaries
- Number of pregnant women
- Number of pregnant women enrolled for services

- Number of lactating women
- Number of lactating women enrolled for services
- Number of children 0-6 years old
- Number of children 0-6 years old enrolled for services
- Number of children 0-6 months old enrolled for services
- Number of children 6 months to 3 years old enrolled for services
- Number of children 3 to 6 years old enrolled for services
- Number of adolescent girls 11 to 14 years old
- Number of adolescent girls 15 to 18 years old
- Number of adolescent girls 11 to 14 years old that are enrolled for services
- Number of adolescent girls 15 to 18 years old that are enrolled for services

#### 15.4. Tabular Report: Program Area - System Usage

The user can download the report for System Usage related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Number of days AWC was open in the given month
- Number of launched AWCs (ever submitted at least one HH registered form)
- Number of household registration forms
- Number of add pregnancy forms
- Number of birth preparedness forms
- Number of delivery forms
- Number of PNC forms
- Number of exclusive breastfeeding forms
- Number of complementary feeding forms
- Number of growth monitoring forms
- Number of take home rations forms
- Number of due list forms

Note: The column, “Number of days AWC was open in the given month” by definition is applicable only at AWC level. Downloading this report at any other level except AWC level would clearly mention “Applicable at only AWC level” under the column, “Number of days AWC was open in the given month”.

#### 15.5. Tabular Report: Program Area – AWC Infrastructure

The user can download the report for System Usage related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Percentage AWCs with drinking water
- Percentage AWCs with functional toilet

- Percentage AWCs with medicine kit
- Percentage AWCs with weighing scale: infants
- Percentage AWCs with weighing scale: mother and child

## 15.6. Tabular Report: Program Area – Child Beneficiary List

This report is an important and detailed report which allows the user at (National/State /District/ Block/ Sector) to export the child beneficiary list using the below mentioned filters and download the report.

On selecting the “Child Beneficiary List” in the Program Area as explained in the above mentioned section the user shall be provided the option to further filter and export the report as per requirement. The user can select the filter such as:

- Data not entered for weight
- Data not Entered for height (Unmeasured)
- Severely Underweight
- Moderately Underweight
- Normal (weight-for-age)
- Severely Stunted
- Moderately Stunted
- Normal (height-for-age)
- Severely Wasted
- Moderately Wasted
- Normal (weight-for-height)

Note: This report is **only available for download at the District, Block, Sector and AWC level locations**. Additionally, **at least one filter must be chosen** from the list mentioned above. This report provides the user with list of individual beneficiaries by name that will be useful for monitoring and tracking the nutritional status of each beneficiary.

The screenshot displays the ICDS-CAS Dashboard with the following details:

- Program Area:** Child Beneficiary List
- Format:** Excel
- Location:** Bihar, BHAGALPUR
- Month:** All, December
- Year:** 2017
- Filter List By:**
  - Data not Entered for weight (Unweighed)
  - Data not Entered for height (Unmeasured)
  - Severely Underweight
  - Moderately Underweight
  - Normal (weight-for-age)
  - Severely Stunted
  - Moderately Stunted
  - Normal (height-for-age)
  - Severely Wasted
  - Moderately Wasted
  - Normal (weight-for-height)
- Export** button

Figure 152: Program Area - Child Beneficiary List

## 15.7. Tabular Report: ICDS CAS Monthly Register

This report is meant to be a physical record kept of the activities taking place in the AWC for a month. It has the following sections:

1. Basic Details: This includes identification information such as the AWW Location, Code, Name of the AWW and her phone number etc. There is also provision for manually filling in additional details such as the LGD code, the name of the supervisor, etc.
2. Infrastructure: This has details on the type of AWC building, toilet, kitchen and drinking water available at the AWC.
3. Total Population: As per the Anganwadi Survey Register, this section breaks down the beneficiaries availing services at the given AWC.
4. AWC Functioning and Services Delivered: This details the Breakfast, HCM and THR delivered to the children and beneficiaries in the month, along with the days PSE was conducted and AWC was opened.
5. Services: Detailed breakdown of the Supplementary Nutrition and PSE Education given by gender and other demographic identifying data (such as SC/ST/OBC/General/Minority).
6. Classification of Nutritional Status of Children: Break-down of children (0-3 years; 3-5 years) into whether they're moderately/severely underweight, stunted, or wasted.
7. Village Health Sanitation and Nutrition Day Activity Summary: Details of the VHSND, including immunizations conducted and ante-natal check ups taken place.
8. THR Distribution: There is a provision to input the details of THR distribution to children (both normal as well as underweight) and to pregnant women.

## ICDS-CAS Monthly Register

### 1. Basic Details

Name of Project: BIHPUR	*LGD Code:	*Main AWC / Mini AWC:
Name of AWC: AAHUTI BARI KHAL JAGDEV MANDAL KA DARWAJA [10224020132]	AWC Code: 10224020132	*Name Of Supervisor:
Name of AWW: ■■■■■	Mobile number of AWW: 917463888761	*Name of AW Helper:

### 2. Infrastructure

Type of AWC building Pucca / Others: Data Not Entered      Owned/rented/Others:

Whether drinking water available at AWC? (Y/N): Yes

Whether Kitchen available at AWC? (Y/N): Data Not Entered

Whether toilet available at AWC? (Y/N): Data Not Entered      Type of toilet at AWC:

### 3. Total Population as per Anganwadi Survey Register

Infants (0-6 Months)	Children (6-36 Months)	Children (36-72 months)	Pregnant Women	Lactating Mothers
6	70	118	9	6

### 4. AWC Functioning & services delivered

Number of days AWC functioned: 25

Number of days AWC conducted Preschool Education: 23

ECCE material available at AWC(Y/N): Data Not Entered

The report can be downloaded in two formats: one PDF per AWC, or as one combined PDF for all the AWCS.

## 15.8. Tabular Report: Program Area - AWW Performance Report

The AWW Performance report should be used to disburse the incentives to Anganwadi Workers (AWW) & Anganwadi Helpers (AWH). This report has following information: -

1. State
2. District
3. Block
4. Supervisor
5. AWC
6. AWW Name
7. AWW Contact Number
8. Home Visits Conducted
9. Weighing Efficiency
10. AWW Eligible for Incentive

11. Number of Days AWC was Open
12. AWH Eligible for Incentive

#### AWW Eligible for Incentive

An AWW would be eligible for incentive when she has met the following two criteria:

- a. **Home Visits Conducted** - An AWW should have completed at least 60% of the total eligible beneficiary visits
- b. **Weighing Efficiency**- The weighing efficiency of the AWC should be more than 60% for that month

#### AWH Eligible for incentive

An AWH would be eligible for incentive when following criteria is met: -

- a. **Number of days the AWC was open** - The Anganwadi centre should have been opened for at least 21 days in that month

Figure 157 Snapshot of the AWW performance Report downloaded at a block level

*Key points to note for the AWW Performance Report:*

4. This report will be available at State, District &Block level.
5. The data synced by the AWWs **till 10th of every month** will be considered for AWW Performance Report. Any data synced post 10th (i.e. between 11th and 15th) will not be considered for AWW Performance Report calculation.
6. For calculating home visits conducted value unscheduled home visits will not be counted.
7. The report will be available for download on and after 15th of every month for the performance of last month. For example, to show October performance, report will be available only on or after 15th November.
8. If an AWC is not launched, The AWW Performance report will reflect the same status in the report. All the columns would be marked as 'AWC Not Launched'

Note: This report was available only at block level until February 2019. Post the Change request implemented in February 2019, users can now download the reports at state, district and block level as well.

## 15.9. Tabular Report: LS Performance Report

This report provides a list of lady supervisors and following three indicators for each of them:

- I. Total Number of AWCs visited
- II. Total Number of Beneficiaries Visited
- III. Total Number of VHSNDs observed

This report is available for download in excel and csv formats and is available at following levels

- I. State
- II. District
- III. Block

Users can click on the “Tabular reports” section in the left-hand panel and select the “LS Performance Report” in the Program Area to export and download the report for their region.

The screenshot shows the ICDS-CAS Dashboard interface. On the left, there is a sidebar with various program summary and report links. The 'Tabular Reports' link is circled in red. The main dashboard area has a header 'ICDS-CAS Dashboard' and 'Export Program Area Indicators'. It includes an info message about data being calculated for the current calendar month. Below this are dropdown menus for 'Program Area' (set to 'LS Performance Report'), 'Format' (set to 'Excel'), 'Location' (set to 'Andhra Pradesh'), 'Month' (set to 'March'), and 'Year' (set to '2019'). At the bottom right of the dashboard are 'Export' and 'Reset' buttons.

## 15.10. Tabular Reports: Program Area - Take Home Ration (THR)

The Take Home Ration (THR) report serves the purpose of monitoring the coverage and implementation of Take Home Ration (THR) at the ground level. This report is available at all levels of the location hierarchy i.e., National, State, District, Block and Sector level.

The Report Type filter allows users to select the kind of report they want to download and view. Each report type shows data at a different level of detail:

- Consolidated: The consolidated reports show the following indicators
  - i) Location details (State, district, block, sector, AWC name)
  - ii) AWW name
  - iii) AWW phone number

- iv) Total no. of beneficiaries eligible for THR (consolidated)
- v) Total No. of beneficiaries received THR in a given month (consolidated)
- vi) Total No of pictures taken by AWW
- Beneficiary Wise: This Report Type will give details of the total no. of beneficiaries split into the types of beneficiaries along with the following indicators
  - vii) Location details (State, district, block, sector, AWC name)
  - viii) AWW name
  - ix) AWW phone number
  - x) Total no. of beneficiaries eligible for THR (beneficiary wise split)
    - 1) Lactating Women
    - 2) Pregnant Women
    - 3) Children 6-36 months
  - xi) Total No. of beneficiaries received THR in a given month (beneficiary wise split)
    - 1) Lactating Women
    - 2) Pregnant Women
    - 3) Children 6-36 months
  - xii) Total No of pictures taken by AWW
- Days & Beneficiary wise: This Report type will give details of the 'Total No. of beneficiaries received THR in a given month' organized into weekly buckets along beneficiary wise. It will have the following indicators along with the ones already present in the Beneficiary wise report.
- Total no. of beneficiaries eligible for THR (Beneficiary wise split *as in above*)
  - xiii) Lactating Women
  - xiv) Pregnant Women
  - xv) Children 6-36 months
- Total No. of beneficiaries received THR in a given month (Days & beneficiary wise split)
  - xvi) Not Provided, Provided for 1-7 days, Provided for 8-14 days, Provided for 15-20 days, Provided for 21-24 days, Provided for at least 25 days (>=25 days)
  - xvii) Lactating Women
  - xviii) Pregnant Women
  - xix) Children 6-36 months

## 15.11. Tabular Reports: Program Area - Dashboard Activity Report

The Dashboard activity report provides the location hierarchy details of the dashboard users along with details of their last activity on dashboard. Following are the key fields / indicators present in the report.

1. State / UT Name - State of the Dashboard user
2. District Name - District of the Dashboard user
3. Block Name - Block of the Dashboard user
4. Username - UserID of the Dashboard user. This list contains all the uploaded users.
5. Level - State, District or Block
6. Role - Designation of the user
7. Launched? - Whether the user has at least 1 AWC launched in the locations reporting to them.
8. Last Activity - This shows the record for the last time whenever any activity was performed on the Dashboard by the corresponding user.
9. Activity in the 7 days - If "last activity" lies in the last 7 days

**Note:** Please note that there is no filter available for the locations because a user will automatically get a list of all dashboard users at their geography and geographies under them.

## 15.12. Tabular Reports: Program Area - Service Delivery Report

Users can download the report for indicators related to services delivered to pregnant women, lactating women and children 0-6 years using the appropriate filters as per requirement. There is an additional filter provided for the service delivery report, Beneficiary.

The Beneficiary filter allows users to select beneficiary type for which they would want to download the report, i.e., (i) PW,LW & Children 0-3 years, (ii) Children 3-6 years

The key indicators that a service delivery report for PW, LW & Children 0-3 years would include are as follows:

- Number of AWCs launched
- Home Visits
- Growth Monitoring
- Community Based Events
- VHSND
- Take Home Ration
  - Not provided
  - Provided for 1-7 days
  - Provided for 8-14 days
  - Provided for 15-20 days
  - Provided for 21-24 days
  - Provided for at least 25 days ( $\geq 25$  days)

State	Number of AWCs launched	Home Visits			Growth Monitoring			Number of Anganwadi centers who have conducted at least 2 CBE
		Number of home visits conducted by the AWC	Number of expected home visits to be conducted by the AWC	Percentage of home visits conducted by the AWC	Number of children (0-3 years) enrolled for Anganwadi services who were weighed	Total children (0-3 years) enrolled for Anganwadi services	Percentage of children (0-3 years) enrolled for Anganwadi services who were weighed

Figure: Snapshot of Service Delivery Report, Children 3-6 years

### 15.13. Tabular Reports: Program Area - Child Growth Tracking Report

The Child Growth Tracking Report, is a growth monitoring report of children 0-6 years. The report shows time series data of growth monitoring indicators for 3 months- current month (x), last month (x-1), last to last month (x-2). The key indicators that are available in this report are listed below:

1. Pre-school Education Attendance
2. Supplementary Nutrition
3. Stunting (height-for-age)
4. Wasting (weight-for-height)
5. Underweight (weight-for-age)

**Note:** This a beneficiary level report and is available at district and below levels, i.e., district, block, sector, AWC

This Report is available from January 2019.

### 15.14. Tabular Reports: Program Area - AWW Activity Report

Anganwadi workers deliver essential services and benefits to our beneficiaries. Hence, Monitoring the activity/inactivity of Anganwadi workers is one of the critical tasks of administrative officials at various levels. Therefore, the AWW activity report has been made available to be downloaded as a tabular report from the ICDS CAS Dashboard.

The AWW Activity Report (AAR) is available under the 'Tabular Reports' section of the ICDS CAS Dashboard. The report is available **at and below the state level till sector level**. The location filter options are the same as for other reports, available for all launched locations. The various indicators presented in the report are:

- AWC name
- AWC site code
- First submission date
- Last submission date
- Days since start
- Days since inactive

Note: The view by, month and year options will be disabled for this report. This is a point-in-time report and is available only at state, district, block and sector level

State	District	Block	Superviso AWC Nam	AWC Site	First Submission Date	Last Submission Date	Days Since Start	Days Inactive

Figure 164 : Snapshot of Poshan Progress Report

The report will be available at national and state level. The following indicators are presented in the report :

- Number of Blocks Covered
- Number of Districts Covered

- Number of AWCs Covered
- % Number of Days AWC were opened
- Total Number of Children (3-6 yrs)
- No. of Children between 3-6 years provided PSE for atleast 21+ days
- % of Children between 3-6 years provided PSE for atleast 21+ days
- Children eligible to have their weight measured
- Total Number of children that were weighed in the month
- Weighing Efficiency
- Number of Women in third trimester
- Number of Trimester three women counselled on immediate and EBF
- % of Trimester three women counselled on immediate and EBF
- Children eligible to have their height measured
- Total number of children that had height measured in the month
- Height Measurement Efficiency
- Number of children between 6 months - 3 years, P&LW
- Number of children between 6 months - 3 years, P&LW provided THR for at least 21+ days
- % of children between 6 months - 3 years, P&LW provided THR for at least 21+ days
- No. of children between 3-6 years
- No. of children between 3-6 years provided SNP for at least 21+ days
- % No. of children between 3-6 years provided SNP for at least 21+ days
- Expected Home Visits
- Actual Home Visits
- % of Home Visits

Note: The Poshan Progress Report (PPR) shall be available to be viewed by state/district only and not for levels below

The month filter options shall be available from April 2019

## 16. CAS Data Exports

The CAS data exports provides one beneficiary data per row in a table for a given month. This will help facilitate the raw data access to states to carry out beneficiary level analysis at a state level. The data will be available in 3 tables:

1. AWW Infrastructure
  - a. Captures the AWC level details in an aggregate manner including infrastructure and other details
2. CCS Records
  - a. Pregnancy and lactation period of a mother
3. Child Health Records
  - a. Covering children between 0-6 years of age

For accessing the CAS Data exports, click on the CAS Data exports section in the Left-hand panel, select the state and report to be downloaded and click on export. Please refer to the screenshot below.

The screenshot shows the ICDS-CAS Dashboard interface. On the left, there is a sidebar with various menu items: Program Summary, Maternal and Child Nutrition, ICDS-CAS Reach, Demographics, AWC Infrastructure, AWC Report, LS Dashboard, ICDS-CAS Fact Sheets, and a section for 'Download reports' which includes 'CAS Data Exports' (circled in red) and 'MPR Block Report'. The main content area has a header 'Export CAS Data:' and a message 'Info! Please select all filters!'. Below this are four dropdown menus: 'Data Type' (set to 'Data Type'), 'State' (set to 'State'), 'Month' (set to 'January'), and 'Year' (set to '2019'). At the bottom of the filter section is a red-circled 'Export' button.

Figure 165: CAS Data Exports-Landing Page

For more details on the CAS data export indicators, please refer to [Appendix A](#).

This data is accessible through an API (Application Program Interface) as well.

**Note:** Data will be available for the current month starting 7th of the next month.

### Accessing CAS Data Export API:

To extract the ICDS CAS Dashboard data using an API, use a command in the following format:

```
curl -o <extract_file_name>.csv -L -H "Authorization: ApiKey <username>:<apikey>" "icds-cas.gov.in/a/icds-cas/icds_dashboard/data_export?month=<month_in_number>&year=<year_in_number>&state_name=<state_name>&type=<report_type>"
```

Type Parameter:

Report type	Parameter Value (case sensitive)
Child	child

AWC	awc
Pregnant and Lactating Woman	woman

### Sample Request: To get all the Pregnant & Lactating Women data of Bihar in January 2019

```
curl -o sampleBiharWomanExtract.csv -L -H "Authorization: ApiKey sampleAPIuser@dimagi.com:c761c50946804027c2ec8k46a1212075fe6c7d17" "icds-cas.gov.in/a/icds-cas/icds_dashboard/data_export?month=1&year=2019&state_name=Bihar&type=woman"
```

Sample user details referred in the above command:

Sample User: ICDS Sample API User

Username: sampleAPIuser@dimagi.com

APIKey: c761c50946804027c2ec8k46a1212075fe6c7d17

**Note: Please write to CPMU for approval and API access.**

## 17. MPR Block Report

The user can select and click on the “MPR Block Report” on the left-hand navigation panel, the screenshot of the landing page visible to the user is provided below:

Figure 166: Landing Page

Once the user clicks on the “MPR Block Report” on the navigation panel on the left, the user shall be navigated to the below mentioned screen wherein the user shall be required to make selection using the filters available on the page. The user is required to select the month and year to review his relevant Block MPR in the dropdown.

The screenshot shows a 'Report Filters' section with three dropdown menus: 'Location' (set to 'All'), 'Month' (set to 'December'), and 'Year' (set to '2017'). Below the dropdowns are buttons for 'Apply', 'Favorites', 'Save...', and 'Email Report'. A link 'Hide Filter Options' is located at the bottom left. A message at the bottom center reads: 'Why can't I see any data? Please choose your filters above and click Apply to see report data.'

Figure 167: Block MPR Report page filter

The Monthly Progress Reports displays the following information:

- Identification and Basic Information
- Details of Births and Deaths during the month
- Details of new registrations at AWCs during the month
- Delivery of Supplementary Nutrition and Pre-School Education
- Number of AWCs using Iodized salt
- Program Coverage
- Pre-School Education conducted for children 3-6 years
- Growth Monitoring and Classification of Nutritional Status of Children (as per growth chart based on the WHO Child Growth Standards)
- Immunization Coverage
- Village Health Sanitation and Nutrition Day (VHSND) activity summary
- Referral Services
- Monitoring and Supervision During the Month

## 18. ASR Block Report

The user can select and click on the “ASR Block Report” on the left hand navigation panel and shall be redirected to the below mentioned page where the user would be required to choose the location, year, month and accordingly the ASR shall be generated.

The screenshot shows the ICDS-CAS Project Reports interface. On the left, there's a sidebar with 'BLOCK REPORTS' selected under 'TOOLS'. The main area is titled 'Report Filters' with a dropdown for 'Location' set to 'All'. There are buttons for 'Apply', 'Favorites', 'Save...', and 'Email Supported'. Below the filters, a message says 'Why can't I see any data? Please choose your filters above and click Apply to see report data.'.

Figure 168: Block ASR Report page filter

Once the user has made the selection, the user shall be able to view and download the ASR report.

## 19. Snapshot of Indicator Views on Dashboard

This section provides a snapshot of key indicators available on the dashboard along with their definitions and their location on the dashboard.

Indicator	Definition	Section in Dashboard			
		Map and Chart Views	ICDS-CAS Fact Sheet	Tabular Report	AWC Report
<b>Program Area: Maternal and Child Nutrition</b>					
% Underweight Children (weight-for-age)	Of the total number of children who were weighed in current month (0-5 years old, alive, open in month, seeking services), the percentage of children who were moderately or severely underweight in current month	✓	✓	✓	✓
% Wasting (weight-for-height)	Of the total number of children who were weighed and had height measured in current month (0-5 years), the percentage of children who were	✓	✓	✓	✓

	moderately or severely wasted in current month				
<b>% Stunting (height-for-age)</b>	Of the total number of children who were weighed in current month (0-5 years), the percentage of children who were moderately or severely stunted in current month	✓	✓	✓	✓
<b>% Newborns with Low Birth Weight</b>	Of the total number of children born in the month and weighed, the percentage of children who were born with a low birth weight	✓	✓	✓	✓
<b>% Weighing efficiency (Children &lt;5 weighed)</b>	Of the total number of children who were eligible to be weighed (0-5 years old, alive, open in month, seeking services), the percentage of children who were weighed	✗	✓	✓	✓
<b>% Early Initiation of Breastfeeding</b>	Of the total number of children born in the month, the percentage of children who were breastfed at birth.	✓	✓	✓	✓
<b>% Exclusive breastfeeding</b>	Of the total number of children eligible for exclusive breastfeeding (0-6 months old), the percentage of children who were exclusively breastfed in the month	✓	✓	✓	✓
<b>% Children initiated appropriate complementary feeding</b>	Of the total number of children eligible for initiation of complementary feeding (6-8 months old), the percentage of children who initiated complementary feeding	✓	✓	✓	✓
<b>% Institutional deliveries</b>	Of the total number of women who were seeking services and delivered in the month, the percentage of institutional deliveries in the month.	✓	✓	✓	✓
<b>Total Number Unweighted</b>	Of the total number of children who were eligible to be weighed (0-5 years old, alive, open in month, seeking services), the total number of children who were unweighted	✗	✓	✓	✗
<b>% Immunization coverage (at age 1 year)</b>	Of the total number of children who are eligible to be fully immunized (older than 12 months), the percentage of	✓	✓	✓	✓

	children who are fully immunized (including late and on time immunizations)				
<b>Program Area: ICDS-CAS Reach</b>					
<b>Number of AWCs Open yesterday</b>	Of the total number of launched AWCs, the number of AWCs that were open yesterday	✓	✓	✓	✗
<b>AWCs covered</b>	Number of launched AWCs (ever submitted at least one Household Registration form)	✓	✗	✗	✗
<b>States/UTs covered</b>	Number of launched States	✓	✗	✗	✗
<b>Districts covered</b>	Number of launched Districts	✓	✗	✗	✗
<b>Block covered</b>	Number of launched Blocks	✓	✗	✗	✗
<b>Sectors covered</b>	Number of launched Sectors	✓	✗	✗	✗
<b>Program Area: Demographics</b>					
<b>Registered Households</b>	Number of households registered	✓	✓	✓	✓
<b>Children (0-6 years)</b>	Number of children 0-6 years old	✗	✓	✓	✓
<b>Children (0-6 years) enrolled for ICDS services</b>	Number of children 0-6 years old who are enrolled for ICDS services	✓	✓	✓	✓
<b>Pregnant Women</b>	Number of pregnant women	✗	✓	✓	✓
<b>Pregnant Women enrolled for ICDS services</b>	Number of pregnant women who are enrolled for ICDS services	✓	✓	✓	✓
<b>Lactating Women</b>	Number of lactating women	✗	✓	✓	✓
<b>Lactating Women enrolled for ICDS services</b>	Number of lactating women who are enrolled for ICDS services	✓	✓	✓	✓
<b>Adolescent Girls (11-14 years)</b>	Number of adolescent girls 11-14 years old	✗	✓	✗	✓

<b>Adolescent Girls (11-14 years) enrolled for ICDS services</b>	Number of adolescent girls 11-14 years old who are enrolled for ICDS services	x	✓	x	✓
<b>Adolescent Girls (15-18 years)</b>	Number of adolescent girls 15-18 years old	x	✓	x	✓
<b>Adolescent Girls (15-18 years) enrolled for ICDS services</b>	Number of adolescent girls 15-18 years old who are enrolled for ICDS services	x	✓	x	✓
<b>Adolescent Girls (11-18 years)</b>	Number of adolescent girls 11-18 years old	x	✓	✓	✓
<b>Adolescent Girls (11-18 years) enrolled for ICDS services</b>	Number of adolescent girls 11-18 years old who are enrolled for ICDS services	✓	✓	✓	✓
<b>Percent children (0-6 years) enrolled for ICDS services</b>	Of the total children registered between the ages of 0-6 years old, the percentage that are enrolled for ICDS services	x	x	x	✓
<b>Percent pregnant women enrolled for ICDS services</b>	Of the total pregnant women registered, the percentage that are enrolled for ICDS services	x	x	x	✓
<b>Percent lactating women enrolled for ICDS services</b>	Of the total lactating women registered, the percentage that are enrolled for ICDS services	x	x	x	✓
<b>Percent adolescent girls (11-18 years) enrolled for ICDS services</b>	Of the total adolescent girls registered between 11-18 years old, the percentage who are enrolled for ICDS services	x	x	x	✓
<b>% Aadhaar seeded individuals</b>	Of the total number of children 0-6 years old, pregnant women, and lactating mothers who are alive, open, and seeking services percentage of those who have an Aadhaar ID	✓	✓	✓	✓
<b>Program Area: AWC Infrastructure</b>					
<b>% AWCs Reported Clean Drinking Water</b>	Of the total number of AWCs that submitted an Infrastructure Details form, the percentage of AWCs who reported having clean drinking water	✓	✓	✓	✓

<b>% AWCs Reported Functional Toilet</b>	Of the total number of AWCs that submitted an Infrastructure Details form, the percentage of AWCs who reported having a functional toilet	✓	✓	✓	✓
<b>% AWCs Reported Medicine Kit</b>	Of the total number of AWCs that submitted an Infrastructure Details form, the percentage of AWCs who reported having a medicine kit	✓	✓	✓	✓
<b>% AWCs Reported Weighing Scale: Infants</b>	Of the total number of AWCs that submitted an Infrastructure Details form, the percentage of AWCs who reported having infant weighing scales	✓	✓	✓	✓
<b>% AWCs with Weighing Scale: Mother and Child</b>	Of the total number of AWCs, the percentage of AWCs with mother and child weighing scales	✓	✓	✓	✓
<b><i>AWC Report: Pre-School Education</i></b>					
<b>AWC Days Open</b>	The number of days AWCs were open in the month	✗	✗	✗	✓
<b>AWC Days Open per week</b>	The number of days AWCs were open in the week	✗	✗	✗	✓
<b>PSE- Average Weekly Attendance</b>	The average number of children who attended preschool education in the week	✗	✗	✗	✓
<b><i>Outcome Area: Behavior Change</i></b>					
<b>Percentage of children complementary feeding</b>	Of the total number of children eligible for complementary feeding (6-24 months old), the percentage of children who were complementary feeding	✗	✓	✓	✗
<b>Percentage of children consuming at least 4 food groups</b>	Of the total number of children eligible for complementary feeding (6-24 months old), the percentage of children who were consuming at least 4 food groups	✗	✓	✓	✗
<b>Percentage of children consuming adequate food</b>	Of the total number of children eligible for complementary feeding (6-24 months old), the percentage of children who were consuming an adequate quantity of food during their last visit (could have been in a previous month)	✗	✓	✓	✗

<b>Percentage of children whose mothers hand wash before feeding</b>	Of the total number of children eligible for complementary feeding (6-24 months old), the percentage of children whose mothers washed their hands prior to feeding during their last visit (could have been in a previous month)	x	✓	✓	x
<b>Percent women Resting during pregnancy</b>	Of the total number of pregnant women that are seeking services, the percentage of women who indicated that they are resting during pregnancy at their last birth preparedness visit (could have been in a previous month)	x	✓	✓	x
<b>Percent eating extra meal during pregnancy</b>	Of the total number of pregnant women that are seeking services, the percentage of women who indicated that they are eating an extra meal during pregnancy at their last birth preparedness visit (could have been in a previous month)	x	✓	✓	x
<b>Percent trimester 3 women Counselled on immediate EBF during home visit</b>	Of the total number of pregnant women in their third trimester, the percentage of women who were counselled on immediate exclusive breastfeeding during their last home visit	x	✓	✓	x
<b><i>Outcome Area: Interventions</i></b>					
<b>Percent Anemic</b>	Of the total number of pregnant women, the percentage of women who were moderately or severely anemic in their last birth preparedness visit (could have been in a previous visit)	x	✓	✓	x
<b>Percent tetanus complete</b>	Of the total number of pregnant women, the percentage of women who completed their tetanus vaccinations	x	✓	✓	x
<b>Percent women had at least 1 ANC visit by delivery</b>	Of the total number of women who delivered in the month and are seeking services, the percentage of women who had at least one ANC visit during their pregnancy	x	✓	✓	x
<b>Percent women had at least 2 ANC visits by delivery</b>	Of the total number of women who delivered in the month and are seeking services, the percentage of women who had at least two ANC visits during their pregnancy	x	✓	✓	x

<b>Percent women had at least 3 ANC visits by delivery</b>	Of the total number of women who delivered in the month and are seeking services, the percentage of women who had at least three ANC visits during their pregnancy	✗	✓	✓	✗
<b>Percent women had at least 4 ANC visits by delivery</b>	Of the total number of women who delivered in the month and are seeking services, the percentage of women who had at least four ANC visits during their pregnancy	✗	✓	✓	✗

## 20. Dashboard Usage Checklist

This section outlines the activities which need to be undertaken by dashboard users on a daily, weekly and monthly basis for effective monitoring of ICDS program.

### **Daily**

- Review Program Summary and note whether data is increasing or decreasing.
- For indicators that are decreasing, view the Map/Chart view to look at trends.
- Go to the Chart view page and view top and bottom performing locations under your administrative level.
- Follow up with these locations to understand reasons for poor performance and identify areas for support.

### **Weekly**

- Use the Map View to see if there are certain areas performing better than others.
- Consider if there are factors specific to those geographic areas influencing the trends.
- Use the Chart View to see how the indicator has changed in the past four months. If there has been a consistent negative trend or significant negative change in the indicator.
- Investigate the reasons for this change.
- Follow up with the respective location leaders to offer support.

### **Monthly**

- Review ICDS-CAS Fact Sheets to see how the current month's progress compares to the past two months.
- Select priority indicators to address in the coming month. Share information about these indicators with your team so they have context on the problem.
  - See Map View to show the status of the indicator across geographic areas.
  - See Chart View to see historical trends on the indicator.
- Make a plan for addressing service delivery indicators that are stagnant or worsening over time.
  - Work with the ICDS team in your administrative area to identify the service delivery inputs that would lead to improved performance on outcomes indicators.
  - Set reasonable targets for improvement. Remember that some indicators will be slower to change than others. Some short-term targets could include increasing the number of AWCS open daily, a high percentage of PSE attendance, and weighing efficiency.
  - Agree on goals for service delivery improvement with the ICDS team in your administrative area.
  - Set up a time to review your progress on this month's goals.

## 21. Decision Making through Dashboard

The ICDS-CAS Dashboard displays data and provides reports on various program areas for administrative officers to interpret as they see fit to the program. This section of the manual aims to

provide some support to administrative officials on how to interact with and understand the various data points and reports available on the dashboard in order to make data-driven decisions in the ICDS program.

In order to provide a detailed understanding of how to navigate the dashboard for use in decision-making to improve service delivery of the ICDS program, two use-cases are presented here:

### **Use Case 1: State Project Management Unit (AWC Infrastructure)**

**Scenario:** SPMU wishes to complete procurement of weighing scales. In order to do so, the SPMU team uses the ICDS-CAS Dashboard to investigate the current status of weighing scales available at AWCs in the State. How can the team access this information from the dashboard?

#### **Steps to be followed on the Dashboard:**

- View State-level Program Summary for AWC Infrastructure to follow up on procurements of scales that were made for several Districts.
- Select “See more” to see District-level data on a Map View.

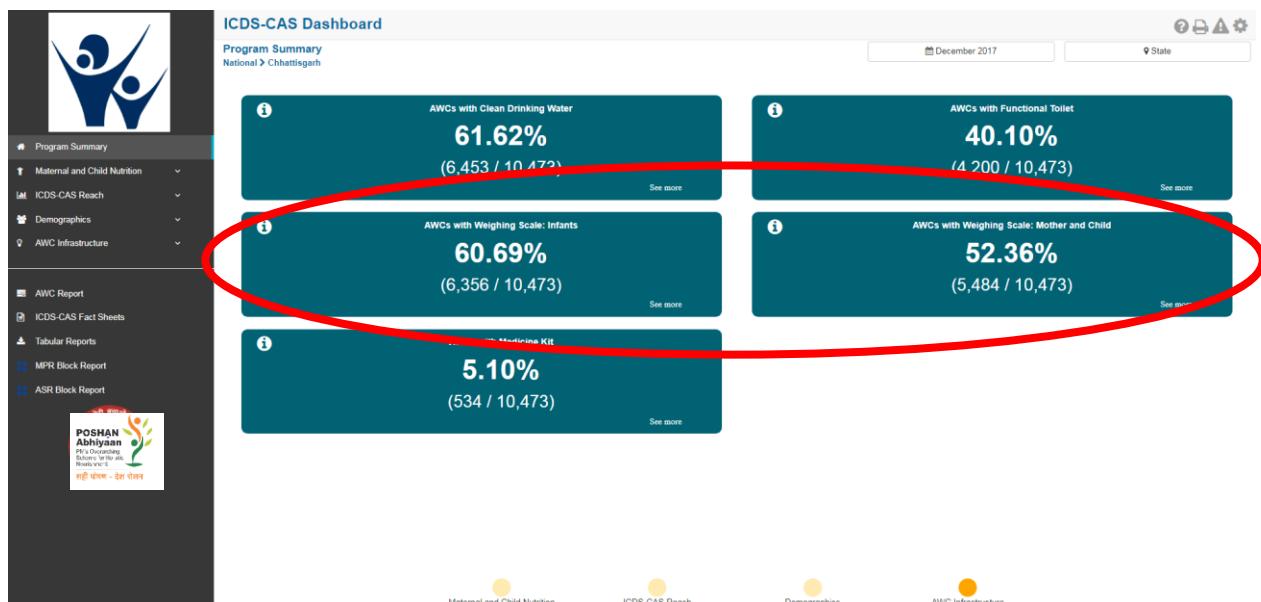

Figure 169: Use Case 1

- Switch to Chart View to see a ranking of top- and bottom-performing Districts.
- Contact lowest-performing Districts to investigate potential bottlenecks in the distribution of scales.
- Encourage District officials to ensure that AWWs are completing the Infrastructure Details form in the ICDS-CAS application.

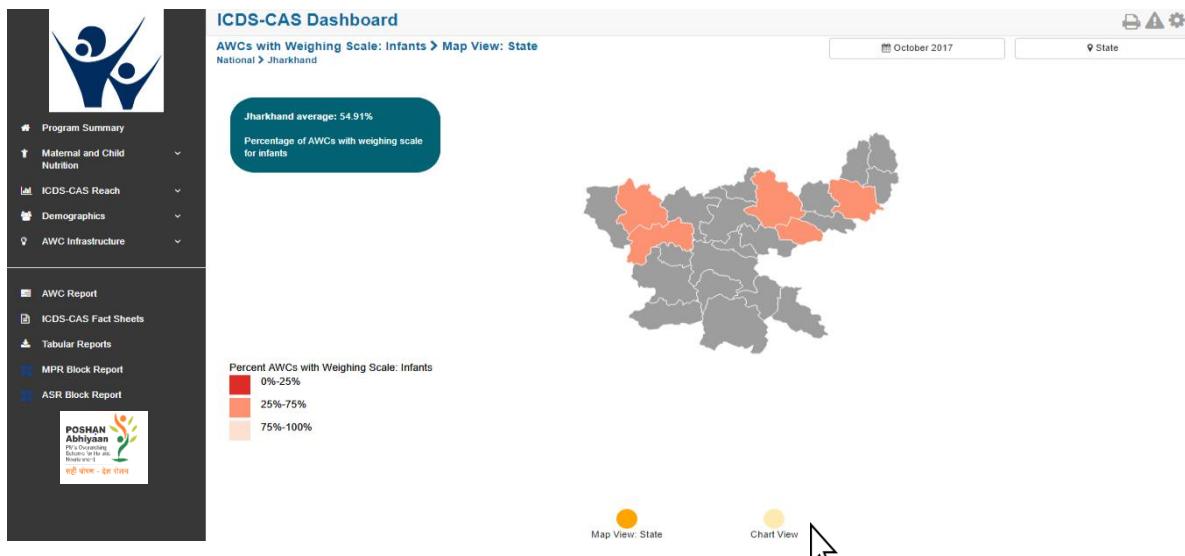

Figure 170: Use Case 1

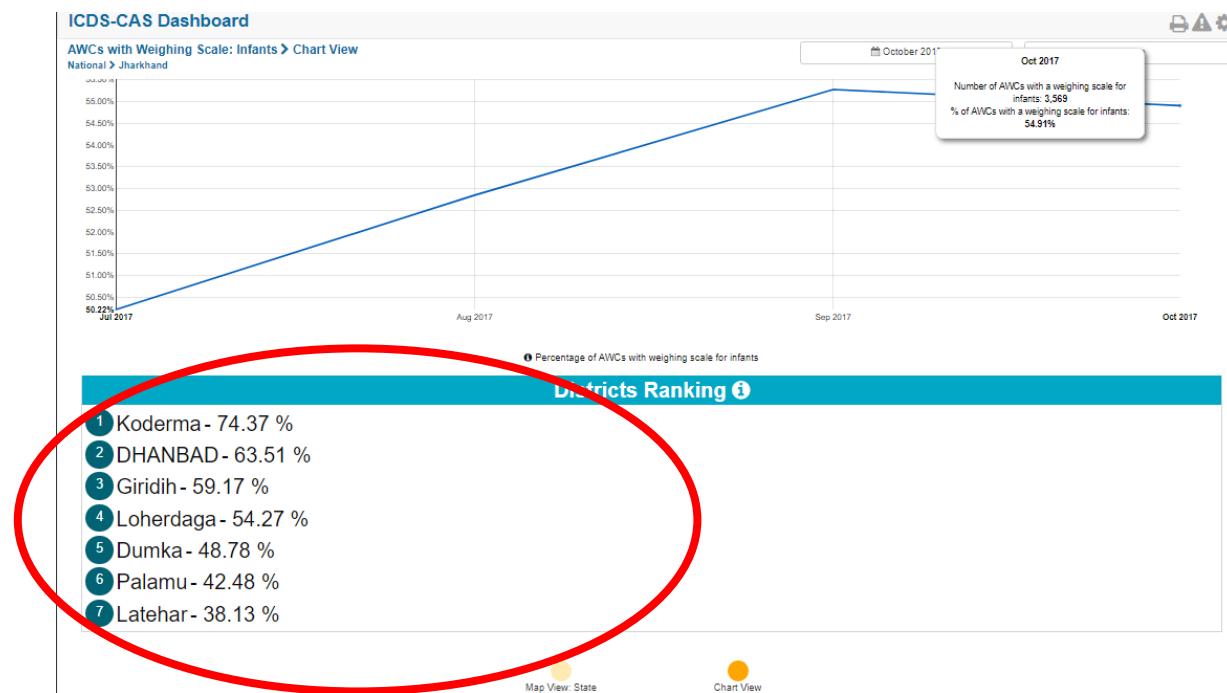

Figure 171: Use Case 1

## Use Case 2: District Program Officer (AWW Performance)

**Scenario:** DPO wishes to monitor the performance of AWWs and follow up with low performing workers. How can the DPO access this information from the dashboard?

### **Steps to be followed on the Dashboard:**

- Views District-level Program Summary for Maternal and Child Nutrition.

- Notice that the indicator Early Initiation of Breastfeeding is very low.
- Select “See more” to see the data on a Map View. Drill down to the Block that shows the lowest percentage of Early Initiation of Breastfeeding.

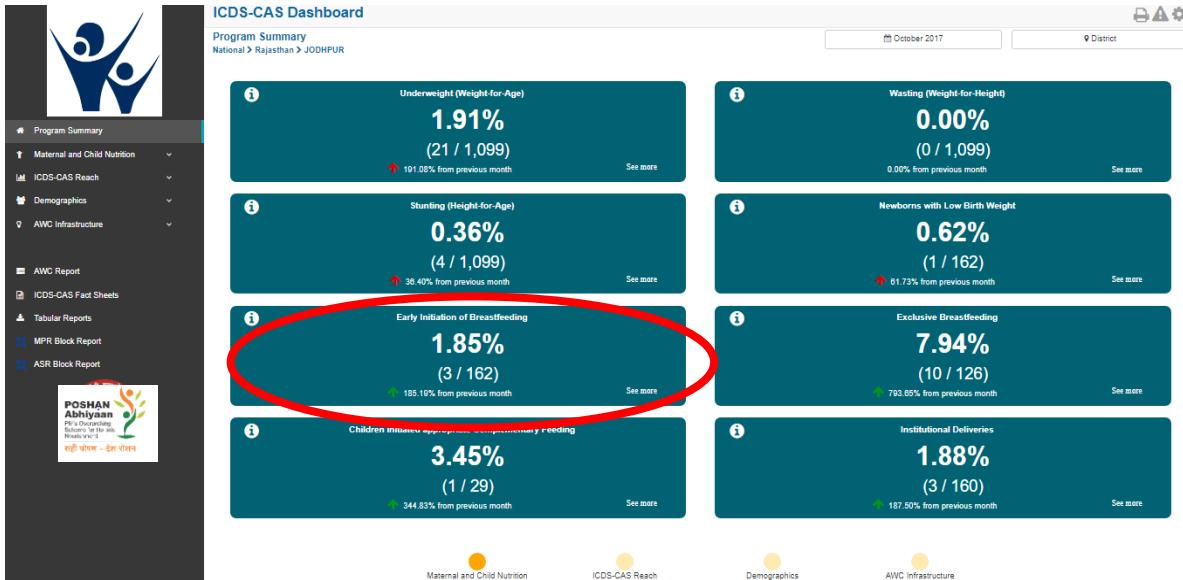

Figure 172: Use Case 2

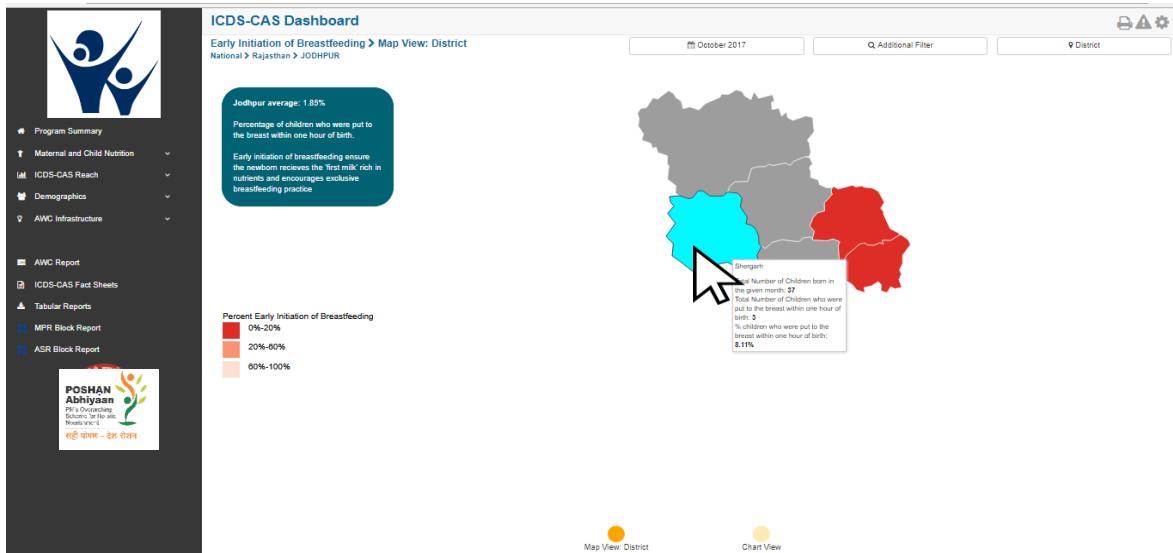

Figure 173: Use Case 2

- Upon looking at the map, notice that one Sector has significantly lower performance on “Early Initiation of Breastfeeding”.
- Switch to chart view to see a ranking of top- and bottom-performing AWCs.

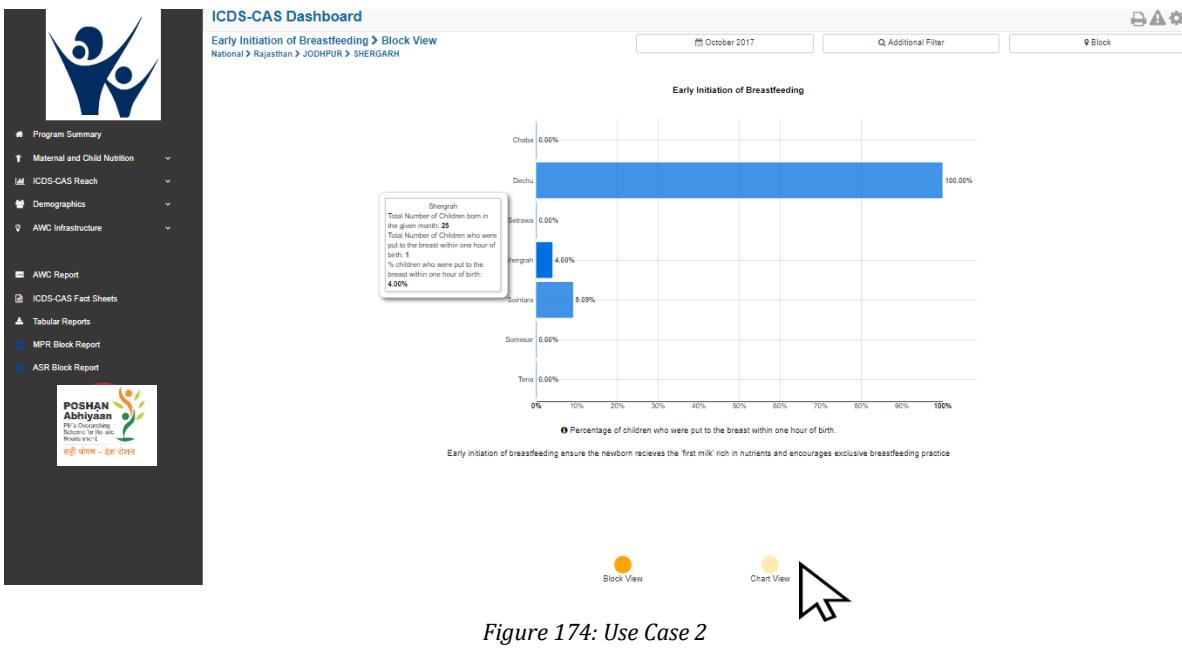

Figure 174: Use Case 2

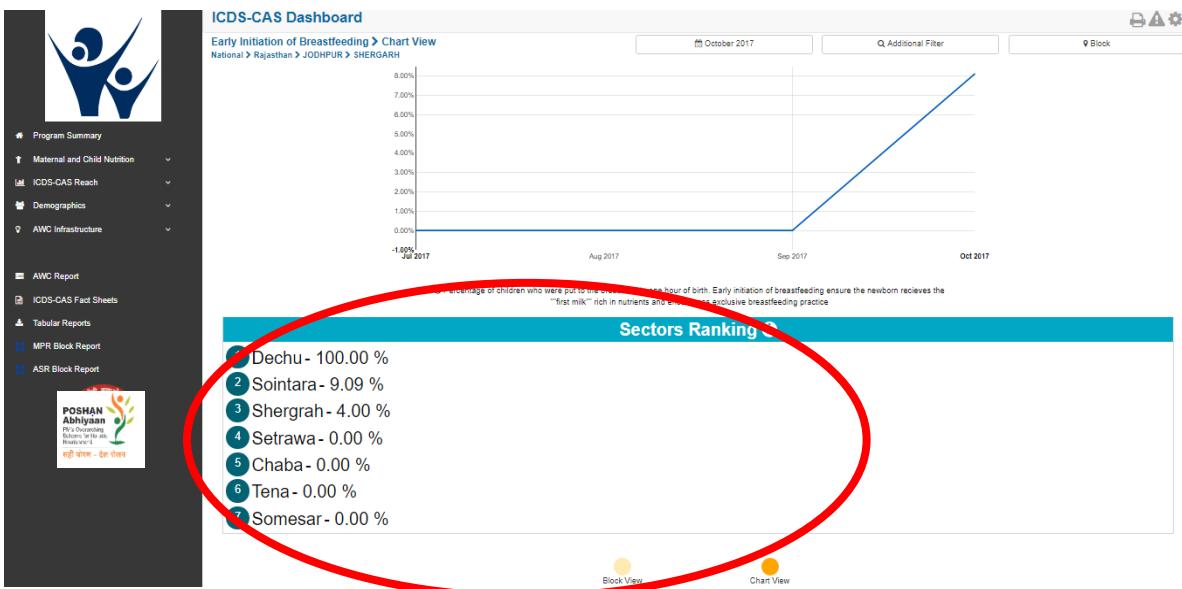

Figure 175: Use Case 2

- Go to Tabular Reports to download the 'Child' report by AWC level for the specific location
- Identify the lowest-performing AWCs
- Call the AWW's supervisor and encourage her to give more mentoring to AWWs about the importance of early initiation of breastfeeding as well as to improve app usage.

Figure 176: Use Case 2

	A	B	C	D	E	F	G	H	I	J	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC	AD	AE	AF	AG	AH

Figure 177: Use Case 2

## 22. Disclaimer

The screenshots and figures shown in the manual are only for reference purpose. The user is requested to visit the ICD-CAS Dashboard for actual and up-to date figures.

## 23. Appendix A

In this appendix, we have three tables describing all the indicators for the CAS Data Export reports for the Mother-CCS record, Child Health & AWC infrastructure respectively. To refer to how to export CAS Data, please refer to the [CAS Data Export](#) section.

Mother-CCS Record (Woman from pregnancy until the lactation phase)	
Indicator	Description
awc_id	Identification ID of Aanganwadi centre
case_id	Unique case id of beneficiary
month	The month which is applicable for the data set downloaded
age_in_months	Age in months at the end of the month
ccs_status	Represents the phase of the beneficiary. This could be pregnant, lactating or other
open_in_month	If the case is open in the month and is relevant for the time window
alive_in_month	Indicates if the beneficiary was alive in that month .'1' indicates alive '0' indicates dead
trimester	Trimester of the beneficiary. Values 1,2,& 3 indicate pregnant woman. Blank indicate lactating woman. All indicate any non-AWC row
num_rations_distributed	Indicates the count of THRs (Take Home Ration) distributed in the month for the beneficiary.
thr_eligible	Whether the beneficiary is eligible for Take Home Rations.
tetanus_complete	Whether or not the tetanus vaccination was administered in completion
delivered_in_month	Indicates if the delivery took place in the relevant month
anc1_received_at_delivery	If at least 1 ANC visit by the time of delivery
anc2_received_at_delivery	If at least 2 ANC visit by the time of delivery
anc3_received_at_delivery	If at least 3 ANC visit by the time of delivery
anc4_received_at_delivery	If at least 4 ANC visit by the time of delivery
registration_trimester_at_delivery	Trimester in which the beneficiary was registered for the pregnancy
using_ifa	If pregnant seeking services cases who indicated, they were using IFA (Iron/Folic Acid) tablets during their last visit before end of month

ifa_consumed_last_seven_days	Trimester 2 or 3 cases who indicated they were used more than 4 IFA (Iron/Folic Acid) tablets during the last 7 days on their last BP visit (before end of month)
anemic_severe	Pregnant seeking services woman who were severe for anemia during their last BP visit updating it (could have been in previous month)
anemic_moderate	Pregnant seeking services woman who were moderate for anemia during their last BP visit updating it (could have been in previous month)
anemic_normal	Pregnant seeking services woman who were normal for anemia during their last BP visit updating it (could have been in previous month)
anemic_unknown	Pregnant seeking services woman who there is no anemia information
extra_meal	Pregnant seeking services woman who are eating extra indicated during last BP visit (could have been in previous month)
resting_during_pregnancy	Pregnant seeking services who are resting during pregnancy indicated during last BP visit (could have been in previous month)
bp_visited_in_month	Indicates if there is a BP form submitted in the month. 1 - Form submitted, 0- Not submitted
pnc_visited_in_month	If there is a post-natal check-up form submitted in month then 1 else 0
trimester_2	1 if the pregnant woman is in trimester 2 else 0
trimester_3	1 if the pregnant woman is in trimester 3 else 0
counsel_immediate_bf	Trimester_3 woman counselled on immediate breastfeeding in the Birth Preparedness form submitted prior to delivery
counsel_bp_vid	Trimester_3 woman counselled on BP using a video
counsel_preparation	Trimester_3 woman counselled on birth preparation
counsel_fp_vid	Trimester_3 woman counselled on Family planning using a video
counsel_immediate_conception	Trimester_3 woman counselled risks of immediate conception
counsel_accessible_postpartum_fp	Trimester_3 woman counselled on accessing postpartum family planning
bp1_complete	Pregnant seeking services woman who have received a BP1 visit (could have been in previous month)
bp2_complete	Pregnant seeking services woman who have received a BP2 visit (could have been in previous month)
bp3_complete	Pregnant seeking services woman who have received a BP3 visit (could have been in previous month)
pnc_complete	Postnatal seeking services woman who have received a post natal check visit (could have been in previous month)
postnatal	Postnatal woman (within 0 and 21 days of ADD)
has_aadhar_id	Whether Aadhaar id has been captured
counsel_fp_methods	If lactating and any EBF or PNC form has counsel_methods = yes
pregnant	Open, non-dead cases that are seeking services at the AWC that have not yet delivered

pregnant_all	Open, non-dead cases that have not yet delivered - includes cases that are both seeking and not seeking services
lactating	Open, non-dead cases that are seeking services at the AWC and between 0 and 6 months post delivery
lactating_all	Open, non-dead cases and between 0 and 6 months post delivery - includes cases that are both seeking and not seeking services
institutional_delivery_in_month	Delivered_in_month woman who had an institutional deliver
add	Actual Date of Delivery
anc_in_month	Whether ANC checkup was conducted in the month
caste	Caste
disabled	Disabled Flag
minority	Minority Flag
resident	Resident Flag
anc_weight	Weight at antenatal check
anc_blood_pressure	Blood Pressure at antenatal check
bp_sys	Blood Pressure systolic
bp_dia	Blood Pressure diastolic
anc_hemoglobin	Hemoglobin at antenatal check
bleeding	If bleeding was a symptom during ANC check up
swelling	If swelling was a symptom during ANC check up
blurred_vision	If blurred vision was a symptom during ANC check up
convulsions	If convulsions were a symptom during ANC check up
rupture	If rupture was a symptom during ANC check up
anemia	Indicate if the pregnant woman is suffering from anemia
eating_extra	Indicated if the pregnant woman is eating extra meals
resting	Indicated if the pregnant woman is taking rest
immediate_breastfeeding	Whether the mother was counselled on immediate breastfeeding post delivery
person_name	Masked to protect privacy
edd	Expected date of Delivery
delivery_nature	Indicates if the delivery was institutional or not
is_ebf	Indicates if the child was exclusively breastfed
breastfed_at_birth	Indicates if the child was breastfed immediately after birth
anc_1	Antenatal check-up 1 date
anc_2	Antenatal check-up 2 date
anc_3	Antenatal check-up 3 date
anc_4	Antenatal check-up 4 date
tt_1	Date when Tetanus 1 was administered
tt_2	Date when Tetanus 2 was administered
valid_in_month	Valid in month (open, non-dead child health cases between 0-72 months that are seeking services at the AWC)
mobile_number	Mobile number for the beneficiary
preg_order	Which pregnancy
home_visit_date	Home visit date
num_pnc_visits	PNC visits count
last_date_thr	Date of last THR given
num_anc_complete	Antenatal check-ups that have been completed
opened_on	Date of case opening

valid_visits	Number of valid home visits administered
dob	Date of birth
date_death	Date of death

Child Health Data (children from 0 to 6 years)	
Indicator	Description
awc_id	Identification ID of Aanganwadi centre
case_id	Unique case id of beneficiary
month	The month which is applicable for the data set downloaded
age_in_months	Childs age in months at the end of the month
open_in_month	If the case is open in the month and is relevant for the time window
alive_in_month	Indicates if the beneficiary was alive in that month.'1' indicates alive '0' indicates dead
wer_eligible	Number of children who are eligible for weighing (between 0 and 5 years and valid in month)
nutrition_status_last_recorded	Indicate the last recorded nutritional status of the child. Possible values are normal, moderately underweight, severely underweight and unknown. 'Unknown' indicate that child has never been weighed in the past
current_month_nutrition_status	Indicate the nutritional status of the child in the current month. Possible values are normal, moderately underweight, severely underweight and unweighed. 'Unweighed' indicate that child has not been weighed in the month
nutrition_status_weighed	Whether or not the child was weighed in the reporting month
num_rations_distributed	For each THR (Take home Ration) form submitted for iteration month for the ccs_record case, sum of the number of rations received
pse_eligible	If the child is pre-school eligible (between 36 and 72 months and valid in month)
pse_days_attended	Number of PSE days attended in month by child
born_in_month	Child born in month (based on DOB being within the month)
low_birth_weight_born_in_month	Indicates if the child is born in this property and has low birth weight
bf_at_birth_born_in_month	Indicates if the child is born in this month and was breastfed at birth
ebf_eligible	Is the child exclusive breast feeding eligible (between 0 and 6 months and valid in month)

ebf_in_month	Exclusive breast feeding (EBF) eligible children who were EBF during an EBF/PNC visit in the month
ebf_not_breastfeeding_reason	If ebf_eligible is 1, then for EBF/PNC forms received for child in the month, value of latest form with regards to reason of why they are not breastfeeding
ebf_drinking_liquid	If ebf_eligible is 1, then for EBF/PNC forms received for child in the month, if /data/child/water_or_milk = 'yes' or /data/child/tea_other = 'yes', then 1 else 0
ebf_eating	If ebf_eligible, then for EBF/PNC forms received for child in the month, if latest form's /child/eating = 'yes' then 1 else 0
ebf_no_bf_no_milk	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'not_enough_milk' (for that particular child) then 1 else 0
ebf_no_bf_pregnant_again	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'pregnant_again' (for that particular child) then 1 else 0
ebf_no_bf_child_too_old	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'child_too_old' (for that particular child) then 1 else 0
ebf_no_bf_mother_sick	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'child_mother_sick' (for that particular child) then 1 else 0
cf_eligible	If child is complementary feeding eligible (between 6 and 24 months and valid in month)
cf_in_month	Complementary feeding eligible children who were CF during their last visit (could be in a previous month)
cf_diet_diversity	Complementary feeding eligible children who eating a diverse diet during their last visit (could be in a previous month)
cf_diet_quantity	Complementary feeding eligible children who were eating adequate amounts of food during their last visit (could be in a previous month)
cf_handwashing	Complementary feeding eligible children whose mothers handwashed prior to feeding during the last visit (could have been a prior month)
cf_demo	Complementary feeding eligible children who have received a demo of complementary feeding at any point before the end of the current month
fully_immunized_eligible	If age in months at month end > 12 and the beneficiary is valid_in_month
fully_immunized_on_time	If fully immunized before the child turns 1 year and the full immunization happened previous to the current month
fully_immunized_late	If fully immunized after the child turns 1 year and the full immunization happened previous to the current month
counsel_ebf	Exclusive breast feeding eligible child whose mothers were counselled exclusive breastfeeding or using only milk (question is asked in two ways depending on PNC or EBF form) (at any point prior to end of month)

counsel_adequate_bf	Exclusive breast feeding eligible children whose mothers were counselled on adequate breastfeeding (at any point prior to end of month)
counsel_pediatric_ifa	Complementary feeding eligible children whose mothers were counselled on pediatric IFA tablets (at any point prior to end of month)
counsel_comp_feeding_vid	If the child was eligible for complementary feeding and said 'yes' to showing complementary feeding video to the beneficiary
counsel_increase_food_bf	Post-natal check eligible child whose mother was counselled to increase food consumption (because of breastfeeding) (at any point prior to end of month)
counsel_manage_breast_problems	Post-natal check eligible child whose mother was counselled on managing breastfeeding problems (at any point prior to end of month)
counsel_skin_to_skin	If post-natal check eligible child and for child prior to end of month had skin to skin counselling administered
counsel_immediate_breastfeeding	If the child born in month and valid_in_month with a ccs record that has a BP form with /data/.../immediate_breastfeeding = "yes" then 1 else 0
recorded_weight	Recorded Weight
recorded_height	Recorded Height
has_aadhar_id	Does the child have an Aadhaar ID captured
thr_eligible	If child is eligible for THR (between 6 and 36 months and valid in month)
pnc_eligible	Post-natal check eligible child (between the ages 0 and 20 days and valid in month) at any point during the month. (This means that a child may count as PNC eligible for two subsequent months)
cf_initiation_in_month	Complementary feeding initiation eligible children who were administered complementary feeding at any point prior to the end of the month
cf_initiation_eligible	If child is eligible to initiate CF (between 6-8 months and valid in month)
height_measured_in_month	Children who were eligible to be measured and who had their height measured in month
current_month_stunting	if not height_eligible, blank/null Indicate the stunting level in child for the current month. Below are the possible values severe moderate normal unmeasured

stunting_last_recorded	if height_eligible: Get the zscore_grading_hfa from the last additional growth monitoring form where it was not null. Then red -> severe yellow -> moderate green -> normal otherwise -> unknown  if not height_eligible, blank/null
wasting_last_recorded	if height_eligible: Get the zscore_grading_wfh from the last additional growth monitoring form where it was not null. Then red -> severe yellow -> moderate green -> normal otherwise -> unknown  if not height_eligible, blank/null
current_month_wasting	if height_eligible: Get the zscore_grading_wfh from the last additional growth monitoring form in the month where zscore_grading_wfh was not null. Then red -> severe yellow -> moderate green -> normal otherwise -> unmeasured  if not height_eligible, blank/null
valid_in_month	Valid in month (open, non-dead child health cases between 0-72 months that are seeking services at the AWC)
valid_all_registered_in_month	Open, non-dead child health cases between 0-72 months - this includes both those cases seeking and not seeking services
ebf_no_info_recorded	Indicates If the child is eligible for exclusive breast feeding but no ebf form is received. It will reflect a value '1' in this case and '0' otherwise
dob	Date of Birth
sex	Sex of the child
age_tranche	Age range for the row 0: 0-28 days 6: 28 days - 6 mo 12: 6-12mo 24: 12-24mo 36: 24-36mo 48: 36-48mo 60: 48-60mo 72: 60-72mo
caste	Caste
disabled	Disabled Flag
minority	Minority Flag
resident	Resident Flag
person_name	Masked to protect privacy

mother_name	Masked to protect privacy
immunization_in_month	Indicates if immunization was given in this month
days ration given child	Number of days child has been given take home ration
zscore_grading_hfa	Grading for height for age, can be red, yellow or green
zscore_grading_hfa_recorded_in_month	If the grading was done in the current month then 1, else 0
zscore_grading_wfh	Grading for weight for height, can be red, yellow or green
zscore_grading_wfh_recorded_in_month	If the grading was done in the current month then 1, else 0
muac_grading	If MUAC was collected, then grading
ccs_record_case (best effort)	ccs_case id linked with this child case
date_death	date of death

AWC Infrastructure	
Indicator	Description
state_id	Unique identification for the state
district_id	Unique identification District (could be All for aggregation)
block_id	Unique identification block (could be All for aggregation)
supervisor_id	Unique identification for supervisor (could be All for aggregation)
awc_id	Anganwadi Identification number
month	Month for the data (date that is the first of the month)
num_awcs	Number of AWC locations
awc_days_open	Total number of days AWCs were open in that month (across all AWCs in the aggregation)
total_eligible_children	Total number of eligible children for Pre-school education (PSE) for that month
total_attended_children	Total number of attended children for Pre-school education (PSE) for that month
pse_avg_attendance_percent	Average attendance per day
pse_full	Number of days that AWCs that had full attendance (>= 80%)
pse_partial	Number of days that AWCs that had partial attendance (< 80% and >= 60%)
pse_non	Number of days that AWCs that had non attendance (< 60%)
pse_score	Average of the pre-school education score
awc_days_provided_breakfast	Number of days in which AWC provided breakfast
awc_days_provided_hotmeal	Number of days in which AWC provided hotmeal
awc_days_provided_thr	Number of days in which AWC provided Take Home Ration (THR)
awc_days_provided_pse	Number of days in which AWC provided Pre-school education (PSE)
awc_not_open_holiday	Number of days in which AWC was not open due to Holiday
awc_not_open_festival	Number of days in which AWC was not open due to Festival

awc_not_open_no_help	Number of days in which AWC was not open due to AWC not having helpers
awc_not_open_department_work	Number of days in which AWC was not open due to AWC having department work
awc_not_open_other	Number of days in which AWC was not open due to other reasons
awc_num_open	Number of AWCs that were open at least one day in the month
awc_not_open_no_data	Number of days in which AWC was not open and did not report it Take Home Ration (THR)ough the app
wer_weighed	Number of children weighed
wer_eligible	Number of children who are eligible for weighing (between 0 and 5 years and valid in month)
wer_score	Average of WER score for each AWC wer_score = 20 when $\text{sum}(\text{wer\_weighed})/\text{sum}(\text{wer\_eligible}) \geq 80\%$ wer_score = 10 when $\text{sum}(\text{wer\_weighed})/\text{sum}(\text{wer\_eligible}) \geq 60\%$ wer_score = 1 otherwise
thr_eligible_child	Number of children eligible for Take Home Ration (THR) (6 - 36mo)
thr_rations_21_plus_distributed_child	Number of children who received 21+ rations in month
thr_eligible_ccs	Number of ccs records eligible for Take Home Ration (THR) (pregnant women, or lactating women for 6mo post-delivery)
thr_rations_21_plus_distributed_ccs	Number of eligible CCS records who received 21+ rations
thr_score	Average of THR score for each AWC thr_score = 20 when sum (thr_rations_21+ for child and ccs)/sum(thr_eligible for child and ccs) $\geq 70\%$ thr_score = 10 when sum(thr_rations_21+ for child and ccs)/sum(thr_eligible for child and ccs) $\geq 50\%$ thr_score = 1 otherwise
awc_score	Average of AWC score for each AWC awc_score = pse_score + thr_score + wer_score
num_awc_rank_functional	Number of AWCs where awc_score $\geq 60$
num_awc_rank_semi	Number of AWCs where awc_score < 60 and $\geq 40$
num_awc_rank_non	Number of AWCs where awc_score < 40
cases_ccs_pregnant	Number of CCS records that are pregnant in month who are seeking services at AWC
cases_ccs_lactating	Number of CCS records that are lactating in month (up to 6mo post-delivery) who are seeking services at AWC
cases_child_health	Number of child health cases in month (children between 0 and 6 years) who are seeking services at AWC
usage_num_pse	Number of Daily Attendance forms submitted
usage_num_gmp	Number of GMP forms submitted
usage_num_thr	Number of THR forms submitted
usage_num_home_visit	Number of Home Visit forms (BP, PNC, Delivery, EBF, CF) forms submitted
usage_num_bp_tri1	Number of BP forms submitted in Trimester 1
usage_num_bp_tri2	Number of BP forms submitted in Trimester 2

usage_num_bp_tri3	Number of BP forms submitted in Trimester 3
usage_num_pnc	Number of Prenatal check (PNC) forms submitted
usage_num_ebf	Number of Exclusive breast feeding (EBF) forms submitted
usage_num_cf	Number of complementary feeding (CF) forms submitted
usage_num_delivery	Number of Delivery forms submitted
usage_num_due_list_ccs	Number of Due List forms submitted for CCS records
usage_num_due_list_child_health	Number of Due List forms submitted for Child Health cases
usage_awc_num_active	Number of AWCs active (submitted 15 or more forms of due list, Pre-school education (PSE), GMP, THR, home visit, add pregnancy or add household)
usage_time_pse	Average time to complete a Pre-school education (PSE) form
usage_time_gmp	Average time to complete a GMP form
usage_time_bp	Average time to complete a BP form
usage_time_pnc	Average time to complete a Prenatal check (PNC) form
usage_time_ebf	Average time to complete a Exclusive breast feeding(EBF) form
usage_time_cf	Average time to complete a complementary feeding (CF) form
usage_time_of_day_pse	#N/A
usage_time_of_day_home_visit	#N/A
vhsnd_immunization	Number of VHSND Immunizations
vhsnd_anc	Number of VHSND ANC visits
vhsnd_gmp	Number of VHSND growth monitoring sessions
vhsnd_num_pregnancy	Number of Pregnant women at VHSND
vhsnd_num_lactating	Number of Lactating women at VHSND
vhsnd_num_mothers_6_12	Number of mothers with children between 6 and 12 months at VHSND
vhsnd_num_mothers_12	Number of mothers with children older than 12 months at VHSND
vhsnd_num_fathers	Number of fathers at VHSND
ls_supervision_visit	Number of LS supervision visits
ls_num_supervised	Number of AWCs supervised in month
ls_awc_location_long	Average location of Supervision Visit (longitude)
ls_awc_location_lat	Average location of Supervision Visit (latitude)
ls_awc_present	Number of supervision visits in which AWW was present
ls_awc_open	Number of supervision visits in which AWC was open
ls_awc_not_open_aww_not_available	Number of supervision visits in which AWC was not open due to AWW not available
ls_awc_not_open_closed_early	Number of supervision visits in which AWC was not open due to AWC closed early
ls_awc_not_open_holiday	Number of supervision visits in which AWC was not open due to holiday
ls_awc_not_open_unknown	Number of supervision visits in which AWC was not open due to unknown reason
ls_awc_not_open_other	Number of supervision visits in which AWC was not open due to other reason
infra_last_update_date	#N/A
infra_type_of_building	#N/A
infra_type_of_building_pucca	Number of AWCs with Pucca buildings

infra_type_of_building_semi_pucca	Number of AWCs with Semi Pucca buildings
infra_type_of_building_kuccha	Number of AWCs with Kuccha buildings
infra_type_of_building_partial_covered_space	Number of AWCs with partially covered space as their building
infra_clean_water	Number of AWCs with clean water access (answers 1 2 and 3 in the app)
infra_functional_toilet	Number of AWCs with a functional toilet
infra_baby_weighing_scale	Number of AWCs with a baby weighing scale
infra_flat_weighing_scale	Number of AWCs with a flat weighing scale
infra_adult_weighing_scale	Number of AWCs with an adult weighing scale
infra_cooking_utensils	Number of AWCs with a cooking utensil
infra_medicine_kits	Number of AWCs with a medicine kit
infra_adequate_space_pse	Number of AWCs with adequate space for Pre-school education (PSE)
cases_person_beneficiary	Total number of person cases under 6 years old and women between 11 and 49 years old, alive and seeking services
cases_person_referred	Number of person cases that have been referred in the month
awc_days_pse_conducted	Number of days that Pre-school education (PSE) were conducted at the AWC
num_awc_infra_last_update	#N/A
'	#N/A
cases_person_beneficiary_v2	#N/A
electricity_awc	#N/A
infantometer	#N/A
stadiometer	#N/A
num_anc_visits	#N/A
num_children_immunized	#N/A
usage_num_hh_reg	Number of Household registration forms submitted
usage_num_add_person	Number of Add person forms submitted
usage_num_add_pregnancy	Number of Add pregnancy forms submitted
is_launched	Is launched (submitted at least one HH reg form) - yes or no
training_phase	Training phase for a single AWC (blanked for rolled-up data)
trained_phase_1	Number of AWCs in training phase 1 (ever submitted an HH reg form) and not in phase 2, 3 and 4
trained_phase_2	Number of AWCs in training phase 2 (ever submitted an add pregnancy form) and not in phase 3 and 4
trained_phase_3	Number of AWCs in training phase 3 (ever submitted a due list form) and not in phase 4
trained_phase_4	Number of AWCs in training phase 4 (ever submitted a THR form) and not in phase 4
aggregation_level	This identifies the level of aggregation for the data 5 - AWC wise 4 - Supervisor wise 3 - Block wise 2 - District wise 1 - state wise
num_launched_states	Number of states that have launched AWCs (blank if not viewing state-wise data)

num_launched_districts	Number of districts that have launched AWCs (blank if not viewing state or district wise data)
num_launched_blocks	Number of blocks that have launched AWCs (blank if viewing supervisor or AWC wise data)
num_launched_supervisors	Number of supervisors that have launched AWCs (blank if viewing AWC wise data)
num_launched_awcs	Number of launched AWCs (ever submitted at least one HH reg form)
cases_household	Number of Household cases open in month
cases_person	Number of person cases who are seeking services at the AWC
cases_person_all	Total number of person cases registered through the app
cases_person_has_aadhaar	Total number of person cases under 6 years old and between 11 and 49 years old, alive and seeking services who have an aadhaar ID
cases_ccs_pregnant_all	Total Number of CCS records that are pregnant in month
cases_ccs_lactating_all	Total Number of CCS records that are lactating in month (up to 6mo post-delivery)
cases_child_health_all	Total Number of child health cases in month (children between 0 and 6 years)
cases_person_adolescent_girls_11_14	Number of female person cases between 11 and 15 years old who are seeking services at the AWC
cases_person_adolescent_girls_15_18	Number of female person cases between 15 and 18 years old who are seeking services at the AWC
cases_person_adolescent_girls_11_14_all	Total Number of female person cases between 11 and 15 years old
cases_person_adolescent_girls_15_18_all	Total Number of female person cases between 15 and 18 years old
infra_infant_weighing_scale	Total number of AWCs with either a baby or a flat weighing scale
